Migrants shaping Europe, past and present Helen Solterer, Vincent Joos, 2022-11-08 This pioneering volume explores the contribution of migrants to European culture from the early modern era to today It takes culture as an aesthetic and social activity of making one practised by migrants on the move and also by those who represent their lives in an act of support Adopting a multilingual approach the book interprets the aesthetics and political practices developed by and with migrants in Spain Italy and France It juxtaposes early modern and modern work with contemporary reconceiving migrants as crucial agents of change Scholars and artists track people on the move within the continent and without drawing a significant map for the cultural history of migration around Europe An electronic version of this book is available under a Creative Commons

**Migration and Modernities** DeLucia JoEllen DeLucia, 2018-11-27 Recovers a comparative literary history of migration This collection initiates transnational transcultural and interdisciplinary conversations about migration in the eighteenth and nineteenth centuries Migrants are by definition liminal and many have existed historically in the murky spaces between nations regions or ethnicities These essays together traverse the globe revealing the experiences real or imagined of eighteenth and nineteenth century migrants from dispossessed Native Americans to soldiers in South America Turkish refugees to Scottish settlers They explore the aesthetic and rhetorical frameworks used to represent migrant experiences during a time when imperial expansion and technological developments made the fortunes of some migrants and made exiles out of others These frameworks continue to influence the narratives we tell ourselves about migration today and were crucial in producing a distinctively modern subjectivity in which mobility and rootlessness have become normative Key Features Offers a comparative framework for understanding the modern history of migration and the aesthetics of mobility Foregrounds interdisciplinary debates about belonging rights and citizenship Demonstrates how mobility unsettles the national cultural racialized and gendered frames we often use to organize literary and historical study Brings
