## **Resurrecting Empire Western Footprints And Americas Perilous Path In The Middle East:**

Resurrecting Empire Rashid Khalidi, 2010-07-01 Begun as the United States moved its armed forces into Iraq Rashid Khalidi's powerful and thoughtful new book examines the record of Western involvement in the region and analyzes the likely outcome of our most recent Middle East incursions Drawing on his encyclopedic knowledge of the political and cultural history of the entire region as well as interviews and documents Khalidi paints a chilling scenario of our present situation and yet offers a tangible alternative that can help us find the path to peace rather than Empire We all know that those who refuse to learn from history are doomed to repeat it Sadly as Khalidi reveals with clarity and surety America's leaders seem blindly committed to an ahistorical path of conflict occupation and colonial rule Our current policies ignore rather than incorporate the lessons of experience American troops in Iraq have seen first hand the consequences of U S led democratization in the region The Israeli Palestinian conflict seems intractable and U S efforts in recent years have only inflamed the situation The footprints America follows have led us into the same quagmire that swallowed our European forerunners Peace and prosperity for the region are nowhere in sight This cogent and highly accessible book provides the historical and cultural perspective so vital to understanding our present situation and to finding and pursuing a more effective and just foreign policy

**Imperialism and the Developing World** Atul Kohli, 2020 How did Western imperialism shape the developing world Atul Kohli tackles that question by analyzing British and American influence on Asia Africa the Middle East and Latin America from the age of the British East India Company to the most recent U S war in Iraq How did Western imperialism shape the developing world In Imperialism and the Developing World Atul Kohli tackles this question by analyzing British and American influence on Asia Africa the Middle East and Latin America from the age of the British East India Company to the most recent U S war in Iraq He argues that both Britain and the U S expanded to enhance their national economic prosperity and shows how Anglo American expansionism hurt economic development in poor parts of the world To clarify the causes and consequences of modern imperialism Kohli first explains that there are two kinds of empires and analyzes the dynamics of both Imperialism can refer to a formal colonial empire such as Britain in the 19th century or an informal empire wielding significant influence but not territorial control such as the U S in the 20th century Kohli contends that both have repeatedly undermined the prospects of steady economic progress in the global periphery though to different degrees Time and again the pursuit of their own national economic prosperity led Britain and the U S to expand into peripheral areas of the world Limiting the sovereignty of other states and poor and weak states on the periphery in particular was the main method of imperialism For the British and American empires this tactic ensured that peripheral economies would stay open and accessible to Anglo American economic interests Loss of sovereignty however greatly hurt the life chances of people living in Asia the Middle East Africa and Latin America As Kohli lays bare sovereignty is an economic asset it is a precondition for the emergence of states that can foster prosperous and inclusive industrial societies

**Contemporary Arab-American Literature** Carol Fadda-Conrey, 2014-05-30 The last couple of decades have witnessed a flourishing of Arab American literature across multiple genres Yet increased interest in this literature is ironically paralleled by a prevalent bias against Arabs and Muslims that portrays their long presence in the US as a recent and unwelcome phenomenon Spanning the 1990s to the present Carol Fadda Conrey takes in the sweep of literary and cultural texts by Arab American writers in order to understand the ways in which their depictions of Arab homelands whether actual or imagined play a crucial role in shaping cultural articulations of US citizenship and belonging By asserting themselves within a US framework while maintaining connections to their homelands Arab Americans contest the blanket representations of themselves as dictated by the US nation state Deploying a multidisciplinary framework at the intersection of Middle Eastern studies US ethnic studies and diaspora studies Fadda Conrey argues for a transnational discourse that overturns the often rigid affiliations embedded in ethnic labels Tracing the shifts in transnational perspectives from the founders of Arab American literature like Gibran Kahlil Gibran and Ameen Rihani to modern writers such as Naomi Shihab Nye Joseph Geha Randa Jarrar and Suheir Hammad Fadda Conrey finds that contemporary Arab American writers depict strong yet complex attachments to the US landscape She explores how the idea of home is negotiated between immigrant parents and subsequent generations alongside analyses of texts that work toward fostering more nuanced understandings of Arab and Muslim identities in the wake of post 9 11 anti Arab sentiments

**The Many Faces of Political Islam, Second Edition** Mohammed Ayoob, Danielle Nicole Lussier, 2020-01-03 Analysts and pundits from across the American political spectrum describe Islamic fundamentalism as one of the greatest threats to modern Western style democracy Yet very few non Muslims would be able to venture an accurate definition of political Islam Fully revised and updated *The Many Faces of Political Islam* thoroughly analyzes the many facets of this political ideology and shows its impact on global relations *Unsettling Colonial Modernity in Islamicate Contexts* Kara Adbolmaleki, Roxana Akhbari, Siavash Saffari, 2017-05-11 By focusing on colonial histories and legacies this edited volume breaks new ground in studying modernity in Islamicate contexts From a range of disciplinary perspectives the authors probe colonial modernity as a condition whose introduction into Islamicate contexts was facilitated historically by European encroachment into South Asia the Middle East and Northern Africa They also analyze the various modes through which in Europe itself and in North America by extension people from Islamicate contexts have been and continue to be otherized in the constitution and

advancement of the project of modernity The book further brings to light a multiplicity of social political cultural and aesthetic modes of resistance aimed at subverting and unsettling colonial modernity in both Muslim majority and diasporic contexts

**Israel / Palestine** Alan Dowty, 2013-08-27 What explains the peculiar intensity and evident intractability of the Israeli Palestinian conflict Of all the hot spots in the world today the apparently endless clash between Jews and Arabs in the Middle East seems unique in its longevity and resistance to resolution Is this conflict really different from other ethnic and nationalist confrontations and if so in what way In this fully revised and updated third edition of his highly respected introductory text Alan Dowty demystifies the conflict by putting it in broad historical perspective identifying its roots and tracing its evolution up to the current impasse His account offers a clear analytic framework for understanding transformations over time and in doing so punctures the myths of an age old conflict with an unbridgeable gap between the two sides Rather than simply reciting historical detail this book presents a clear overview that serves as a road map through the thicket of conflicting claims This newly expanded edition updates the analysis to include the latest developments and also integrates into the analysis a fuller account of the regional and international context of the conflict In this account the opposed perspectives of the two sides are presented in full leaving readers to make their own evaluations of the issues The book thus expresses fairly and objectively the concerns hopes fears and passions of both sides making it clear why this conflict is waged with such vehemence and why for all that there are some grounds for optimism

*The Ashgate Research Companion to Modern Imperial Histories* John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more

comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire
