Segunda reimpression** Miguel Caxa de Leruela,1732 Daily Life in Spain in the Golden Age Marcelin Defourneaux,1979 A book about life in Spain from the succession of Philip II 1556 to the death of Philip IV 1665 The author relies primarily upon careful use of literary works and travel accounts written during this golden age In addition to delightful descriptions and anecdotes he has woven into his text important political and economic developments He provides a general view of Spain stressing the importance of the Catholic faith and the emphasis upon personal honour before surveying life and society in urban and rural areas He then examines in some detail life in the Church university military and home public entertainment and the picaresque life *Restauracion de la abundancia de España, o prestantissimo, vnico y facil reparo de su carestia presente ...* ,1713 New World Gold Elvira Vilches,2010-05-15 The discovery of the New World was initially a cause for celebration But the vast amounts of gold that Columbus and other explorers claimed from these lands altered Spanish society The influx of such wealth contributed to the expansion of the Spanish empire but also it raised doubts and insecurities about the meaning and function of money the ideals of court and civility and the structure of commerce and credit New World Gold shows that far from being a stabilizing force the flow of

gold from the Americas created anxieties among Spaniards and shaped a host of distinct behaviors cultural practices and intellectual pursuits on both sides of the Atlantic Elvira Vilches examines economic treatises stories of travel and conquest moralist writings fiction poetry and drama to reveal that New World gold ultimately became a problematic source of power that destabilized Spain's sense of trust truth and worth These cultural anxieties she argues rendered the discovery of gold paradoxically disastrous for Spanish society Combining economic thought social history and literary theory in trans Atlantic contexts *New World Gold* unveils the dark side of Spain's Golden Age *Las producciones naturales de España* Alberto de Segovia y Corrales, 1895
