void But it s the secret identity of their iconic patient that provides ENCORE with its arcane visionary twist The scientists had no way of knowing that their experiment would inadvertently catapult the world into the prophetic Last Days *Haunted Modernities* Anru Lee,2023 In 1973 twenty five young women drowned in a ferry accident on their way to work in factories in Taiwan s Kaohsiung Export Processing Zone Their remains were recovered and interred collectively in what came to be called the Twenty five Maiden Ladies Tomb Without a husband s ancestral hall where they would have been laid to rest the spirits of these unmarried women were considered homeless and possibly vengeful and so the Maiden Ladies Tomb was viewed as a place to be avoided especially by young men traveling alone fearful of encountering a female ghost searching for a husband Over the years numerous plans were made to revamp the tomb site finally in 2008 at the urging of local feminist communities the Kaohsiung City government renovated the Twenty five Maiden Ladies Tomb and renamed it the Memorial Park for Women Laborers *Haunted Modernities* interrogates the nature of shared expressions of history sentiments and memory as it investigates the role of these women and other female workers in the shifting public narrative during and after the Maiden Ladies Tomb renovation By exploring the ways in which the deceased young women were perceived to haunt the living and the diverse renovations recommended the book illuminates how women workers in Taiwan have been conceptualized in the last several decades In their proposals to renovate the tomb the interested parties forged specific accounts of history transforming the collective burial site according to varying definitions of heritage as Taiwan shifted to a postindustrial economy where factory jobs were no longer the main source of employment Their plans engaged with acts of remembering communal and individual to create new ways of understanding the present The Twenty five Maiden Ladies Tomb as a heritage site elucidates how history and memory are not simply about the past but part of a forward looking process that emerges from the social political and economic needs of the present legitimized and validated through its associations with the past
