Kathy Lalonde RPP Environmental Health Perspectives ,1997 When Healing Becomes a Crime Kenny Ausubel,2000-05-01 A powerful and substantiated expose of the medical politics that prevents promising alternative cancer therapies from being implemented in the United States Focuses on Harry Hoxsey the subject of the author s award winning documentary who claimed to cure cancer using herbal remedies Presents scientific evidence supporting Hoxsey s cancer fighting claims Published to coincide with the anticipated 2000 public release of the government sponsored report finding noteworthy cases of survival among Hoxsey patients Harry Hoxsey claimed to cure cancer using herbal remedies and thousands of patients swore that he healed them His Texas clinic became the world s largest privately owned cancer center with branches in seventeen states and the value of its therapeutic treatments was upheld by two federal courts Even his arch nemesis the AMA admitted his treatment was effective against some forms of cancer But the medical establishment refused an investigation branding Hoxsey the worst cancer quack of the century and forcing his clinic to Tijuana Mexico where it continues to claim very high success rates Modern laboratory tests have confirmed the anticancer properties of Hoxsey s herbs and a federal govenment sponsored report is now calling for a major reconsideration of the Hoxsey therapy When Healing Becomes a Crime exposes the overall failure of the War on Cancer while revealing how yesterday s unorthodox

treatments are emerging as tomorrow's medicine. It probes other promising unconventional cancer treatments that have also been condemned without investigation, delving deeply into the corrosive medical politics and powerful economic forces behind this suppression. As alternative medicine finally regains its rightful place in mainstream practice, this compelling book will not only forever change the way you see medicine but could also save your life. **Mother Jones Magazine**, 1998-07

Explores the flourishing passionate forms of leadership emerging from women on behalf of the earth and community. Contains more than 30 essays from successful women leaders including writers Alice Walker and Eve Ensler, psychiatrist Jean Shinoda Bolen, holistic doctor Rachel Naomi Remen, hip-hop performer Rha Goddess, and famous tree-sitter Julia Butterfly Hill. From Bioneers president and cofounder Nina Simons, many today find themselves being called toward greater leadership on behalf of the Earth toward leadership sourced from their inner authority and inspired by what they love and are dedicated to protect, transform, and strengthen. Those successfully heeding this call have embraced the qualities previously relegated to the feminine: inner awareness, collaboration, relational intelligence, respect for the sacred, and generosity, and married them to the best of their masculine attributes to create a new form of leadership more inspiring, inviting, and effective for transforming how we live on Earth and with each other. This anthology presents more than 30 essays from eminent women trailblazers such as author Alice Walker, psychiatrist Jean Shinoda Bolen, playwright Eve Ensler, holistic doctor Rachel Naomi Remen, biologist Janine Benyus, hip-hop performer Rha Goddess, and famous tree-sitter Julia Butterfly Hill, as well as lesser-known but equally influential leaders such as social entrepreneur Judy Wicks, philanthropic activist Kathy LeMay, food justice advocate LaDonna Redmond, and media educator Sofia Quintero. Their narratives explore how they cultivated their leadership impulses and their feminine strengths, reinventing leadership to prioritize community, collaboration, the environment, and the common good. Illuminating a path to progressive environmental and social change, their passionate stories of joyful, creative, collaborative, and sacred leadership ignite within each reader the power to help cocreate a healthy, peaceful, just, and sustainable world.
