Rethinking School Finance An Agenda For The 1990s:

Rethinking School Finance Allan Odden, 1992-09-03 Rethinking School Finance provides thoughtful insights challenging solutions and specific guidance on implementing sound fiscal policy for schools in the 1990s The book identifies important topics in education reform paying teachers for productivity school site management incentives choice coordinated social services for children interstate disparities and discusses the finance issues related to them **Selected Papers in School Finance** , **Ten Years of State Education Reform, 1983-1993** Diane Massell, 1994 **Resources in Education** , 1997-07 **Governing New York State** Jeffrey M. Stonecash, 2001-02-08 An indispensable guide to New York State's politics political institutions and public policies *Law and School Reform* Jay Philip Heubert, 1999-01-01 An examination of six of the most controversial school reform initiatives in the US school desegregation school finance reform special education education of immigrant children integration of youth services and enforceable performance mandates

Preparing Adolescents for the Twenty-First Century Ruby Takanishi, David A. Hamburg, 1997-03-28 This book addresses how countries can produce well educated healthy and productive youth *Reallocating Resources* Allan Odden, Sarah Archibald, 2001 Although there has been receptivity to the notion of school level resource reallocation there has been a dearth of information on how resource reallocation can actually be implemented The authors goal is to describe actual resource reallocation practices and the realities of the resource reallocation process using examples from the schools that they have studied as well as schools that others have studied Though it is helpful to know that resource reallocation is feasible it is even more helpful to principals and teachers to understand the nitty gritty details of it which resources get reduced which resources are added what funding sources are tapped what problems are encountered and how the process unfolds in real school settings All types of schools were included in the study schools in urban suburban and rural districts large and small schools and schools in large medium and small school districts The schools studied also reflect a range of student demographics from low to high percentages of minorities and students eligible for free or reduced price lunches Each school adopted a number of new educational strategies each of which required various expensive educational ingredients smaller classes more planning time expanded professional development tutoring for students who were struggling to achieve high standards etc This book tells the story of how schools can finance expensive program needs by describing the vast array of decisions that must be made including how to pay for the new strategies **Paying Teachers for What They Know and Do** Allan Odden, Carolyn Kelley, 2002 Updated Edition of Best Seller Odden and Kelley demonstrate in this edition of *Paying Teachers for What They Know and Do* why they are the primary source for reliable information dealing with teacher compensation Bob Chase President National Education Association Every community developing a strategy to improve schools will want to use this book as a guide It tells you everything you want to know about new teacher compensation strategies that affect all aspects of teaching and learning Yvonne Chan Principal Vaughn Next

Century Learning Center San Fernando CA The second edition of *Paying Teachers for What They Know and Do* advances the ongoing discussion of how to create compensation systems that reward teachers for developing the skills and knowledge needed to deliver standards based instruction As Odden and Kelley write We are still at the beginning of the learning curve in understanding which systems are viable and effective and therefore should monitor the development of new teacher compensation systems carefully Sandra Feldman President American Federation of Teachers The demand for more innovative more competitive and more motivating compensation plans for teachers is growing every day and now Allan Odden and Carolyn Kelley have updated their classic book on teacher compensation to give district and site based administrators all the new information and insight they need to start moving in the right direction The second edition of *Paying Teachers for What They Know and Do* describes various pay and compensation initiatives currently in use across the country including signing bonuses upgrades in teacher pensions higher salaries to those who are willing to work in more challenging schools and other approaches It also explores the different types of compensation plans used in the private sector as well as systems based on the continued acquisition of skills knowledge and experience Then Odden and Kelley take the next step and describe exactly how these plans can be applied successfully in districts of any size Topics include The current status of teacher compensation Three approaches to compensating teachers The relationship between pay and motivation Knowledge based and skills based pay Group based performance awards Gain sharing programs Ways to design and implement alternative teacher compensation This valuable book also provides vital information on how these programs can be funded and how school districts can design effective compensation programs that answer the needs of their existing teacher base An essential tool for administrators at every level who want and need to keep the very best teachers and pay them what they re worth

