The Urban Primary School Meg Maguire, Tim Wooldridge, Simon Pratt-Adams, 2006-05-16 This book offers an in depth understanding of the unique challenges and contributions of urban primary schools The authors set urban education in the wider social context of structural disadvantage poverty oppression and exclusion and reassert some critical urban educational concerns Recognising that practice needs to be informed by theory they provide a strong theoretical framework alongside contemporary ethnographic data Drawing on their extensive experience in urban primary schools as well as numerous case studies the authors present a fresh and stimulating view of urban primary schools which will inspire education professionals and academics alike The Urban Primary School is essential reading for teachers and trainee teachers in urban primary schools as well as for students of education policy makers parents and school governors

Researching School Experience Martyn Hammersley, 1999 This book brings together material from wide range of studies mainly qualitative in character concerned with exploring what actually goes on in learning situations and explores the perspectives of teachers and students

Education Policy Paul Trowler, 2003 In this up to date introduction to a key policy area Paul Trowler puts current education policy into context by showing how it has evolved over time and in response to different political ideals He examines what education policy is how it is formulated and crucially how implementation processes affect outcomes He looks at the key issues facing the government today and at how the research process feeds into policy making This concise guide suitable for student or professional features policy landmark tables illustrative case studies summaries of key points guides to further reading useful websites and addresses a glossary of key terms

Schools and Food Education in the 21st Century Lexi Earl, 2018-02-01 Schools and Food Education in the 21st Century examines how schools enact food policy and through doing so craft diverse foodscapes that create very different food experiences in schools The school food policy discourse is made up of an amalgamation of discourses on obesity prevention nutrition education welfarism and foodiness Whilst schools endeavor to enact policy in a variety of ways this book shows how foodiness is taken up and can only be taken up differently in different schools The book

s unique contribution is to identify the discourse of foodiness and to show how this discourse whilst seemingly universal is actually situated in middle class ideas and is therefore more easily taken up by certain schools The book argues that the classed nature of foodiness leads to certain food knowledges becoming marginalized or lost and this then positions some schools in tension with their local communities resulting in widely variant food experiences for children Earl demonstrates how foodiness is taken up in schools by first exploring how the foodscape at school is shaped by policy and media sources The book then examines how foodiness is taken up by schools with different SES profiles by showing how food moves through the school day Asking critical questions on class and poverty that are often overlooked this book will be of interest to researchers academics and students working on food issues related to teaching food policy and schools in the fields of education sociology and food studies It should also be of interest to policymakers parents and teachers

Handbook of Teacher Education Tony Townsend, Richard Bates, 2006-08-09 This book has its origins in conversations that started when the International Council on Education for Teaching ICET and the Australian Teacher Education Association ATEA jointly agreed to co sponsor a World Assembly of Teacher Educators in Melbourne in July 2003 hosted by Monash University The editors of this book were not only intimately involved in the management of the conference but had also been key figures in the Associations involved Tony Townsend had been secretary and on the national board of the South Pacific Association for Teacher Education SPATE which later became ATEA and had previously managed a SPATE conference in Frankston Australia in the 1980s He is currently the President of ICET and now works at Florida Atlantic University Richard Bates has been a long time board member of ATEA and is currently President of that organization He is also a Board member of ICET The International Council on Education for Teaching ICET was founded in 1953 for the purpose of emphasizing international cooperation in educational development in order to improve the quality of teacher education as well as to expand global educational opportunities for people in teacher education Since that time ICET has developed into an international association of practitioners of teacher education policy and decision makers in education government and business dedicated to global development through education ICET is a Non Governmental Organization NGO and participates in NGO meetings and other UNESCO sponsored conferences around the world

