Rethinking European Security:

Facing War: Rethinking Europe's Security and Defence Serena Giusti, Giovanni Grevi, 2022-11-29 Russia's attack on Ukraine has sent shockwaves across Europe and the world. While the current war is a geopolitical turning point, it remains unclear whether it will trigger a quantum leap forward for European defence policies and for the role of the European Union as a security provider. This Report investigates whether we can expect a further convergence of European strategic cultures and on collaboration among Europeans to generate the required military capabilities and integrate their forces. Most importantly, it finds that the timely implementation of the EU's Strategic Compass will be a decisive test to establish whether Europeans are rising to the challenge of taking more responsibility for their security and defence. Furio Cerutti, Rodolfo Ragonieri, 1990. This volume contains a first analysis of European security after the INF Treaty. These reflections have three characteristics: beginning with historical and philosophical studies, going on to highlight proposals and finally concentrating on the Mediterranean region. *Rethinking Security in Post-Cold-War Europe* William Park, G. Wyn Rees, 2014-06-11. Provides a survey of the principal items on the agenda following the end of the Cold War, focusing upon the institutions and regions where the reconsideration of security issues has been particularly profound. The book is organised into three main sections: the first examines the changed roles of the main security institutions which have survived the Cold War (NATO, the European Union, Western European Union and the Organisation for Security and Cooperation in Europe); the second analyses the Central European countries, Russia and States of the former Soviet Union in terms of their ideologies, political structures and relationships of the Cold War period; Lastly, the text examines the northern and southern regions of Europe where quite different perspectives and agendas are concerned. Edwin Bakker, Arie Bloed, Sabine Machl, Wolfgang Zellner, 2010. **Rethinking (In)Security in the European Union** Claudia Anamaria Iov, 2020-05-14. This book is the result of a series of studies devoted to assessing the consequences of migration from the perspective of the migration identity in security causality, with a specific focus on the Roma issue in France. It demonstrates that in the context of the new European agenda on security following the events of 9/11, immigrants in general and the Roma in particular have found themselves trapped in a spiral of insecurity through which migration has been raised to the level of meta problem and they have become scapegoats. The book argues that these issues reflect a broader political discussion on the EU's identity and social policy. It shows that the socio-economic and security dimension of the Roma dossier is a case that may require policymakers in Brussels to rethink the EU's social responsibilities towards its citizens, thus giving up their ambiguous attitude regarding migration. *Rethinking European Union foreign policy* Ben Tonra, Thomas Christiansen, 2018-07-30. This electronic version has been made available under a Creative Commons BY-NC-ND open access license. This book reviews a variety of approaches to the study of the European Union's foreign policy. Much analysis of EU foreign policy contains theoretical assumptions about the nature of the EU and its

member states their inter relationships the international system in which they operate and the nature of European integration Such assumptions when not discussed openly often curtail debate This book opens up this field of enquiry so students observers and analysts of EU foreign policy can review a range of tools and theoretical templates from which the development and the trajectory of the EU s foreign policy can be studied Situated at the interface between European studies and international relations the book outlines how the EU relates to the rest of the world explaining its effort towards creating a credible effective and principled foreign security and defence policy

Revisiting European Security Hatice Yazgan,Sühal Şemşit,2020-09-29 The EU is currently facing multiple crises ranging from democratic backsliding to migration and its so called rule based order is challenged by both internal and international circumstances Nevertheless the EU is an evolving international actor and despite the shortfalls it has provoked the hopes of being a normative international actor which defends multilateralism and rule based order This edited volume re examines the EU as an international actor and power in the context of recent challenges both in the EU and in international politics and addresses the following questions Does the EU make a difference in various regions and issue areas Is it influential and visible What kind of a power is the EU regarding these regions How is the EU perceived by other powers What are the main threats perceived by the EU and how will the EU address these threats How will the EU defend its values under current circumstances This research focuses on the migration and asylum policies of the EU as a key area and examines the EU s role as an international actor in neighbouring regions and in Africa and China The book provides a context in current international circumstances and will be useful for students and practitioners

European Security Policy and Strategic Culture Peter Schmidt,Benjamin Zyla,2013-09-13

With the Lisbon Treaty in place and the European Union increasingly involved in international crisis management and stabilization operations in places near and far this volume revisits the trajectory of a European strategic culture Specifically it studies the usefulness of its application in a variety of circumstances including the EU s operations in Africa and the Balkans as well as joint operations with NATO and the United Nations The contributors find that strategic culture is a useful tool to explain and understand the EU s civilian and military operations not in the sense of a cause but as a European normative framework of preferences and constraints Accordingly classical notions of strategic culture in the field of international security must be adapted to highlight the specific character of Europe s strategic culture especially by taking the interaction with the United Nations and NATO into account Though at variance over the extent to which security and defence missions have demonstrated or promoted a shared strategic culture in Europe the authors reveal a growing sense that a cohesive strategic culture is critical in the EU s ambition of being a global actor Should Europe fail to nurture a shared strategic culture its actions will be based much more on flexibility than on cohesion This book was published as a special issue of Contemporary Security Policy

