Resistance Rebellion And Death:

Resistance, Rebellion, and Death Albert Camus, 2012-10-31 NOBEL PRIZE WINNER Twenty three political essays that focus on the victims of history from the fallen maquis of the French Resistance to the casualties of the Cold War In the speech he gave upon accepting the Nobel Prize for Literature in 1957 Albert Camus said that a writer cannot serve today those who make history he must serve those who are subject to it Resistance Rebellion and Death displays Camus rigorous moral intelligence addressing issues that range from colonial warfare in Algeria to the social cancer of capital punishment But this stirring book is above all a reflection on the problem of freedom and as such belongs in the same tradition as the works that gave Camus his reputation as the conscience of our century The Stranger The Rebel and The Myth of Sisyphus

Osborn, 2017-01-19 Humanism and the Death of God is a

critical exploration of secular humanism and its discontents Through close readings of three exemplary nineteenth century philosophical naturalists or materialists who perhaps more than anyone set the stage for our contemporary quandaries when it comes to questions of human nature and moral obligation Ronald E Osborn argues that the death of God ultimately tends toward the death of liberal understandings of the human as well Any fully persuasive defense of humanistic values including the core humanistic concepts of inviolable dignity rights and equality attaching to each individual requires an essentially religious vision of personhood Osborn shows such a vision is found in an especially dramatic and historically consequential way in the scandalous particularity of the Christian narrative of God becoming a human He does not attempt to provide logical proofs for the central claims of Christian humanism along the lines some philosophers might demand Instead this study demonstrates how philosophical naturalism or materialism and secular humanisms and anti humanisms might be persuasively read from the perspective of a classically orthodox Christian faith

Against the Death Penalty Cesare Beccaria, Giuseppe Pelli, 2024-06-04 In 1764 a Milanese aristocrat named Cesare Beccaria created a sensation when he published On Crimes and Punishments At its centre is a rejection of the death penalty as excessive unnecessary and pointless Beccaria is deservedly regarded as the founding father of modern criminal law reform yet he was not the first to argue for the abolition of the death penalty This book presents the first English translation of the Florentine aristocrat Giuseppe Pelli s critique of capital punishment written three years before Beccaria s treatise but lost for more than two centuries in the Pelli

family archives The book examines the contrasting arguments of the two abolitionists who drew from different intellectual traditions *Dying Is Not Death* Lee Hoinacki, 2007-01-01 *Dying Is Not Death* examines from a traditional humanistic position the act of dying The author views death as a universal experience that can and perhaps should force us to explore various technological intrusions upon it Each chapter is an independent narrative and some chapters tell stories of those struggling to die when confronted with the medical system's technological artifacts Recounting different persons' experiences of death Lee Hoinacki suggests that the medical system's conventional approaches to dying and death can distort our preparation for this most important experience Borrowing from Jacques Ellul and Ivan Illich Hoinacki acknowledges technology as an all-embracing system with powerful symbolic effects on the human condition and argues to a conflict between faith and technology Indeed with Ellul he holds that in order to criticize technology one must find some place outside the technological milieu that would act as a kind of Archimedean lever One must somehow get to the Beyond to judge where one stands in the world **Death of the Liberal Class** Chris Hedges, 2010-11-02 The liberal class plays a vital role in a democracy It gives moral legitimacy to the state It makes limited forms of dissent and incremental change possible The liberal class posits itself as the conscience of the nation It permits us through its appeal to public virtues and the public good to define ourselves as a good and noble people Most importantly on behalf of the power elite the liberal class serves as bulwarks against radical movements by offering a safety valve for popular frustrations and discontentment by discrediting those who talk of profound structural change Once this class loses its social and political role then the delicate fabric of a democracy breaks down and the liberal class along with the values it espouses becomes an object of ridicule and hatred The door that has been opened to proto-fascists has been opened by a bankrupt liberalism The *Death of the Liberal Class* examines the failure of the liberal class to confront the rise of the corporate state and the consequences of a liberalism that has become profoundly bankrupt Hedges argues there are five pillars of the liberal establishment: the press, liberal religious institutions, labor unions, universities, and the Democratic Party, and that each of these institutions more concerned with status and privilege than justice and progress sold out the constituents they represented In doing so the liberal class has become irrelevant to society at large and ultimately the corporate power elite they once served *Religion and the Death Penalty* Erik Owens, John D.
