**International Handbook of Inter-religious Education** Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity

Wirén, 2017-11-01 In Hope and Otherness Jakob Wirén analyses the place and role of the religious Other in contemporary eschatology In connection with this theme he examines and compares different levels of inclusion and exclusion in Christian Muslim and Jewish eschatologies He argues that a distinction should be made in approaches to this issue between soteriological openness and eschatological openness By going beyond Christian theology and also looking to Muslim and Jewish sources and by combining the question of the religious Other with eschatology Wirén explores ways of articulating Christian eschatology in light of religious otherness and provides a new and vital slant to the threefold paradigm of exclusivism inclusivism and pluralism that has been prevalent in the theology of religions Jakob Wirén's study pushes forward the frontiers of three disciplines all at the same time theology of religions comparative religions and eschatology This is a challenging and important book Gavin D Costa University of Bristol Professor of Catholic Theology 2017 This book explores of the status of religious others in Christian eschatology and of eschatology itself as a privileged place for reflecting on religious otherness Wirén mines not only Christian but also Jewish and Muslim sources to develop an inclusive eschatology Hope and Otherness thus represents an important contribution to both theology of religions and comparative theology Catherine Cornille Boston College Professor of Comparative Theology 2017      *Christian-Muslim Dialogue in the Twentieth Century* A. **The Cross and the Rising Sun: The British Protestant missionary movement in Japan, Korea, and Taiwan, 1865-1945** A. Hamish Ion,1990 The influx of Protestant missionaries from Britain to Japan Korea and Taiwan was an integral part of the British presence in East Asia from 1865 to 1945 Ion draws on both British and Japanese sources to examine the life work and attitudes of the British missionaries women and men who ventured far from their homeland to preach the gospel He explores the role played by British Protestants as both Christian missionaries and informal ambassadors of their own country and civilization Through their educational social and medical work the

missionaries helped introduce Western ideas and social pursuits which in turn affected different facets of society and culture in Japan Korea and Taiwan The study illustrates how the British missionaries intent to introduce Christianity was affected by the response of the East Asians to Western ideas In describing the high drama of the British missionary movement s pioneering days in the late nineteenth century to its persecution during the late 1930s Ion casts light on a particular yet important aspect of the changing tides of Anglo Japanese relations This book will ably complement his previous study of Canadian missionaries in East Asia during the same period Chosen as one of the 15 outstanding books of 1993 for mission studies by the International Bulletin of Missionary Research     **The Fervent Embrace** Caitlin Carenen,2012-03-26 Eleven minutes after Israel declared its independence on 14 May 1948 the United States granted it de facto recognition President Harry Truman s memo was short and to the point This Government has been informed that a Jewish state has been proclaimed in Palestine and recognition has been requested by the provisional government thereof The United States recognizes the provisional government as the de facto authority of the new State of Israel Truman s concise memo belied the drama behind its creation Despite enormous pressure from Truman s State Department and members of his cabinet to withhold recognition the president quickly offered it Some scholars have argued that pressure from Jewish lobby groups explains Truman s speedy actions but this alone does not fully explain the president s immediate support for the new Jewish state What accounts for it then A significant part of the answer lies in the actions and lobbying efforts of an elite group of mainline or liberal Protestant leaders who persuasively argued that the destruction of the European Jews during the Second World War necessitated support for Zionism Historic Christian antisemitism helped to create the twentieth century s worst genocide they insisted and therefore its solution constituted a Christian responsibility This powerful well connected mainline Protestant minority set about radically changing the nature of Protestant Jewish relations and U S foreign policy over the course of the century