The Routledge Handbook of European Security Law and Policy E. Conde,Zhaklin V. Yaneva,Marzia Scopelliti,2019-10-11 The Handbook of European Security Law and Policy offers a holistic discussion of the contemporary challenges to the security of the European Union and emphasizes the complexity of dealing with these through legislation and policy Considering security from a human perspective the book opens with a general introduction to the key issues in European Security Law and Policy before delving into three main areas Institutions policies and mechanisms used by Security Defence Policy and Internal Affairs form the conceptual framework of the book at the same time an extensive analysis of the risks and challenges facing the EU including threats to human rights and sustainability as well as the European Union s legal and political response to these challenges is provided This Handbook is essential reading for scholars and students of European law security law EU law and interdisciplinary legal and political studies

Transatlantic Security Relations Dieter Mahncke,Wyn Rees,Wayne Thompson,2004-06-19 The transatlantic security relationship has been at the heart of cooperation since the onset of the Cold War and has been the foundation on which the stability of Europe has been built But the post Cold War period has raised major challenges for transatlantic relations as well as new security threats such as terrorism organized crime and drug trafficking These are fresh concerns in the sense that they have not been previously regarded as matters for US European cooperation Recent events such as the 1999 war in Kosovo the European Union s decision to create a Rapid Reaction Force and the US policy of proceeding with a ballistic missile defence capability have all contributed to tensions in transatlantic relations The transatlantic relationship has entered a new and highly uncertain period This book looks at the three main facets of the transatlantic security relationship the

defense of Europe global challenges and new security threats **European Security Culture** Dr Monica Gariup, 2013-03-28 Grounded on tenets of cultural realism and social constructivism Monica Gariup develops a theoretical framework to enhance our understanding of security culture at the European Union level She employs tools from political theory linguistic analysis and international relations theory to examine the implications of discourse and practice in European Security and Defense Policy ESDP Innovative in scope the volume analyzes whether elaborating a structurationist solution and proposing a discursive syntax of security makes it possible to identify and compare different types of security actors Providing a comprehensive and objective analysis on the links and implications between the discourse and actual policy of the ESDP this is essential reading for scholars and researchers in European politics international relations security and cultural studies **Climate Change and European Security** Richard Youngs, 2014-10-10 It is now commonly asserted that climate change will fundamentally change international relations It has been predicted that global warming will increase conflict within and between states intensify food insecurity menace the global trading system and unleash waves of migration As a result governments are beginning to incorporate these warnings into their foreign policy initiatives The appropriateness of their incipient responses needs to be examined in finer detail This book looks at the impact of climate change on European Union EU security policy It explores how governments are reconfiguring their geo strategy and broader international relations in the wake of climate change warnings The book demonstrates that although many aspects of EU foreign policies have begun to change climate security is not yet accorded unequivocal or sufficient priority In doing so Youngs argues that if climate change policies are to have significant effect they can no longer be treated as a separate area of policy but must be incorporated into the more mainstream debates pertinent to EU common foreign and security policy CFSP This book will be of key interest to students scholars and practitioners of climate change and policy energy and environmental policy EU governance and foreign policy European studies international relations geography security studies policy and environmental economics **European Security and Defence Policy** Michael Merlingen, Rasa Ostrauskaite, 2008-01-07 The first in depth book to explore how the European Security and Defence Policy has been implemented presenting both theory and detailed case studies on the EU's role in Bosnia Macedonia Georgia Aceh NATO Africa and cooperation with the US **Security Without Nuclear Weapons?** Stockholm International Peace Research Institute, 1992 This book examines the question Is the elimination of nuclear weapons feasible Individual chapters address the major conceptual technical and economic issues in the design of a non nuclear security regime Other chapters explore more specialized issues as they relate to the feasibility of the elimination of nuclear weapons elite perceptions and the decision making process verification nuclear proliferation fissile materials and warheads alliance and regional hegemonies and deterrence **European Security in a Global Context** Thierry Tardy, 2010-06-09 This new edited volume examines contemporary European security from three different standpoints It explores security dynamics first within Europe second the interaction patterns between Europe and other parts

of the world the United States Africa the Middle East China and India and finally the external perceptions of European security The first part of the book analyses the European security landscape The roles of EU NATO and the OSCE are given particular attention as is the impact of their evolution or enlargement on the European security architecture and European security dynamics In this context Russia's repositioning as a major power appears as a shaping factor of contemporary European geopolitics The second part presents European security from an external perspective and considers interactions between Europe and other states or regions Security trends and actors in Europe are examined from an American Chinese and Indian perspective while Europe Africa and Europe Middle East relations are also addressed This book will be of great interest to students of European Security European politics and IR in general
