Five Thousand French Idioms, Gallicisms, Proverbs, Idiomatic Adverbs, Idiomatic Adjectives, Idiomatic Comparisons Charles M. Marchand,1905 **European Intertexts** Patsy Stoneman,Ana María Sánchez-Arce,Angela Leighton,2005
European Intertexts is the first fruit of an ongoing collaborative study aiming to challenge the isolationism of much critical work on English literature by exploring the interdependence of English and continental European literatures in writing by women While later volumes will deal with specific texts this introductory volume provides a descriptive framework and a theoretical basis for studies in the field Covering issues such as the role of English as a world language the definition of Europe and the current state of Translation Studies the book also surveys theories of intertextuality and demonstrates intertextual links between written and visual and film texts This book is itself pioneering in making a systematic approach to women s writings in English in the context of other European cultures Although Europe is a political reality this cultural interpenetration remains largely unexamined and these essays represent an important first step towards revealing that unexplored richness *Temporal Regimes* Felipe Torres,2021-09-05 Temporal Regimes provides a theoretical framework for understanding the temporal structures of society a conceptually rich empirically nuanced and culturally embodied account of temporal phenomena in contemporary world What does it imply temporal regimes How the everyday life as well as the global mobilities coordination requires temporal underpinnings The answers to these questions mean more than simply understanding the general thesis on acceleration or space time compression on the one hand but also a micro multiple localised time experience by gender class or age on the other They also mean understanding in an integrative way the very structural temporalities within the everyday lived embodied and situated ones They require both a robust and flexible epistemic analysis considering their material bedrock through political and technological forefront dimensions Advancing a rigorous well grounded theoretical understanding and offering a useful way to analytically conceptualise the temporal dynamics on our societies this book will be of interest to advanced students and scholars enquiring a rich set of topics ranging from time and politics new materialism conceptual history as well as technology collective action and social change
Shock Waves George J. De Benedetti,Rodolphe H. Lamarche,1994 *The Consecration of the Writer, 1750-1830* Paul Bănichou,1999-01-01 The Consecration of the Writer is the definitive study of the first stages of a phenomenon that has profoundly affected world literature the process by which modern writers ceased to speak as representatives of some

religious or political power and instead seized the mantle of spiritual authority in their own right speaking directly to and in the name of humanity Paul B nichou identifies three great moments in this process the advent of the Enlightenment faith in philosophy and the rise of its literary concomitant the man of letters the literary creations of the counterrevolution and their surprising involvement in the elevation of the status of poetry and finally the fusion of these tendencies in the early phases of romanticism in France B nichou deepens our understanding of romanticism by showing that it was a revision of the Enlightenment faith rather than a reaction against it The extraordinary depth of B nichou s research the originality of his conclusions and the importance of his methodological reflections make this study an essential reference in the contemporary return to literary history

Vision in the Novels of George Sand Manon Mathias, 2016 The nineteenth century novelist George Sand is most famous today for her tumultuous love life and trouser wearing days in Paris but she achieved major commercial and critical success in her day and has gradually made her way back into the literary canon Mainly known for her pastoral tales and allegedly simplistic idealism Sand in fact produced around ninety novels which experiment with a wide range of themes forms and aesthetic models This book offers the first study of vision in Sand s works It argues that rather than rejecting reality in favour of the ideal Sand integrates physical observation with internal forms of seeing such as the imagination and visionary insights The study maintains that Sand s understanding of vision provides the basis for her distinctive style and challenges conventional categorisations of the novel in this period

Dreams of Happiness Neil McWilliam, 2017-03-14 Responding to the decline of the monarchy and the church in post revolutionary France theorists representing a wide spectrum of leftist ideologies proposed comprehensive blueprints for society that assigned a crucial role to aesthetics In this full length investigation of social romanticism Neil McWilliam explores the profound impact of radical philosophies on contemporary aesthetics and art criticism and traces efforts to conscript the arts for doctrinal ends He highlights the complexity and diversity of systems such as Saint Simonianism Fourierism Republicanism and Christian Socialism movements that set out to exploit the ameliorative effect of aesthetic form on human consciousness and challenges the previous linking of social art to narrow didacticism This book seeks an understanding both of the conventions of artistic judgment and reception and of the aims and significance of radical political ideologies Drawing on a broad spectrum of previously neglected journalistic criticism visual material and archival sources together with key political texts by figures such as Saint Simon Philippe Buchez and Pierre Leroux this work reveals an important facet of radical history and modifies received understandings of French art in the wake of Romanticism In the process it probes the role of culture within oppositional political practice arguing that the ultimate failure to realize a social art exposes the limits of the radicals break with dominant discourse and their hesitancy in forging links with a culturally disenfranchised working class Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the

original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
