Murrin, 2018 This volume brings together the seminal essays of John M Murrin on the American Revolution the United States Constitution and the early American Republic Rethinking America explains why a constitutional argument within the British Empire escalated to produce a revolutionary republic Rethinking America's Past Robert Cohen, Sonia E. Murrow, 2021-11-01 No introductory work of American history has had more influence over the past forty years than Howard Zinn's A People's History of the United States which since its publication in 1980 has sold more than three million copies Zinn's iconoclastic critique of American militarism racism and capitalism has drawn bitter criticism from the Right most recently from President Donald Trump who at his White House Conference on American History in 2020 denounced Zinn as a Left propagandist and accused teachers aligned with Zinn of indoctrinating students to hate America and be ashamed of its history Rethinking America's Past is the first work to use archival and classroom evidence to assess the impact that Zinn's classic work has had on historical teaching and learning and on American culture This evidence refutes Trump's charges showing that rather than indoctrinating students Zinn's book has been used by teachers to have students debate and rethink conventional versions of American history Rethinking America's Past also explores the ways Zinn's work fostered deeper more critical renderings of the American past in movies and on stage and television and traces the origins and assesses the strengths and weaknesses of A People's History in light of more recent historical scholarship

Douds, Eileen M. Ahlin, 2017-06-02 Commonsense Choices from Uncommon Voices Rethinking America's Correctional Policies brings together the experiences of men who served time in prison with

contemporary research on correctional policy This work combines a voyeuristic desire to observe evil and the consequences of the system of punishment with detached consideration of what those stories can tell us about who we are as a nation and how we treat those who have betrayed the social trust The authors simultaneously examine first person accounts of inmate experiences with the correctional system and what actually works in operation to promote the rehabilitative and restorative models of justice so many of our policymakers espouse Each chapter opens with a vignette a recollection of an event or series of events about an inmate s experience during the various phases of correctional processing These first hand accounts have been collected from men who served time in prison These men s stories are examined in their own right then extrapolated to a broader analysis of the underlying social and policy issues to which that vignette speaks All chapters follow the same structure a opening vignette about a former inmate b analysis which includes i identification of the underlying issue ii reflection and iii extrapolation to a larger policy issue and c recommendations from the field for enacting practice and crafting policy more responsive to the identified issue

**Rethinking America** Richard Alexander Otto, 2019-07-15 This volume is my reflective journey in search of the truth as I rethink the meaning of our past wars the assassinations of our progressive leadership the growth of our national security complex the overall history of the country and the vitriolic nature

of our current politics The conclusions I ultimately deduced from my research are astonishing and disturbing but nevertheless if we are willing to embrace truth there is still time to save our country and the planet in which we all live But we must act with urgency not the incrementalism that the Democratic establishment are casually pursuing or in the case of the Trump administration are repudiating for the present difficulties that confront the nation and humanity require comprehensive solutions that are sufficient to drastically diminish the real threats that extreme poverty pervasive injustice unfettered power perpetual war and climate change so horrifyingly represent      **Rethinking America** Margaret E. Sokolik,1992 Authentic readings from a myriad of sources offer an analysis of American culture and values      **Rethinking America** M. E. Sokolik,1999 Instructor s Manual to accompany RETHINKING AMERICA 1 2 and 3      *Rethinking America* Jeff Maskovsky,Ida Susser,2009 How has domestic life been reorganised to accommodate the new U S imperial ambitions What are the consequences of empire for the people living here at home This new collection of essays answers these questions by exploring the cultural political and economic shifts that are now under way in the United States Encouraging a radical rethinking of what the country is today this book highlights the connection of U S imperial strategies to the production of insecurity uncertainty and deepening inequality at home Rethinking America also explores the instabilities and contradictions of the new imperialism from the unique vantage point of the newly emerging U S homeland Comprised of work from leading figures in the field of U S ethnography this book is essential reading for anyone interested in understanding the changes taking place in the United States in the early years of the twenty first century      **Education Now** Paul Theobald,2015-12-03 Education Now is a clear and persuasive account of the way in which popular seventeenth and eighteenth century theories about the human condition formed the basis for America s choices in the realms of politics economics and education Theobald chronicles the fate of alternative less popular ideas about the human condition ideas that would have led to vastly different political economic and educational landscapes than those we experience today This book exposes the flaws among prevalent theories and the strength of those alternatives that were dismissed or ignored In so doing Theobald points the way toward substantive changes across three dimensions ubiquitous to human life politics economics and education      **The Founders on God and Government** Daniel L. Dreisbach,Mark D. Hall,Jeffry H. Morrison,2004-10-08 In God We Trust The separation of church and state is a widely contested topic in the American political arena Whether for or against debaters frequently base their arguments in the Constitution and the principles of the American founding However Americans perception of the founding has narrowed greatly over the years focusing on a handful of eminent statesmen By exploring the work of nine founding fathers including often overlooked figures like John Carroll and George Mason The Founders on God and Government provides a more complete picture of America s origins The contributors all noted scholars examine the lives of individual founders and investigate the relationship between their religious beliefs and political thought Bringing together original documents and analytical essays this book is an excellent addition to the library of literature on

