reading EXCERPT FROM THE BOOK Too often when couples argue they do not communicate with one another effectively When you feel like your partner does not understand you this can lead to long term marital problems In order to form a strong connection with your spouse it is essential that you work on understanding their needs Many women attempt to avoid conflict all together in marriage However simply being passive can lead to more problems in the future and a breakdown in marital communication Of course there are many issues that are not worth fighting about but it is important to let your partner know how you feel if something upsets you Instead of simply avoiding disagreements it is essential for a healthy marriage that you discuss your feelings with your partner so that you can resolve the issue together Fortunately there are a number of things that you can do that will help you resolve conflicts in your marriage These simple steps can help transform your marital arguments into learning experiences that will help you grow as husband and wife Buy a copy to keep reading

### **RESOLVING MARITAL CONFLICTS FOR A HARMONIOUS HOME** TAIWO ADEJIN,2024-06-16 Overview of the Book

The purpose of this book is to provide couples with practical tools and strategies to resolve conflicts effectively Each chapter delves into different aspects of conflict resolution offering insights techniques and real life examples to help couples build stronger more resilient relationships [Revive Your Relationship](#) Jasper Samuel,2023-01-06 Building relationships is straightforward but maintaining them and making them last a lifetime is challenging Accepting the fact that you will always have to make some concessions in order for a relationship to advance is a very difficult truth Whether these sacrifices be in your personality your way of living or in anything else they will guarantee that you have taken steps to strengthen your connection Here is a sample of what you will learn from Jasper Samuel s book [Revive Your Relationship](#) The Relationship s Fundamental Needs How to improve the bond between a husband and wife How to Help Your Adolescent Advice on how to improve your relationship And a lot more Are you ready to get your marriage back to how it was when you first tied the knot If the answer is YES raise your mouse and choose Add to Cart in order to get this book [Save Your Marriage: Simple Fixes to the Most Common Marital Problems](#) Sarah Lilton,2012-07-26 Most people are excited about their wedding day However the wedding day itself isn t nearly as important as the years of marriage to follow If you re truly committed to being married for better or for worse you need to learn how to communicate appropriately with your significant other About 20 percent of marriages end in divorce within the first five years of the marriage and most of these marriages fail because of communications issues Although financial problems problems with relatives and problems in the bedroom are among the top reasons for divorce the real issue usually has to do with the way the couple communicate about these problems In my experience as a coach in training people are often afraid to talk about problems because they don t want to mess up the relationship I ve struggled with this as well and I ve found that every time I swallow anger sadness or other negative feelings I get depressed Eventually the feelings come out in a negative or destructive way leaving me feeling embarrassed and causing unnecessary hurt to people I love I ve learned that honesty draws me closer to my significant other as well as

allowing me to avoid that entire pattern In any case failure to communicate can cause tiny problems to become dealbreakers For example if you don't say anything about your partner's tendency to leave dishes in the sink your partner may continue to leave the dishes undone and when you can't stand it anymore you might fire off a list of accusations that quickly become an argument Lack of communication can also lead to partners feeling defensive or picked on if criticized by the other partner and 93 percent of couples who fight unfairly or attack one another verbally will get divorced within 10 years of marriage You'll need to tone up your communication skills to help deal with bigger issues too The addition of a new baby into a family a child going off to college or a marriage partner changing jobs can cause both partners to become stressed out and then not deal with one another appropriately Communication is even more important when a couple faces these types of situations without communication marriage partners will blow off steam by complaining to other people about one another or get buried in work so that they don't have to speak to each other Poor communication causes marriage partners to feel undervalued and unloved and this in turn can cause partners to forget that they love one another in the first place Once this shift occurs partners begin to see one another as enemies and begin fighting each other out of a misplaced sense that their worth as human beings is being threatened Once the marriage has been derailed in this manner it's difficult to get it back on track Marriages that have deteriorated to this point require intervention from a counselor trained in teaching couples communication skills in order to stop the progression towards divorce Whether you're newly married or have been married for a while you can learn to communicate better with your partner and resolve common problems As communication skills increase so will your emotional intimacy The strength of your bond will keep the marriage from becoming another divorce statistic regardless of what problems you have to face together
