Restoring the Future Robert J. Elder, 2001 Restoring The Future challenges readers to a deeper Easter faith by opening unexpected treasures in the first lesson lectionary passages from Genesis Exodus Samuel the prophets and the book of Acts Drawing upon thoughtfully mined biblical insights and his alert attention to contemporary culture Rob Elder has crafted sermons that not only disclose some unexpected angles of vision on Lent and Easter but also serve as models for preaching on neglected and overlooked texts These are not the usual texts and these are not the expected words for the seasons of Lent and Easter but it is sometimes what we do not expect to see and hear that delights us the most Thomas G Long Bandy Professor of Preaching Candler School of Theology Emory University Some of the best sermons I have heard are from preachers who are not widely known It is grand to have the opportunity to hear from one of those faithful servants who year in and year out feed their parishioners with God's word Diogenes Allen Princeton Theological Seminary This is the kind of preaching that nourishes the church In this volume Rob Elder serves up a full meal of appetizing stories hearty reflections on scripture serious theological convictions and delicious good humor Rob's passion for the Bread of Life is matched only by his quick wit and engaging style Don't miss this great collection of sermons by a fine preacher William G Carter Pastor First Presbyterian Church Clarks Summit Pennsylvania Robert J Elder is currently the pastor of First Presbyterian Church in Salem Oregon He is a graduate of Trinity University San Antonio Texas Princeton Theological Seminary M Div and Drew University Theological School D Min Prior to his arrival in Salem Elder served parishes in Amarillo Texas Port Arthur Texas and Corvallis Oregon He has been active in his denomination including a term as the moderator of the Cascades Presbytery Elder's sermons have also been widely published in preaching periodicals including Lectionary Homiletics where he served for four years on the editorial team

**Restore the Future** Donald H. Young, 2012-01-31 Politically and economically the future of the United States is at stake In Restore the Future author Donald H Young seeks to galvanize the American people to guarantee a traditional future for our children and grandchildren through participation in a nonviolent Second American Revolution This Revolution of the people is as justified as the first one and it would be accomplished by using the extraordinary voting power granted to them by the Constitution to restore constitutional government Without this Revolution it can truly be said that the best days of the United States are behind it In this treatise he reviews historical forms of government and shows how the founding documents created the pinnacle of the development of government to date follows the outline of the Declaration of Independence in describing the many grievances we have with our government today based on its extraordinary departures from the founding documents which justify the Revolution discusses religion its importance to the Founders the elemental morality it provides and the importance of morality to the necessary function of society discusses the nature of liberty how it is different from freedom and why maximizing liberty is one of the primary responsibilities of government outlines the derivation of and the importance of the rule of law to the functioning of a society highlights the

tragic failure of American education by global standards communicates the rationale for and critical importance of free enterprise and free trade and why free enterprise is the greatest engine for economic growth and personal development in the history of the world provides a roadmap for the accomplishment of the Revolution      **Our Once and Future Planet**

Paddy Woodworth,2013-10-15 The environmental movement is plagued by pessimism And that s not unreasonable with so many complicated seemingly intractable problems facing the planet coupled with a need to convince people of the dangers we face it s hard not to focus on the negative But that paints an unbalanced and overly disheartening picture of what s going on with environmental stewardship today There are success stories and Our Once and Future Planet delivers a fascinating account of one of the most impressive areas of current environmental experimentation and innovation ecological restoration Veteran investigative reporter Paddy Woodworth has spent years traveling the globe and talking with people scientists politicians and ordinary citizens who are working on the front lines of the battle against environmental degradation At sites ranging from Mexico to New Zealand and Chicago to Cape Town Woodworth shows us the striking successes and a few humbling failures of groups that are attempting to use cutting edge science to restore blighted polluted and otherwise troubled landscapes to states of ecological health and in some of the most controversial cases to particular moments in historical time before widespread human intervention His firsthand field reports and interviews with participants reveal the promise power and limitations of restoration Ecological restoration alone won t solve the myriad problems facing our environment But Our Once and Future Planet demonstrates the role it can play and the hope inspiration and new knowledge that can come from saving even one small patch of earth      *The Future Restoration of Israel* Stanley E. Porter,Alan E.
