

A young child with dark hair, wearing a blue long-sleeved shirt and orange shorts, is wading in shallow water. The child is leaning forward, with their right arm extended towards the left. The background is split: the left side is a vibrant green with a textured, almost crystalline appearance, while the right side shows a sandy beach and a calm sea under a clear sky. The overall mood is serene and evocative.

Restoring the First-century Church in the Twenty-first Century Warren Lewis, Hans Rollmann, 2005-10-15 *Restoring the First century Church in the Twenty first Century Essays on the Stone Campbell Restoration Movement in Honor of Don Haymes* is a snap shot of a major American religious movement just after the turn of the millennium When the Disciples of Alexander Campbell and the Christians of Barton Warren Stone joined forces early in the 19th century the first indigenous ecumenical movement in the United States came into being Two hundred years later this American experiment in biblical primitivism has resulted in three possibly four large segments Best known is the Christian Church Disciples of Christ active wherever ecumenical Christians gather The denomination is typically theologically open having been reshaped by theological Liberalism and the Social Gospel in the twentieth century and has been re organized on the model of other Protestant bodies The largest group the Churches of Christ easily distinguished by their insistence on a cappella music singing only is theologically conservative now tending towards the evangelical and congregationally autonomous though with a denominational sense of brotherhood The Christian Churches Churches of Christ Independent are a via media between the two other bodies theologically conservative and evangelical congregationally autonomous pastorally oriented and comfortable with instrumental music The fourth numerically significant group the churches of Christ Anti Institutional is a conservative reaction to the a cappella churches much in the way that the Southern a capella churches reacted against the emerging intellectual culture and social location instrumental music and institutional centrism of the Northern Disciples following the Civil War Besides these four numerous smaller fragments typically one article splinter groups decorate the history of the Restoration Movement One Cup brethren Premillennialists No Sunday School congregations No Located Preacher churches and others This movement to unite Christians on the basis of faith and immersion in Jesus Christ and to restore New Testament Christianity is too little recognized on the American religious landscape and it has been too little studied by the academic community This volume is focused primarily on the a cappella churches and their interests but implications for the entire Stone Campbell Restoration Movement abound The voices that

speaking freely within were unimpeded in authoring these essays by standards of orthodoxy imposed from without. All of the contributors are acquainted with Don Haymes, the honoree of the volume, and have been inspired by this friend and colleague, a man with a rigorous and earthy intellect and a heavenly spirit.

Wonderland Daniel Doen Silberberg, 2005-09-09

Written in the non-traditional, humorous and slightly irreverent tone of books like *Sit Down and Shut Up* and *Dharma Goggles*, *Wonderland* is a highly original riff on Alice in Wonderland, using the classic story as a jumping off point for conveying the Zen concept of One Mind. Daniel Silberberg's first book is a unique contribution to contemporary American Zen, which honors its historic roots and yet strikes out into fresh areas. It presents a lively mix of tone and quotation and levels of discourse, from citing *Timeless Spring* or the Diamond Sutra to *Kill Bill* and ketchup. With stories from his own life as well as from the larger cultural swirl around him, Daniel Silberberg reflects on the differences between how we perceive the world around us and the way it actually is. Daniel Silberberg's take on a variety of Buddhist ideas and concepts are immediately useful and relevant. The reader will find that it addresses directly some of the issues they are dealing with in their own practice. The author's insights and experiences come from his experience leading a large Zen community and from his almost thirty years of Zen training in the lineage of the highly revered teachers Genpo Roshi and Maezumi Roshi.

The Secret of the Lord Janet Sue Hardwick, 2010-06-28

Ecospirit Laurel Kearns, Catherine Keller, 2009-08-25

We hope even as we doubt that the environmental crisis can be controlled. Public awareness of our species' self-destructiveness as material beings in a material world is growing, but so is the destructiveness. The practical interventions needed for saving and restoring the earth will require a collective shift of such magnitude as to take on a spiritual and religious intensity. This transformation has in part already begun. Traditions of ecological theology and ecologically aware religious practice have been preparing the way for decades. Yet these traditions still remain marginal to society, academy, and church. With a fresh transdisciplinary approach, *Ecospirit* probes the possibility of a green shift radical enough to permeate the ancient roots of our sensibility and the social sources of our practice. From new language for imagining the earth as a living ground to current constructions of nature in theology, science, and philosophy, from environmentalism's questioning of postmodern thought to a garden of green doctrines, rituals, and liturgies for contemporary religion, these original essays explore and expand our sense of how to proceed in the face of an ecological crisis that demands new thinking and acting. In the midst of planetary crisis, they activate imagination.
