Restored to Earth Gretel Van Wieren, 2013-07-09 Ecological restoration integrates the science and art of repairing ecosystems damaged by human activities Despite relatively little attention from environmental ethicists restoration projects continue to gain significance drawing on citizen volunteers and large amounts of public funds providing an important model of responding to ecological crisis Projects range from the massive multi billion dollar Kissimmee River project restoring 25 000 acres of Everglades wetlands to the 30 million effort to restore selected wetlands in industrial Brownfield sites in Chicago's south side Lake Calumet area to the reintroduction of tall grass prairie ecosystems in various communities in the Midwest Restored to Earth provides the first comprehensive examination of the religious and ethical dimensions and significance of contemporary restoration practice an ethical framework that advances the field of environmental ethics in a more positive action oriented experience based direction Van Wieren brings together insights and examples from restoration ecology environmental ethics religious studies and conservation and Christian thought as well as her own personal experiences in ecological restoration to propose a new restoration ethic grounded in the concrete hands on experience of humans working as partners with the land

incorporating receptive surfaces into their work film footage of glaring sunlight an aperture in a chamber that opens to the sky or a porous armature on which vegetation grows earth artists articulate the dilemma of representation that nature presents Revealing the fundamental difference between the human world and the earth Boetzkes shows that earth art mediates the sensations of nature while allowing nature itself to remain irreducible to human signification The Nonviolent God J. Thomas, 2015-11-20 Much has been written and debated concerning the details of the creation account In doing so that which is of most importance has been missed This is Gods Purpose for His Creation which is seen in the way of His creation His actions and all He allowed to happen Gods purpose and plan was not seen to begin with consequently a number of teachings resulted These teachings have become tradition and are addressed herein by the following questions that reveal His purpose What did God mean when He called His creation good and very good Did God originally create Adam and Eve with immortal physical bodies Were all animals and mankind originally created to be vegetarians Why did God cast Satan and his angels onto the earth and not elsewhere Did eating of the Tree of Knowledge of Good and Evil which God called good include both physical and spiritual death What was the Tree of Life all about Was an animal killed when God made clothes out of skin for Adam and Eve and if so was it the first animal to die What all was cursed when Adam sinned What were the penalties because of Adams sin Understanding all of this sets the foundation for and enables us to see Gods purpose for his creation from the beginning in Genesis to the end in Revelation This is God revealing the fullness of His nature and His loving mercy and grace which was never before seen or experienced in His heavenly kingdom This is specifically revealed through Jesus Christ *Our earth and its story* Robert Brown, 1893
