**Contemporary Buddhist Ethics** Damien Keown,2013-01-11 This innovative volume brings together the views of leading scholars on a range of controversial subjects including human rights animal rights ecology abortion euthanasia and contemporary business practice

*Emptiness Appraised* David F. Burton,2015-10-23 Emptiness means that all entities are empty of or lack inherent existence entities have a merely conceptual constructed existence Though Nagarjuna advocates the Middle Way his philosophy of emptiness nevertheless entails nihilism and his critiques of the Nyaya theory of knowledge are shown to be unconvincing

**Innovative Buddhist Women** Karma Lekshe Tsomo,2013-09-05 Combines the voices of scholars and practitioners in analysing Buddhist women s history 26 articles document the lives of women who have set in motion changes within Buddhist societies with analyses of issues such as gender ethnicity authority and class that affect the lives of women in traditional Buddhist cultures and increasingly the west

**Imaging Wisdom** Jacob N Kinnard,1999-06-04 This book contributes to the history of religions and Buddhist studies fields by focussing on what is a far too frequently ignored aspect of religious experience visual images

*Buddhist and Christian?* Rose Drew,2013-07-03 This is a detailed exploration of Buddhist Christian dual belonging engaging from both Buddhist and Christian perspectives the questions that arise and drawing on extensive interviews with well known individuals in the vanguard of this important and growing phenomenon The issue is pressing insofar the last century has witnessed a gradual but profound transformation of the West s religious landscape In today s context of diversity people are often influenced by more than one religion Multireligious identities are consequently on the rise At one end of the spectrum are those who identify themselves as fully belonging to more than one tradition One of the most prevalent combinations is Christianity and Buddhism This book addresses central and fundamental questions How is it possible to be authentically Buddhist and authentically Christian when for example God is central to Christianity yet absent from Buddhism when Christians have faith in Jesus Christ while Buddhists take refuge in the Buddha when Christians hope for heaven and Buddhists hope for nirvana and when Buddhists and Christians engage in different practices Are those who identify themselves as belonging to both traditions profoundly irrational religiously schizophrenic or perhaps just spiritually superficial Or is it possible somehow to reconcile the thought and practice of Buddhism and Christianity in such a way that one can be deeply committed to both And if it is possible will the influence of Buddhist

Christians on each of these traditions be something to be regretted or celebrated      Buddhist Theology Roger Jackson, John Makransky, 2013-12-16 Scholars of Buddhism themselves Buddhist here seek to apply the critical tools of the academy to reassess the truth and transformative value of their tradition in its relevance to the contemporary world      **Buddhist Practice and Visual Culture** Julie Gifford, 2011-03-16 Providing an overall interpretation of the Buddhist monument Borobudur in Indonesia this book looks at Mahayana Buddhist religious ideas and practices that could have informed Borobudur including both the narrative reliefs and the Buddha images The author explores a version of the classical Mahayana that foregrounds the importance of the visual in relation to Buddhist philosophy meditation devotion and ritual The book goes on to show that the architects of Borobudur designed a visual world in which the Buddha appeared in a variety of forms and could be interpreted in three ways by realizing the true nature of his teaching through visionary experience and by encountering his numinous presence in images Furthermore the book analyses a particularly comprehensive and programmatic expression of Mahayana Buddhist visual culture so as to enrich the theoretical discussion of the monument It argues that the relief panels of Borobudur do not passively illustrate but rather creatively picture selected passages from texts Presenting new material the book contributes immensely to a new and better understanding of the significance of the Borobudur for the field of Buddhist and Religious Studies      **Power, Wealth and Women in Indian Mahayana Buddhism** Douglas Osto, 2008-11-19 This book presents the most detailed and theoretically sophisticated study of the important Mahayana Buddhist scripture Gandavyuha sutra The author puts forward a new approach to the study of Mahayana Buddhist sources the systems approach by which literature is viewed as embedded in a social system and he analyses the key themes of power wealth and women to its social context in ancient India      **The Glorious Deeds of Purna** Joel Tatelman, 2013-12-16 By providing an annotated translation of and applying the methods of literary criticism to a first century account of the life of the saint Purna this study introduces the reader to the richness and complexity of an essential Buddhist genre      The Refutation of the Self in Indian Buddhism James Duerlinger, 2013 Since the Buddha did not fully explain the theory of persons that underlies his teaching in later centuries a number of different interpretations were developed This book presents the interpretation by the celebrated Indian Buddhist philosopher Candrakirti ca 570-650 C E Candrakirti's fullest statement of the theory is included in his Autocommentary on the Introduction to the Middle Way Madhyamakavatīrabhasya which is along with his Introduction to the Middle Way Madhyamakavatīra among the central treatises that present the Prasangika account of the Madhyamaka Middle Way philosophy In this book Candrakirti's most complete statement of his theory of persons is translated and provided with an introduction and commentary that present a careful philosophical analysis of Candrakirti's account of the selflessness of persons This analysis is both philologically precise and analytically sophisticated The book is of interest to scholars of Buddhism generally and especially to scholars of Indian Buddhist philosophy      **Tibetan Rituals of Death** Margaret Gouin, 2012-09-10 This book describes and analyses the

