Diplomatic Theory Barry H. Steiner, 2018-03-16 This book is intended as a primer for generalizing on a case comparison basis about diplomatic statecraft including resources and techniques available to states to attain their objectives Twenty years in the making it employs an inductive method in which small samples of cases occurring at different times and between different states are studied to track and understand specific variable diplomatic behavior Its concern with empirically grounded generalization in which hypotheses are formulated and tested by case similarities and differences is a new approach to diplomatic analysis Diplomacy though central to international relations study and practice has generally been studied normatively rather than theoretically in contrast to other international relations topics Students of diplomacy emphasizing statecraft s complexity have generally shied away from theory while theory minded international relations analysts have neglected statecraft and highlighted military capabilities and positional rivalries as determiners of state behavior This book instead builds diplomatic theory by investigating variation in case experience especially in the diplomatic choices made by states It shows that theorizing is enhanced by a diplomatic point of view and by distinguishing diplomatic behavior as cause and as effect

Conflict Resolution in the Twenty-first Century Jacob Bercovitch, Richard Dean Wells Jackson, 2009-09-08 In the past arbitration direct bargaining the use of intermediaries and deference to international institutions were relatively successful tools for managing interstate conflict In the face of terrorism intrastate wars and the multitude of other threats in the post Cold War era however the conflict resolution tool kit must include preventive diplomacy humanitarian intervention regional task sharing and truth commissions Here Jacob Bercovitch and Richard Jackson two internationally recognized experts systematically examine each one of these conflict resolution tools and describe how it works and in what conflict situations it is most likely to be effective Conflict Resolution in the Twenty first Century is not only an essential introduction for students and scholars it is a must have guide for the men and women entrusted with creating stability and security in our changing world Cover illustration iStockphoto com

Securitization Revisited Michael J.

Butler,2019-07-23 This book seeks to interrogate how contemporary policy issues become securitized and furthermore what the implications of this process are A generation after the introduction of the concept of securitization to the security studies field this book engages with how securitization and desecuritization works within and across a wide range of security domains including terrorism and counter terrorism climate change sexual and gender based violence inter state and intra state conflict identity and memory in various geographic and social contexts Blending theory and application the contributors to this volume drawn from different disciplinary ontological and geographic spaces orient their investigations around three common analytical objectives revealing deficiencies in and through application s of securitization considering securitization through speech acts and discourse as well as other mechanisms and exposing latent orthodoxies embedded in securitization research The volume demonstrates the dynamic and elastic quality of securitization and desecuritization as concepts that bear explanatory fruit when applied across a wide range of security issues actors and audiences It also reveals the deficiencies in restricting securitization research to an overly narrow set of issues actors and mechanisms This volume will be of great interest to scholars of critical security studies international security and International Relations Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Getting in Mohammed Omar Maundi,2006 This study of successful mediation in a half dozen violent conflicts across the African continent focuses on a hitherto neglected dimension of mediation and the motivations of the parties in conflict and of the mediators themselves in initiating the mediation option The problem of many journalistic accounts and scholarly analyses of conflict mediation is that they detail the mediation process in full swing but have largely neglected the crucial phase of mediators entry into the destructive and disturbing mass violence in Burundi Rwanda the Congo Sudan West Africa and the border conflict between Ethiopia and Eritrea This collaboration of renowned scholars and a practitioner in conflict management and African politics seeks to draw wide ranging and timely conclusions on the early stages of mediation from six case studies BOOK JACKET

Transforming Ethnopolitical Conflict Alex Austin,Martina Fischer,Norbert Ropers,2013-04-17 Preface Confronted with a wide variety of conflicts the international community has attempted to respond through humanitarian assistance development aid crisis prevention and conflict resolution programmes To date many of these activities have exacerbated conflict dynamics as much as they have enhanced the opportunities for sustainable development and peace In an effort to understand what works lessons learned and best practices are being collected usually in the form of evaluations of individual projects or programs Although the number of studies undertaken has increased few lessons have been systematised or accumulated for broader discussion in the academic field or for practitioners use The Berghof Research Center for Constructive Conflict Management produced this Handbook in response to the contemporary challenges which have to be faced by those who are working in and on violent conflict The intention is to give an overview of recent developments in the field of conflict transformation from

various perspectives from academic analysts and practitioners as well as from experts representing different areas of work inside and outside of conflict zones

Ethnicity and Intra-State Conflict Håkan Wiberg, Christian P. Scherrer, 2018-12-21

Published in 1999 this text examines domestic wars looking at inter state relations only in as far as they are directly relevant to understand such wars The book aims to indicate how intra state war differs from the inter state war and focuses primarily on such domestic armed conflicts that at least have significant ethnonational components The book assesses how heterogeneous a category ethnic conflict is in terms of causes and consequences and gauges the complex interplay between class regionalism and ethnicity It is not limited to description and causal analysis but also attempts to assess suggestions as to what types of actors may contribute in what ways to avoiding ethnonational mobilization polarization avoiding militarization of manifest conflicts and de escalating militarized conflicts by looking for tenable generalizations on what types of approaches are fruitful in bringing about de escalation ceasefires political compromises peaceful division or peaceful integration reconciliation
