A Certain Justice Haiyan Lee, 2023-06-05 A much needed account of the hierarchy of justice that defines China's unique political legal culture To many outsiders China has an image as a realm of Oriental despotism where law is at best window dressing and at worst an instrument of coercion and tyranny In this highly original contribution to the interdisciplinary field of law and humanities Haiyan Lee contends that this image arises from a skewed understanding of China's political legal culture particularly the failure to distinguish what she calls high justice and low justice In the Chinese legal imagination Lee shows justice is a vertical concept with low justice between individuals firmly subordinated to the high justice of the state China's political legal culture is marked by a mistrust of law's powers and as a result it privileges substantive over procedural justice Calling on a wide array of narratives stories of crime and punishment subterfuge and expos guilt and redemption **A Certain Justice** helps us recognize the fight for justice outside the familiar arenas of liberal democracy and the rule of law

See Justice Done Christopher Michael Brown, 2024-01-18 In *See Justice Done* The Problem of Law in the African American Literary Tradition author Christopher Michael Brown argues that African American literature has profound and deliberate legal roots Tracing this throughline from the eighteenth century to the present Brown demonstrates that engaging with legal culture in its many forms including its conventions paradoxes and contradictions is paramount to understanding Black writing Brown begins by examining petitions submitted by free and enslaved Blacks to colonial and early republic legislatures A virtually unexplored archive these petitions aimed to demonstrate the autonomy and competence of their authors Brown also examines early slave autobiographies such as Olaudah Equiano's *Interesting Narrative* and Mary Prince's *History* which were both written in the form of legal petitions These works invoke scenes of Black competence and of Black madness repeatedly and simultaneously Early Black writings reflect how a Black Atlantic world organized by slavery refused to acknowledge Black competence By including scenes of Black madness these narratives critique the violence of the law and predict the failure of future legal counterparts such as *Plessy v Ferguson* to remedy injustice Later chapters examine the works of more contemporary writers such as Sutton E Griggs George Schuyler Toni Morrison and Edward P Jones and explore varied topics from American exceptionalism to the

legal trope of colorblindness In chronicling these interactions with jurisprudential logics See Justice Done reveals the tensions between US law and Black experiences of both its possibilities and its perils

A Power to Do Justice Bradin Cormack, 2009-10-15 English law underwent rapid transformation in the sixteenth century in response to the Reformation and also to heightened litigation and legal professionalization As the common law became more comprehensive and systematic the principle of jurisdiction came under particular strain When the common law engaged with other court systems in England when it encountered territories like Ireland and France or when it confronted the ocean as a juridical space the law revealed its qualities of ingenuity and improvisation In other words as Bradin Cormack argues jurisdictional crisis made visible the law's resemblance to the literary arts A Power to Do Justice shows how Renaissance writers engaged the practical and conceptual dynamics of jurisdiction both as a subject for critical investigation and as a frame for articulating literature's sense of itself Reassessing the relation between English literature and law from More to Shakespeare Cormack argues that where literary texts attend to jurisdiction they dramatize how boundaries and limits are the very precondition of law's power even as they clarify the forms of intensification that make literary space a reality Tracking cultural responses to Renaissance jurisdictional thinking and legal centralization A Power to Do Justice makes theoretical literary historical and methodological contributions that set a new standard for law and the humanities and for the cultural history of early modern law and literature

Justice in Young Adult Speculative Fiction Marek C. Oziwicz, 2015-04-17 This book is the first to offer a justice focused cognitive reading of modern YA speculative fiction in its narrative and filmic forms It links the expansion of YA speculative fiction in the 20th century with the emergence of human and civil rights movements with the communitarian revolution in conceptualizations of justice and with spectacular advances in cognitive sciences as applied to the examination of narrative fiction Oziwicz argues that complex ideas such as justice are processed by the human mind as cognitive scripts that scripts when narrated take the form of multiply indexable stories and that YA speculative fiction is currently the largest conceptual testing ground in the forging of justice consciousness for the 21st century world Drawing on recent research in the cognitive and evolutionary sciences Oziwicz explains how poetic retributive restorative environmental social and global types of

justice have been represented in narrative fiction from 19th century folk and fairy tales through 21st century fantasy dystopia and science fiction Suggesting that the appeal of these and other nonmimetic genres is largely predicated on the dream of justice Oziewicz theorizes new justice scripts as conceptual tools essential to help humanity survive the qualitative leap toward an environmentally conscious culturally diversified global world This book is an important contribution to studies of children s and YA speculative fiction adding a new perspective to discussions about the educational as well as social potential of nonmimetic genres It demonstrates that the justice imperative is very much alive in YA speculative fiction creating new visions of justice relevant to contemporary challenges