structure and performance of Tibetan Buddhist death rituals and situates that performance within the wider context of Buddhist death practices generally Drawing on a detailed and systematic comparative survey of existing records of Tibetan funerary practices including historical travel accounts anthropological and ethnographic literature Tibetan texts and academic studies it demonstrates that there is no standard form of funeral in Tibetan Buddhism although certain elements are common The structure of the book follows the twin trajectories of benefiting the deceased and protecting survivors in the process it reveals a rich and complex panoply of activities some handled by religious professionals and others by lay persons This information is examined to identify similarities and differences in practices and the degree to which Tibetan Buddhist funeral practices are consistent with the mortuary rituals of other forms of Buddhism A number of elements in these death rites which at first appear to be unique to Tibetan Buddhism may only be Tibetan in their surface characteristics while having roots in practices which pre date the transmission of Buddhism to Tibet Filling a gap in the existing literature on Tibetan Buddhism this book poses research challenges that will engage future scholars in the field of Buddhism Tibetan Buddhism and Anthropology

*Death and Reincarnation in Tibetan Buddhism* Tanya Zivkovic, 2013-10-08 Contextualising the seemingly esoteric and exotic aspects of Tibetan Buddhist culture within the everyday embodied and sensual sphere of religious praxis this book centres on the social and religious lives of deceased Tibetan Buddhist lamas It explores how posterior forms corpses relics reincarnations and hagiographical representations extend a lama's trajectory of lives and manipulate biological imperatives of birth and death The book looks closely at previously unexamined figures whose history is relevant to a better understanding of how Tibetan culture navigates its own understanding of reincarnation the veneration of relics and different social roles of different types of practitioners It analyses both the minutiae of everyday interrelations between lamas and their devotees specifically noted in ritual performances and the enactment of lived tradition and the sacred hagiographical conventions that underpin local knowledge A phenomenology of Tibetan Buddhist life the book provides an ethnography of the everyday embodiment of Tibetan Buddhism This unusual approach offers a valuable and a genuine new perspective on Tibetan Buddhist culture and is of interest to researchers in the fields of social cultural anthropology and religious Buddhist and Tibetan studies

Reason and Experience in Tibetan Buddhism Thomas Doctor, 2014-01-10 Based on newly discovered texts this book explores the barely known but tremendously influential thought of the Tibetan Buddhist teacher Mabja Jangchub Ts ndr d 1185 This Tibetan Buddhist master exercised significant influence on the interpretation of Madhyamaka thinking in Tibet during the formative phase of Tibetan Buddhism and plays a key role in the religious thought of his day and beyond The book studies the framework of Mabja's philosophical project holding it up against the works of both his own Madhyamaka teachers as well as those of central authors of the later classical period The emerging account of the evolution of Madhyamaka in Tibet reveals a striking pattern of transformative appropriations This in turn affords us insights into the nature and function of tradition in Tibetan religious culture and Mah y na Buddhism at large

