

COMMUNITY DEVELOPMENT

THEORY OF CHANGE

STRATEGIES

How do we make change?

CELEBRATING & REFLECTING

We celebrate diverse cultures, histories and expressions through events, projects and campaigns. We reflect, evaluate and learn from our work in order to continue to inform our understanding of community.

OUR DEFINITION

Community development is a process where people come together to take action on what's important to them. Community Development helps communities to organize, and to identify the issues they want to address, or the opportunities they want to explore.

MOBILIZING & ADVOCATING

Responding to community issues with innovation systems thinking, and strategies to address the root causes of inequities. Mobilizing community members to engage politically and socially towards systemic change that supports an equitable and just society.

IMPACTS

What are we working toward?

BELONGING

A neighbourhood where everyone belongs, fully participates and shares their unique gifts. A neighbourhood where no one feels isolated and our communities have the resources to experience wellbeing, joy, and celebration.

COMMUNITY LEADERSHIP

A neighbourhood where community members care for one another and support each other. Community Members, groups, and organisations collaborate by working together to build capacity and are empowered to create changes.

EQUITY & JUSTICE

A neighbourhood that is committed to ongoing processes of anti-racism, identifying and redistributing power, decolonizing, and advocating for systemic change towards an equitable and just society.

COMMUNITY HEALTH & RESILIENCY

A neighbourhood where community members care for one another and support each other. Community Members, groups, and organisations collaborate by working together to build capacity and are empowered to create changes.

RESOURCING

We provide information and education to community members. Individuals and groups are supported in their learning journey. Sharing of power? Access? using the power and resources we have to support community needs.

CONNECTING

We provide low-barrier and accessible opportunities for people to connect with each other, the community, and the land. We foster relationship-building between people and groups who may not usually connect, including intergenerational and intercultural connections. We build and support networks of residents and community partners that work toward positive change in the community.

effective preventative means to improving health outcomes enabling communities to be more resilient when confronting major issues such as climate change or pandemics Building to a case study of how these methods were used in one town Ross on Wye the book will be invaluable reading for those working in healthcare public health local authorities and the voluntary sector as well as students and researchers interested in these areas The British Library General Catalogue of Printed Books 1976 to 1982 British Library,1983 **Community Development for Times of Crisis** Mark A. Brennan,Rhonda Phillips,Norman Walzer,Brent D. Hales,2022-12-30 This book explores the intersection of community development and local capacity building as a basis for effective disaster mitigation and the alleviation of suffering in times of crisis Beginning with the Community Development section the process context and methods for community engagement and development can be viewed from different structural and logical approaches This section explores some of the more relevant historical arguments as well as more contemporary examinations The second section looks at Critical Human and Community Considerations and sheds light on some of the key concepts that are often overlooked poverty race inequality social justice mental health social division when framing community responses to disaster The third section focuses on Fundamental Elements of Caring Communities This section explores the importance practical and measurable impacts of social support empathy inclusion and conflict resolution in creating effective and caring community responses Finally the last section focuses on practice and brings together research and theory into applied programming examples and evidence from on the ground efforts to establish caring communities that respond to local needs in times of crisis and beyond By addressing these objectives this book provides a more complete understanding of the essential role that community can play in disaster mitigation Doing this will provide a better focus for ongoing research endeavors and program and policy initiatives at the community level that seek to prepare for respond to and recover from natural and other disasters As a result this book contributes to wider and more sustainable development of our communities beyond disasters while furthering dialog among community scholars and practitioners Climate Crisis, Social Responses and Sustainability Uttam Mukhopadhyay,Subhasis Bhattacharya,Pradip Chouhan,Suman Paul,Indrajit Roy Chowdhury,Uday Chatterjee,2024-05-28 This proposed book aims to present an analysis of several crisis issues induced by global climate changes and implications at the micro level particularly from the perspective of ground based study Climate crisis leads to several socio ecological issues which need to discuss with some empirical case studies from the contextual global evidences Climatic crisis generates several social responses which are associated with mitigating issues in addition to sustainable development goals Under these circumstances several loopholes interlinked with climatic crisis need to expose in the present day context This book argues that it is important to understand the issues from multiple dimensions It identifies some important dimensions to discuss in the process Themes we purpose to cover are several field based studies are included for which micro level field based data would incorporate to understand current crisis induced by climate change thus exposing the vulnerabilities of the communities which would be incorporated in different

chapters with adequate representation of qualitative methods modelling based geospatial approach Therefore some secondary data based studies have also been included to provide a broader picture Additionally this book aims to provide an interdisciplinary understanding of the issues mainly from the lenses of Geography Economics and Sociology as well as Environmental Studies too Given the focus of this study it is believed that an approach that harmonizes the cognitive domain from different discipline is appropriated A combination of chapters using qualitative as well as quantitative methods also made this book exclusive from others We believe that this edited book surely contributes the knowledge domain with some relevant chapters discussion in the contemporary time and leads to reduce the gap of knowledge

Theorising the Practice of Community Development Peter Westoby, 2016-02-17 Based on 25 years of community development practice six of which have been lived in South Africa Peter Westoby's ground breaking monograph moves away from dominant normative accounts of community development to provide an appreciative and critical analysis of concrete examples of community development theory and practice By examining community development stories as experienced on the ground Westoby is able to show how the poor are organising themselves using various forms of community development as well as demonstrating how the state and non state actors are attempting to organise engage or accompany the poor through community development The book also breaks new ground in theorising the practice of community development drawing inductively from the stories analysed The diversity of South African contexts and the proliferation of different kinds of community practice make this a hugely difficult task Despite this Westoby argues it is one worth undertaking given the seriousness of the challenges facing the poor and progressive social change agents within South Africa In this undertaking Westoby draws upon a unique analytical framework to help illuminate current community development policy and programme challenges along with practice dilemmas and wisdom
