## **Reshaping Americas Military Four Alternatives:**

**Reshaping America's Military** Lawrence J. Korb, Council on Foreign Relations, 2002 From the John Holmes Library collection     *Shaping American Military Capabilities after the Cold War* Richard Lacquement, 2003-02-28 For more than 40 years U S defense policy and the design of military capabilities were driven by the threat to national security posed by the Soviet Union and its allies As the Soviet Union collapsed analysts wondered what effect this dramatic change would have upon defense policy and the military capabilities designed to support it Strangely enough this development would ultimately have little effect on our defense policy Over a decade later American forces are a smaller but similar version of their Cold War predecessors The author argues that despite many suggestions for significant change the bureaucratic inertia of comfortable military elites has dominated the defense policy debate and preserved the status quo with only minor exceptions This inertia raises the danger that American military capabilities will be inadequate for future warfare in the information age In addition such legacy forces are inefficient and inappropriately designed for the demands of frequent and important antiterrorist and peace operations Lacquement offers extensive analysis concerning the defense policymaking process from 1989 to 2001 including in particular the 2001 Quadrennial Defense Review This important study also provides a set of targeted policy recommendations that can help solve the identified problems in preparing for future wars and in better training for peace operations

**Transformation of the Indian Armed Forces 2025** A K Lal, 2012-03-01 Transformation should lie at the heart of our new approach to defense The development of transformational capabilities processes and force structures should be given strategic focus to meet the principal challenges under our defense strategy India is already ceased with the necessity of transformation albeit without any documented national security guidelines or operating instructions which are legislated or have the validation of at least the Cabinet Committee on Security CCS In other words the first step would be to create a draft security strategy based on many assumptions like the foreign policy or the cumulative emerging threat scenario as appreciated by the Defence Intelligence Agency DIA This well researched book is a result of the project allotted by the USI under the Field Marshal K M Cariappa chair The book is therefore more as an idea or a theoretical construct basically to bring in more clarity to the various options available for this great transformation of the Indian military The author has deliberated upon various landmarks of transformation milestones achieved so far by the three services and given recommendations to further build upon ongoing modernization plan and shift to a higher plane of transformational activities

**Honing the Sword** Marcus Corbin, 2003     *Hearing on H.R. 3087, to Require the President, in Coordination with the Secretary of State, the Secretary of Defense, the Joint Chiefs of Staff, and Other Senior Military Leaders, to Develop and Transmit to Congress a Comprehensive Strategy for the Redeployment of United States Armed Forces in Iraq; and H.R. 3159, to Mandate Minimum Periods of Rest and Recuperation for Units and Members of the Regular and Reserve Components of the Armed Forces Between Deployments for Operation Iraqi Freedom and Operation Enduring Freedom*

United States. Congress. House. Committee on Armed Services,2009      *Reshaping America's Military* ,2002      George C. Marshall and the Early Cold War William A. Taylor,2020-07-09 Though best known for his central part in the American war effort from 1939 to 1945 George C Marshall s critical role in the early Cold War was probably at least as important in shaping the policies and politics of the postwar western world and in cementing his place as a pivotal figure in twentieth century American history This book places Marshall squarely at the center of the story of the American century by examining his tenure in key policymaking positions during this period including army chief of staff special presidential envoy to China secretary of state and secretary of defense among others George C Marshall and the Early Cold War brings together a diverse and accomplished group of scholars including military diplomatic and institutional historians to explore how Marshall Time magazine s Man of the Year in both 1943 and 1947 and the 1953 Nobel Peace Prize winner molded debates on all the major issues of his day such as universal military training China s civil war an independent air force the National Security Act of 1947 nuclear weapons European Recovery Program North Atlantic Treaty Korean War and racial integration of the U S military With a focus on Marshall s public service at the intersection of American policy politics and society the authors provide a comprehensive historical account of his central role in shaping America during a tumultuous yet formative period in the nation s history Their work fills a void in the scholarship of American military history and American history generally providing context for the consideration of broader questions about American power and the place of the military within American society      *Turning Point* Facts On File, Incorporated,2004 Analyzes the United States decision to go to war against Iraq and provides insight on what the future may hold for the region      International Peacekeeping: The Yearbook of International Peace Operations Harvey Langholtz,Boris Kondoch,Alan Wells,2004-11-01 International Peacekeeping is devoted to reporting upon and analyzing international peacekeeping with an emphasis upon legal and policy issues but is not limited to these issues It is recognized that in today s world there is a wealth of information available from the internet and through other sources It is therefore the goal of this Yearbook to make this information available in one publication which both organizes and records events over the course of a year through analytical articles a chronicle primary documents and a bibliography Topics include inter alia peacekeeping peace war conflict resolution diplomacy international law international security humanitarian relief humanitarian law and terrorism The Yearbook is of scholarly quality but is not narrowly theoretical It provides the interested public diplomats civil servants politicians the military academics journalists NGO employees and serious citizens with a document of record comment and a starting point for further research on peacekeeping and related topics This is achieved not only by the provision of basic documents on CD ROM such as Security Council Resolutions and Reports of the UN Secretary General but also by expert commentaries on world events Peacekeeping is treated in a pragmatic light seen as a form of international military cooperation for the preservation or restoration of international peace and security Attention is focused not only on UN peacekeeping operations but other