Innovation is demanded for both the advancement and consolidation of tradition This ground breaking book is an invaluable contribution to the study of Tibetan philosophy It is of great interest to Buddhist practitioners specialists in Buddhist philosophy and Tibetan Buddhism Tibetan Buddhism in Diaspora Ana Lopes,2014-12-17 The imperialist ambitions of China which invaded Tibet in the late 1940s have sparked the spectacular spread of Tibetan Buddhism worldwide and especially in western countries This work is a study on the malleability of a particular Buddhist tradition on its adaptability in new contexts The book analyses the nature of the Tibetan Buddhism in the Diaspora It examines how the re signification of Tibetan Buddhist practices and organizational structures in the present refers back to the dismantlement of the Tibetan state headed by the Dalai Lama and the fragmentation of Tibetan Buddhist religious organizations in general It includes extensive multi sited fieldwork conducted in the United States Brazil Europe and Asia and a detailed analysis of contemporary documents relating to the global spread of Tibetan Buddhism The author demonstrates that there is a de institutionalized and de territorialized project of political power and religious organization which among several other consequences engenders the gradual autonomization of lamas and lineages inside the religious field of Tibetan Buddhism Thus a spectre of these previous institutions continues to exist outside their original contexts and they are continually activated in ever new settings Using a combination of two different academic traditions namely the Brazilian anthropological tradition and the American Buddhist studies tradition it investigates the process of cultural re signification of Tibetan Buddhism in the context of its Diaspora Thus it will be a valuable resource to students and scholars of Asian Religion Asian Studies and Buddhism

*Becoming Buddhist* Glenys Eddy,2012-02-02 What does it mean to be a Western Buddhist For the predominantly Anglo Australian affiliates of two Western Buddhist centres in Australia the author proposes an answer to this question and finds support for it from interviews and her own participant observation experience Practitioners prior experiences of experimentation with spiritual groups and practices and their experiences of participation practice and self transformation are examined with respect to their roles in practitioners appropriation of the Buddhist worldview and their subsequent commitment to the path to enlightenment Religious commitment is experienced as a decision point itself the effect of the individual s experimental immersion in the Centre s activities During this time the claims of the Buddhist worldview are tested against personal experience and convictions Using rich ethnographic data and Lofland and Skonovd s experimental conversion motif as a model for theorizing the stages of involvement leading to commitment the author demonstrates that this study has a wider application to our understanding of the role of alternative religions in western contexts **Buddhist Monasticism in East Asia** James A. Benn,Lori Meeks,James Robson,2009-09-10 The area of Buddhist monasticism has long attracted the interest of Buddhist studies scholars and historians but the interpretation of the nature and function of monasteries across diverse cultures and vast historical periods remains a focus for debate This book provides a multifaceted discussion of religious social cultural artistic and political functions of Buddhist monasteries in medieval China and Japan

With contributions from leading scholars in the field this volume explores the multiplicity of the institutions that make up the Buddhist monastery Drawing on new research and on previous studies hitherto not widely available in English the chapters cover key issues such as the relationship between monastics and lay society the meaning of monastic vows how specific institutions functioned and the differences between urban and regional monasteries Collectively the book demonstrates that medieval monasteries in East Asia were much more than merely residences for monks who cut off from the dust and din of society and all its entrapments collectively pursued an ideal cenobitic lifestyle Buddhist Monasticism in East Asia is a timely contribution to the ongoing attempts to understand a central facet of Buddhist religious practice and will be a significant work for academics and students in the fields of Buddhist Studies Asian Studies and East Asian Religions Buddhism in the Modern World David L. McMahan, 2012-03-15 Buddhism in the Modern World explores the challenges faced by Buddhism today the distinctive forms that it has taken and the individuals and movements that have shaped it Part One discusses the modern history of Buddhism in different geographical regions from Southeast Asia to North America Part Two examines key themes including globalization gender issues and the ways in which Buddhism has confronted modernity science popular culture and national politics Each chapter is written by a distinguished scholar in the field and includes photographs summaries discussion points and suggestions for further reading The book provides a lively and up to date overview that is indispensable for both students and scholars of Buddhism **The Sound of Liberating Truth** Paul Ingram, Sallie B. King, 2013-10-23 Offers essays and dialogues by well known Buddhist and Christian scholars on topics that were of primary interest to Frederick J Streng in whose honour the volume was created Topics include interreligious dialogue ultimate reality nature and ecology social and political issues of liberation and ultimate transformation or liberation