Restructuring Schools, Reconstructing Teachers Peter Woods, Bob Jeffrey, Geoff Troman, Mari Boyle, 2019-07-01 Drawing on wide ranging research this book originally published in 1997 explores how the policy changes of previous years were affecting primary teachers and their work at the time Within the context of worldwide restructuring the thoughts feelings and activities of teachers in their daily work are examined The core argument is that what used to be a complex but fulfilling job distinguished by professional dilemmas which are amenable to professional skill had become increasingly marked by tension and constraint which frustrates teacher creativity While some teachers found new opportunities in the new primary school many used strategical and micro political activity in order to cope while others fell victim to stress and burnout The authors argue that teachers own active involvement in policy change

is required if their creative potential is to be realized The book will still be of interest to teachers in primary schools researchers and policy makers Successful Writing for Qualitative Researchers Peter Woods,2006 The book discusses all aspects of translating research into writing It is a useful resource for students researchers and writers concerned with getting their research written and having it published *The Creative School* Bob Jeffrey,Peter Woods,2003 Using a single case study school as a role model this book provides a framework for practice in primary schools The school in question succeeds in meeting the Government's objectives within its own set of aims and values **The Early Years Foundation Stage** Ioanna Palaiologou,2013-01-15 Lecturers why waste time waiting for the post to arrive Request your e inspection copy today When I showed my inspection copy to the Foundation Degree Programme Director she said it was the whole programme in a nutshell Denise Reardon Senior Lecturer Canterbury Christ Church University The Early Years Foundation Stage has been praised by academics and students for its theoretical underpinning and practical case studies In the light of the revised EYFS the new edition combines a comprehensive range of topics up to date coverage of the EYFS curriculum additional case studies an increased focus on critical reflection and access to free journal articles relating to key topics It is an ideal resource for students undertaking any Early Years or Early Childhood Studies courses or those working toward the Early Years Teacher qualification This second edition introduces new chapters on Historical developments in early years educational policy Implementation of EYFS Play based learning Observational recordings and analysis in the EYFS Working in partnership with parents Safeguarding children Children's health Inclusion in the early years Leadership Literacy Outstanding Learning Features Up to date coverage of revised EYFS New two colour layout makes the book user friendly and easy to navigate Chapter aims identify what each chapter will cover at a glance Case studies in each chapter help you to link theory to practice Further reading directs you to external resources to deepen your understanding Reflection tasks help you reflect on how the chapter can be applied to your personal and professional development Visit www.sagepub.co.uk Palaiologou2e for free access to a selection of SAGE Journal Articles related to key topics in the book **The Primary School in Changing Times** Tony Townsend,2002-09-11 Following substantial changes throughout the Australian education system primary schools are no longer in the protected position of having a regulated flow of clients a pre determined curriculum and marginal levels of staff development Recent moves have brought new or increased responsibilities for all schools in areas such as curriculum and policy development staff development monitoring and assessment the use of new technologies resource allocation This book seeks to review the impact of this change on Australian primary schools on the people who are involved with them and the issues they face Primary education is being re structured throughout the world and therefore these issues are of great interest and relevance to educators worldwide *Realities of Teachers' Work* Sandra Acker,1999-04-01 The Realities of Teacher Work Never a Dull Moment follows the fortunes of the teachers at Hillview Primary School over ten years It explores what it is like to be a primary or elementary school teacher in an urban school with

about 200 children mixed in social class and ethnicity and suggests what we may learn from them for the future Sandra Acker links her research with other literature on teachers work and describes the school as a workplace focusing on four key features the characteristics of the children the school s physical setting the available resources and the ethos of the school She successfully places us in the classroom giving vivid images of daily interactions with the children and shows too how teaching extends far beyond the classroom door The book explores the caring culture that has developed among the teachers and helps them to cope with the difficulties they encounter It also considers the school as located in the wider community by looking at changes in teachers careers over time and the effects on Hillview of recent educational reform This book shows us how and why we need to revise our assumptions about schools and teachers and see them not as isolated individuals in closed classrooms and self contained schools but as an integral part of a much broader community Above all it shows that teaching is hard demanding work that is influenced by workplace cultures and the gendered expectations society holds about teachers

Creative Science Rosemary Feasey,2012-08-06 Through a refreshing blend of theory and practice this book provides stimulating material to develop creative approaches to science in the classroom It includes a range of teaching approaches that relate directly to the topic under discussion examples of pupils work that portray how theory can be translated into practice quick off the shelf example model lesson plans which can be adapted User friendly and clearly laid out this book is a core text for primary teachers NQTs and students who want to inject some creativity into their teaching and put that WOW factor back into their science lessons

