Bond, G. Sherburn, 2003-09-02 English historians in the Middle Ages is an overview of the history of English historians and their works in the Middle Ages English historians helped lay the groundwork for modern historical methodology provided vital accounts of the early history of England its culture and revelations about the historians themselves The most remarkable period of historical writing was during the High Middle Ages in the 12th and 13th centuries when English chronicles produced works with a variety of interest wealth of information and amplitude of range However one might choose to view the reliability *Restoration and Eighteenth-Century Poetry, 1660-1780* Eric Rothstein, 1981 *The Culture of Equity in Restoration and Eighteenth-Century Britain and America* Mark Fortier, 2016-03-16 Drawing on politics religion law literature and philosophy this interdisciplinary study is a sequel to Mark Fortier's book *The Culture of Equity in Early Modern England* Ashgate 2006 The earlier volume traced the meanings and usage of equity in broad cultural terms including but not limited to law to position equity as a keyword of valuation persuasion and understanding the present volume carries that work through the Restoration and eighteenth century in Britain and America Fortier argues that equity continued to be a keyword used and contested in many of the major social and political events of the period Further he argues that equity needs to be seen in this period largely outside the Aristotelian parameters that have generally been assumed in scholarship on equity **English Drama of the Restoration and Eighteenth Century (1642-1780)** George Henry Nettleton, 1914 *The Restoration and Eighteenth Century (1660-1789)* Donald Frederic Bond, 2004 *Cultural Readings of Restoration and Eighteenth-Century English Theater* Deborah Payne Fisk, J. Douglas Canfield, 2010-12-01 Ranging in approach from feminist to historicist the eleven essays in this collection share the culturalist premise that the drama of late Stuart and early Georgian England helped to constitute the dominant ideology of the period The contributors varied approaches allow for the reconsideration of libertinism the politics of sexual desire and other classic issues as well as such newer concerns as the social construction of the first English actresses empiricism as an emergent epistemological discourse cultural anxiety about novelty and repetition and shifting tropes of inherent worth By reading well known works in unexpected ways and focusing on less frequently studied dramatists from Sedley Motteux Pix and Behn to Manley Trotter and Shadwell the contributors also test the limits of the canon In addition they suggest that

earlier critical perceptions perhaps even more than the innate worth of the plays determined the shape of the canon These essays present a different image of Restoration and eighteenth century theater one that reveals how the drama was a site as important for the negotiation of cultural meaning as were novels and verse satires The Broadview Anthology of Restoration and Early Eighteenth Century Drama: Concise Edition J. Douglas Canfield, Maja-Lisa von Sneidern, 2003-04-17 The Broadview Anthology of Restoration and Early Eighteenth Century Drama Concise Edition with twenty one plays is half the length of the full anthology without compromising its breadth Concentrating on plays from the heyday of 1660-1737 it focuses on Restoration drama proper and Revolution drama with a selection from the early Georgian period and the later Georgian period's laughing comedy Seven of the nine sub genres personal tragedy tragicomic romance social comedy subversive comedy corrective satire menippean satire and laughing comedy of the full anthology are represented with the preponderance of exposure given to the jewel of this theatre its comedy Each play is fully annotated and prefaced with an historical introduction Also included are a general introduction a statement of procedures and a glossary English Poems Walter Cochrane Bronson, 1917 **England in the Restoration and Early Eighteenth Century** H. T. Swedenberg Jr., 2023-11-15 **Restoration and Eighteenth-Century Poetry 1660-1780 (Routledge Revivals)** Eric Rothstein, 2014-10-10 Restoration and Eighteenth Century Poetry 1660-1780 originally published in 1981 considers poetry written between 1660 and 1780 a period which although largely recovered from its nineteenth century reputation still attracts widely varying critical responses Abandoning the old labels such as neoclassicism romanticism and sensibility the author focuses on descriptions of genres and their formal elements and traces the broader patterns of literary and historical change running through the period Eric Rothstein describes different poetic modes panegyric satire pastoral and topographical poetry the epistle and the ode to suggest their aesthetical possibilities as well as their process of change He also considers style and the uses of the past topics which have often caused particular problems for the students of the period What becomes clear is the extraordinary originality flexibility and power with which Restoration and eighteenth century poets handles the stylistic assumptions and the body of poems they inherited and employed in their own works