Fertilizers, Pills & Magnetic Strips Gene V Glass, 2008-03-01 Now available for Kindle Click here We shape our tools and then they shape us With these words Kenneth Boulding captured one of the great truths of the modern world In *Fertilizers Pills and Magnetic Strips* Gene V Glass analyzes how a few key technological inventions changed culture in America and how public education has changed as a result Driving these changes are material self interest and the desire for comfort and security both of which have transformed American culture into a hyper consuming xenophobic society that is systematically degrading public education Glass shows how the central education policy debates at the start of the 21st century vouchers charter schools tax credits high stakes testing bilingual education are actually about two underlying issues how can the costs of public education be cut and how can the education of the White middle class be quasi privatized at public expense Working from the demographic realities of the past thirty years he projects a challenging and disturbing future for public education in America

Welcome to the Jungle Geoffrey T. Holtz, 2011-04-01 A provocative examination of the challenges and realities faced by Generation X In *Welcome to the Jungle* Geoffrey T Holtz delves into the complex world of Generation X exploring the unique circumstances and societal shifts that have shaped this often misunderstood demographic From the population bomb to the warehouse generation Holtz investigates the myriad factors influencing the lives of those born between 1965 and 1980 Through meticulous research and insightful analysis Holtz uncovers the truths behind the stereotypes shedding light on the challenges faced by Gen Xers including shrinking paychecks rising anxiety levels and the struggle to balance work and family life in an increasingly competitive world He explores the impact of media technology and evolving parenting styles on this generation s identity and outlook With a keen eye on the future *Welcome to the Jungle* offers a thought provoking perspective on the long term consequences of these societal changes and the potential fallout from the Movement This book is a must read for anyone seeking to understand the complexities of Generation X and the world they inhabit

Does Government Need to be Involved in Primary and Secondary Education Michael T. Peddle, 2002-05-03 This book is an investigation of some of the

policy issues related to the government's role in the reform of primary and secondary education in the United States Due Diligence Frances S. De Nuit, 1999-04 The role of the school board in public K 12 schools is considered from the agency and the stakeholder perspectives A new theoretical model for the school board members practice of due diligence encompassing content and process issues is developed from empirical literature on agency and stakeholder relationships vision content and process and strategy making process capability A four pronged methodology is used to test the model and resolve research issues on the practice of due diligence 1 Development of an accountability measure of student performance using the Accountability Report from the New Mexico State Department of Education 2 Testing of 10 propositions and 7 hypotheses using case studies of seven districts survey results of 89 district board presidents and superintendents and the measure of student performance 3 Determination of existence of due diligence through case studies of seven school boards 4 Comparison of existing models of due diligence with the literature based model The sample is all New Mexico Public K 12 school districts Case studies focused on monitoring of district educational and financial plans and the coherency between the two plans The surveys were replications of Larwood 1993 1995 et al on vision and Hart Banbury 1994 on strategy making process capability Key findings 1 Uniform accountability measures are available for all districts in the state but case study districts used these selectively with regard to student performance measures 2 Board presidents and superintendents were capable of articulating a vision for the district but vision alignment was not evident 3 The New Mexico board superintendent contract is a behavioral versus performance contract Diagrams of the theoretical and New Mexico models are included along with a revised model of due diligence Recommendations for training school boards include the use of questions provoking examination of board practice leading to improved student achievement School Climate H. Jerome Freiberg, 2005-08-02 Like a strong foundation in a house the climate of a school is the foundation that supports the structures of teaching and learning This book provides a framework for educators to look at school and classroom climates using both informal and formal measures Each chapter focuses on a different aspect of climate and details techniques which may be used by heads or classroom teachers to judge the health of their learning environment The book sets out to enhance understanding of the components of a healthy learning environment and the tools needed to improve that environment It also looks at ways to assess the impact of change activities in improving and sustaining educational excellence The international team of contributors bring perspectives from the school systems in America UK Australia and Holland **Sociology of Education: Theories and methods** Stephen J.