Teachers Matter Christopher Day,Pam Sammons,Gordon Stobart,Alison Kington,Qing Gu,2007-03-16 Teachers Matter offers the most definitive portrait of teachers lives and work to date At a time when teaching standards are high on the political and social agenda the quality and commitment of teaching staff is seen as paramount and they are viewed as pivotal to the economic and social well being of society But What are the influences that help or hinder teachers commitment Is there an association between commitment and pupil attainment Why are teachers identities important What are teachers needs and concerns in different professional life phases Does school context count Based on a DfES funded study of 300 teachers in 100 primary and secondary schools in England the authors identify different patterns of influence and effect between groups of teachers which provide powerful evidence of the complexities of teachers work lives identity and commitment in relation to their sense of agency well being resilience and pupil attitudes and attainment This in turn provides a clear message for teachers teachers associations school leaders and policy makers in understanding and supporting the need to build and sustain school and classroom effectiveness The book addresses issues such as the importance of career development the relationships between school leadership culture and teachers lives maintaining a work life balance identity and well being and the connection between commitment resilience and effectiveness in the classroom Original and highly relevant Teachers Matter is invaluable reading for teachers head teachers researchers and teacher educators

Ethnography for Education Christopher Pole,Marlene Morrison,2003-12-16

Ethnography is a distinctive approach for educational research. The authors argue that the last decade has seen ethnography come of age not only as a way of doing research but also as a way of theorizing and making sense of the world. Their approach is concerned with ethnography as process and ethnography as product. This critical celebration of ethnography explores what it can achieve in educational research. The book features thorough discussion of definitions of ethnography and its potential for use within educational research. Critical introductions to the principal approaches to ethnography. Discussions of data analysis and representation and of the challenges facing ethnography. Use of educational examples from real research projects throughout. The book offers a distinctive contribution to the literature of ethnography taking readers beyond a simplistic how to approach towards an understanding of the wider contribution ethnography can make to our understanding of educational processes. Ethnography for Education is of value to final year undergraduates and postgraduates in education and social science disciplines as well as education professionals engaged in practice based research. Christopher Pole is Senior Lecturer at the Department of Sociology University of Leicester. His research interests are in the areas of the sociology of education sociology of childhood and the development of qualitative research methods. Recent publications include Practical Social Investigation Qualitative and Quantitative Methods in Social Research and Hidden Hands International Perspectives on Children's Work and Labour. Marlene Morrison is Reader in Education Leadership and Director of the Doctorate of Education programme at the University of Lincoln. Her academic background is in the sociology of education and includes research on race equality health education perspectives on educational policy and practice and the ethnography of educational settings. She has researched widely in the education that has included school further and higher education sectors and other public services.

Contemporary Ergonomics 2003 Paul T.

McCabe, 2002-06-01 The broad and developing scope of ergonomics the application of scientific knowledge to improve people's interaction with products systems and environments has been illustrated over the past 15 years by the books which make up the Contemporary Ergonomics series. Presenting the proceedings of the Ergonomics Society's annual conference the series embraces the wide range of topics covered by ergonomics. Individual papers provide insight into current practice present new research findings and form an invaluable reference source. The volumes provide a fast track for the publication of suitable papers from international contributors. These are chosen on the basis of abstracts submitted to a selection panel in the autumn prior to the Ergonomics Society's annual conference held in the spring.

Literacy and Schooling Kathy Hall, 2017-11-27 Originally published in 2004. In this book Kathy Hall analyses recent educational reform in England relating to primary education and literacy. By taking account of themes such as globalisation teacher education children's learning and especially literacy she develops a critique of government reactions and explores alternative responses to the crucial issues of our time. The book concludes with policy recommendations based on evidence drawn from a range of perspectives. Inviting the reader to consider what is happening in primary education generally and in

literacy more specifically the book will prove both thought and action provoking **Beyond Bureaucracy?** Martin Laffin, 2018-12-14 First published in 1998 this volume has been a significant contribution to current debates over the future of the public services Professionalism has been and is a major feature of the British welfare state Yet the political social and economic context in which the profession emerged and flourished is changing rapidly The professional ideal of disinterested expertise serving the public interest has lost much of its original gloss Professional status and careers are threatened by major shifts in the structure of the welfare state which can be summed up as the decline of the big government bureaucratic model Professions themselves face challenges to their special claims to expertise and public service from politicians senior managers new social movements and pressure groups technological change and not least from those citizens whom they aspire to serve This volume asks how these new challenges are changing professions and how professionals themselves are adapting