missions as well This Yearbook is the continuation of the journal International Peacekeeping **A Grand Strategy for America** Robert J. Art, 2013-02-15 The United States today is the most powerful nation in the world perhaps even stronger than Rome was during its heyday It is likely to remain the world's preeminent power for at least several decades to come What behavior is appropriate for such a powerful state To answer this question Robert J Art concentrates on grand strategy the deployment of military power in both peace and war to support foreign policy goals He first defines America's contemporary national interests and the specific threats they face then identifies seven grand strategies that the United States might contemplate examining each in relation to America's interests The seven are dominion forcibly trying to remake the world in America's own image global collective security attempting to keep the peace everywhere regional collective security confining peacekeeping efforts to Europe cooperative security seeking to reduce the occurrence of war by limiting other states offensive capabilities isolationism withdrawing from all military involvement beyond U S borders containment holding the line against aggressor states and selective engagement choosing to prevent or to become involved only in those conflicts that pose a threat to the country's long term interests Art makes a strong case for selective engagement as the most desirable strategy for contemporary America It is the one that seeks to forestall dangers not simply react to them that is politically viable at home and abroad and that protects all U S interests both essential and desirable Art concludes that selective engagement is not a strategy for all times but it is the best grand strategy for these times **Shaping US Military**

**Law** Joshua E. Kastenberg, 2016-04-01 Since the United States entry into World War II the federal judiciary has taken a prominent role in the shaping of the nation's military laws Yet a majority of the academic legal community studying the relationship between the Court and the military establishment argues otherwise providing the basis for a further argument that the legal construct of the military establishment is constitutionally questionable Centering on the Cold War era from 1968 onward this book weaves judicial biography and a historic methodology based on primary source materials into its analysis and reviews several military law judicial decisions ignored by other studies This book is not designed only for legal scholars Its intended audience consists of Cold War military and political historians as well as political scientists and military and national security policy makers Although the book's conclusions are likely to be favored by the military establishment the purpose of this book is to accurately analyze the intersection of the later twentieth century's American military political social and cultural history and the operation of the nation's armed forces from a judicial vantage **Shaping History**

Helen Geracimos Chapin, 1996-07-01 Just a decade after the first printing press arrived in Honolulu in 1820 American Protestant missionaries produced the first newspaper in the islands More than a thousand daily weekly or monthly papers in nine different languages have appeared since then Today they are often considered a secondary source of information but in their heyday Hawai'i's newspapers formed one of the most diversified vigorous and influential presses in the world In this original and timely work Helen Geracimos Chapin charts the role Hawai'i's newspapers played in shaping major historic events in the

islands and how the rise of the newspaper abetted the rise of American influence in Hawai i Shaping History is based on a wide selection of written and oral sources including extensive interviews with journalists and others working in the newspaper industry Students of journalism and Hawaiian history will find this comprehensive history of Hawai i s newspapers especially valuable Revising the Two MTW Force Shaping Paradigm: A "Strategic Alternatives Report" From the Strategic Studies Institute , **Shaping U.S. Military Forces for the Asia-Pacific** Michael R. Kraig,2014-06-04 The first twenty years of post Cold War US defense and diplomatic policies toward Asia have looked a good deal like the previous 50 namely continued deterrence based upon overwhelming offensive military predominance In East Asia all powers harbor common and divergent interests based on fragmented nationalist identities and complex economic interdependence In this multipolar Asian system new Chinese military capabilities could support both the wish to secure its own interests as well as a more expansive vision for regional leadership which might harbor a destabilizing geopolitical agenda How the United States addresses this reality via military procurements and employment concepts for the Asian theater could either detract from or enhance crisis stability The US defense establishment must reorient its force posture to save money manage conflicts of interest and prevent future interstate crises This analysis provides a framework for how the United States should ideally structure and use military power so as to best support the diplomatic resolution of conflicting interests without resorting to full scale warfare It also critiques the usual Western military focus on offensive strategic predominance in force postures itself often fuelled by the unrealistic pursuit of the opponent s complete submission via victory in decisive battles **The Evolution in Military Affairs: Shaping the Future U.S. Armed Forces** ,1997 The author assesses potential aspects of the future international security environment which will succeed the post Cold War era and provides a context for sketching the types of military capabilities the nation will require in about 20 years He defines national security interests describes the future international security environment identifies derivative future national security objectives and strategic concepts and discerns the military capabilities that will be required in the early 21st century The author s analysis should highlight to American national security strategists political leaders and military strategists issues that should be considered in making the decisions which will shape the U S armed forces of the 21st century **Military Statecraft and the Rise of Shaping in World Politics** Kyle J. Wolfley,2021-06-29 Winner of the Andrew F Krepinevich Writing Award A 2022 Choice Reviews Outstanding Academic Title Selected for the Irregular Warfare Initiative s Inaugural Reading List 2022 In today s complex international environment how do the United States China and Russia manage the return of great power competition as well as the persistent threat of violent non state actors This book explores shaping the use of military power to construct a more favorable environment by influencing the characteristics of other militaries altering the relationships between them or managing the behavior of allies As opposed to traditional strategies of warfighting or coercion shaping relies less on threats demonstrations and uses of violence and more on attraction persuasion and legitimacy Because shaping relies more on soft

power than on hard power this approach contradicts the conventional wisdom of the purpose militaries serve Kyle J Wolfley explores the emergence of shaping in classical strategy and its increased frequency following the end of the Cold War when threats and allies became more ambiguous He illustrates the four logics of shaping attraction socialization delegation and assurance through five case studies of recent major military exercise programs led by the United States China India the United Kingdom and Russia Moreover the author reveals through sentiment analysis and statistics of over one thousand multinational exercises from 1980 to 2016 how major powers reacted to a complex international environment by expanding the number and scope of shaping exercises Illuminating an understudied but surprisingly common tool of military statecraft this book offers a fresh understanding of military power in today s competitive international system *The Shaping of America: A Geographical Perspective on 500 Years of History* D. W.