the founding and sheds new light on religion's contributions to American civic culture      **Eugenic Nation** Alexandra Minna Stern, 2016 With an emphasis on the American West *Eugenic Nation* explores the long and unsettled history of eugenics in the United States This expanded second edition includes shocking details that demonstrate that the story is far from over Alexandra Minna Stern explores the unauthorized sterilization of female inmates in California state prisons and ongoing reparations for North Carolina victims of sterilization as well as the topics of race based intelligence tests school segregation the U S Border Patrol tropical medicine the environmental movement and opposition to better breeding Radically new and relevant this edition draws from recently uncovered historical records to demonstrate patterns of racial bias in California's sterilization program and to recover personal experiences of reproductive injustice Stern connects the eugenic past to the genomic present with attention to the ethical and social implications of emerging genetic technologies Provided by publisher

**The Red Rooster Scare** Richard Abel, 1999-03-15 This outstanding work offers a new description of the evolution of American cinema in the nickelodeon period With his usual groundbreaking research Abel demonstrates the key role Path films played in this transformation Although clearly of crucial importance to film studies and film history this treatment of the issues of the rise of nationalism within the cinema should make the work of great interest to historians dealing with modern nationalism and its relation to mass media Tom Gunning author of *D W Griffith and the Origins of Narrative Film*      **The Asian Miracle, Myth, and Mirage** Bernard Arogyaswamy, 1998-04-23 Until recently double digit economic growth was not unusual among Asian countries and in fact had come to be expected of them From western India to northeastern China markets were booming and incredible numbers of foreign investors were racing into the Asian markets Scholars have written laudatory books and articles politicians want to ensure that trade with Asian countries continues on a rising trajectory and business leaders have become the new promoters of Asian prosperity This book attempts to inject a note of caution and reality while giving Asian countries well deserved credit for improving their economic status Technological managerial and institutional deficiencies need to be addressed in Asian countries if the progress of the past two decades is to be restored and preserved Although Asian nations particularly Japan have invested heavily in R D their success mainly derives from process improvements and not from new product innovations Technology and science are the foundations of modern economic civilization and Asia's assets fall behind Western countries in both areas The centrality of family based organizations in some Asian economies and the dependence on horizontal vertical networks in others also limits the ability of Asian firms to become global operations The lack of adequate institutions such as an independent judiciary and a responsive polity and the absence of organizations to bridge the gap between familism and the government results in an uncertain societal framework in much of Asia If robust economic growth is to return Asian economies must rectify the weaknesses Arogyaswamy exposes in this provocative and timely book      *Parameters*, 2016      [Small State Irregular Warfare in the Twenty-First Century](#) Marius Kristiansen, 2023-08-23 From a Norwegian perspective and by focusing on the Special Operations Forces component

within the Norwegian Armed Forces this book provides a scholar practitioner s perspective on how to increase the strategic utility of different types of military efforts in an SSA context The overarching project encompasses a wide range of elements for understanding the contemporary security environment and in particular how the military component fits into the strategic picture within an international context for small states It shows that small states must be aware of the different limitations for existing strategic options for the various actors involved It also outlines the strategic utility of potential niche capabilities and how elements within the Norwegian Armed Forces can take on a strategic enabling role for Norway bilateral partners and even coalitions in future conflicts Small State Irregular Warfare in the Twenty First Century serves as both a guide and a handbook on how small states might utilize SSA as an instrument of national power to meet national strategic objectives
