moderation justice and environmental protection Religion these essays demonstrate plays diverse and sometimes contradictory roles in the new cultural globalization In a global culture the shared values of different religious traditions can provide a collective sense of virtuous conduct in public life But religion can also support the position of enemies of global society those who see in globalization the effort to impose the values and power of one country over the others *India Today* Arnold P. Petchesky, 2003-08 Global Prescriptions is a critical yet optimistic analysis of the role of transnational women's groups in setting the agendas for women's health in international and national settings The book reviews a decade of women's participation in UN conferences transnational networks national advocacy efforts and sexual and reproductive health provision assessing both their strengths and weaknesses It critiques the Cairo Beijing and Copenhagen conference documents and World Bank WHO and health sector reform policies It also offers case studies of national level reform and advocacy efforts and appraises the controversy concerning TRIPS trade and essential AIDS drugs The author takes into account the formidable political and ideological forces confronting global justice movements and also offers a sobering reassessment of transnational women's NGOs themselves and such problems as NGOization fragmentation and donor dependency Petchesky argues that the power of women's transnational coalitions is only as great as their organic connection with grassroots social movements

Empire of Knowledge Vinay Lal, 2002-10-20 During the media frenzy over the Millennium celebrations there was hardly any mention of the fact that for the majority of the world there was no Millennium at all This linear understanding of time is a specifically Western and Christian concept This is just one of many examples that Vinay Lal uses to demonstrate that nearly every idea which we take for granted in the west is part of a politics of ideas Oppression is usually associated with class struggle and other forms of economic monopoly Lal looks beyond this deconstructing the cultural assumptions that have emerged

alongside capitalism to offer a devastating critique of the politics of knowledge at the heart of all powerbroking Other topics examined are the concept of development which has provided a mandate for surreptitious colonisation and the idea of the nation state something we have lived with for no more than two centuries yet is accepted without question Linking this to the emergence of international governance through the United Nations the US and imperial economic bodies such as the IMF and WTO Lal explains how such universalism came to dominate the trajectory of Western thought **Environmental**

Jurisprudence in India C.M. Abraham,2023-12-11 Within the last two decades India has not only enacted specific legislation on environmental protection but has also virtually created a new fundamental right to a clean environment in the Constitution The models and methods adopted in the Indian context appear at first sight similar to those in other common law systems Yet there are many subtle differences which have changed the structure and content of legal development in India Indian environmental jurisprudence brings out the unique characteristics of a new legal order which has gradually been established in India The distinguishing nature of this jurisprudence as this book shows in detail has three interconnected elements First the nature of the new Indian constitutional law regime accords greater importance to public concerns than protecting private interests Secondly this jurisprudential development reflects certain aspects of Indian legal culture through implicit and explicit reliance on autochthonous values and concepts of law encapsulated in the Indian juristic postulate of dharma Thirdly the emerging Indian environmental jurisprudence bears testimony to the activist role of the Indian judiciary which has also had a significant impact in many areas other than environmental law In short the development of environmental jurisprudence in India manifests neo dharmic jurisprudence in postmodern public law It accommodates ideas currently voiced by experts around the world for protecting the environment in forms modified by the Indian legal culture

Debating Human Rights Peter Van Ness,2003-07-13 Human rights debates can provoke strong reactions particularly among people of different cultural backgrounds The debate over Asian values and the use of human rights diplomacy are the most obvious manifestations of divisions between Asia and the West and reflect particular world views and historical legacies In this new book scholars from the United States and several Asian countries debate fundamental issues such as Asian values peaceful evolution and cultural imperialism Provocative and challenging essays analyse the debate between East and West presenting critical perspectives on globalization and human rights diplomacy Debating Human Rights is an original contribution to a vital area of debate It presents a uniquely wide diversity of perspectives on controversial issues and demonstrates how scholars and activists who view the world very differently can nonetheless move these debates forward in a search for common ground
