Rethinking The Romance Of The Rose Text Image Reception:

Rethinking the "Romance of the Rose" Kevin Brownlee, Sylvia Huot, 1992-09-01 The Romance of the Rose has been a controversial text since it was written in the thirteenth century There is evidence for radically different readings as as early as the first half of the fourteenth century The text provided inspiration for both courtly and didactic poets Some read it as a celebration of human love others as an erudite philosophical work still others as a satirical representation of social and sexual follies On one hand it was praised as an edifying treatise on the other condemned as lascivious and misogynistic Kevin Brownlee and Sylvia Huot and the contributors to this volume Pierre Yves Badel Emmanuele Baumgartner John V Fleming Robert Pogue Harrison David F Hult Stephen G Nichols Lee Patterson Daniel Poirion Karl D Uitti Dieuwke E van der Poel and Lori Walters represent all the major areas of current work on the Romance of the Rose both in American and in Europe The volume will be of value to students and scholars of medieval literature intellectual history and art history **Rethinking**

The Romance of the Rose Kevin Brownlee, Sylvia Huot, 1992 Second the methodological heterogeneity of the past three decades of Rose research has been extremely fruitful **Building the Text** David Cowling, 1998 Descriptions of imaginary buildings abound in late medieval and early modern texts in France as in other European countries The vogue for allegorical buildings was however more than a literary fashion by deploying familiar metaphors of the building in new contexts writers gained a powerful tool of persuasion This book explores the complex relationship between metaphor and allegory in the largely neglected but extremely rich corpus of writing that spans the late fifteenth and early sixteenth century in France and concentrates on the output of Jean Lemaire c 1473 after 1515 whose fascination with architecture played a crucial role in defining his self image as a writer By exploiting the semantic richness of the image of the temple Lemaire was able to combine panegyric of his patrons with advertisement of his own talents and to promote an ideology of the self conscious and self confident writer that was to characterize the stance of Ronsard and the Pl iade in the poet architect debate of the later sixteenth century **Routledge Revivals: Medieval France (1995)** William W. Kibler, Grover A. Zinn, 2017-07-05 First published in 1995 Medieval France An Encyclopedia is the first single volume reference work on the history and culture of medieval France It covers the political intellectual literary and musical history of the country from the early fifth to the late fifteenth century The shorter entries offer succinct summaries of the lives of individuals events works cities monuments and other important subjects followed by essential bibliographies Longer essay length articles provide interpretive comments about significant institutions and important periods or events The Encyclopedia is thoroughly cross referenced and includes a generous selection of illustrations maps charts and genealogies It is especially strong in its coverage of economic issues women music religion and literature This comprehensive work of over 2 400 entries will be of key interest to students and scholars as well as general readers **Allegory and the Poetic Self** R. Barton Palmer, Katharina Philipowski, Julia R  themann, 2022-11-18 This book examines the rise of an influential new family of poetry in the late Middle Ages analyzing

why the allegorical first person romance embedded itself in the vernacular literature of Western Europe and remained popular for more than two centuries

Medieval Crossover Barbara Newman, 2013-05-15 The sacred and the secular in medieval literature have too often been perceived as opposites or else relegated to separate but unequal spheres In *Medieval Crossover Reading the Secular against the Sacred* Barbara Newman offers a new approach to the many ways that sacred and secular interact in medieval literature arguing that in contrast to our own cultural situation the sacred was the normative unmarked default category against which the secular always had to define itself and establish its niche Newman refers to this dialectical relationship as crossover which is not a genre in itself but a mode of interaction an openness to the meeting or even merger of sacred and secular in a wide variety of forms Newman sketches a few of the principles that shape their interaction the hermeneutics of both and the principle of double judgment the confluence of pagan material and Christian meaning in Arthurian romance the rule of convergent idealism in hagiographic romance and the double edged sword in parody *Medieval Crossover* explores a wealth of case studies in French English and Latin texts that concentrate on instances of paradox collision and convergence Newman convincingly and with great clarity demonstrates the widespread applicability of the crossover concept as an analytical tool examining some very disparate works These include French and English romances about Lancelot and the Grail the mystical writing of Marguerite Porete placed in the context of lay spirituality lyric traditions and the *Romance of the Rose* multiple examples of parody sexually obscene shockingly anti Semitic or cleverly litigious and Ren of Anjou's two allegorical dream visions Some of these texts are scarcely known to medievalists others are rarely studied together Newman's originality in her choice of these primary works will inspire new questions and set in motion new fields of exploration for medievalists working in a large variety of disciplines including literature religious studies history and cultural studies

Water in Medieval Literature Albrecht Classen, 2017-08-15 Ecocritical thinking has sensitized us more than ever before to the tremendous importance of water for human life as it is richly reflected in the world of literature The great relevance of water also in the Middle Ages might come as a surprise for many readers but the evidence assembled here confirms that also medieval poets were keenly aware of the importance of water to sustain all life to provide understanding of life's secrets to mirror love and to connect the individual with God In eleven chapters major medieval European authors and their works are discussed here taking us from the world of Old Norse to Irish and Latin literature to German French English and Italian romances and other narratives

The Alchemist in Literature Theodore Ziolkowski, 2015 Unlike most other studies of alchemy and literature which focus on alchemical imagery in poetry of specific periods or writers this book traces the figure of the alchemist in Western literature from its first appearance in the Eighth Circle of Dante's *Inferno* down to the present From the beginning alchemy has had two aspects exoteric or operative the transmutation of baser metals into gold and esoteric or speculative the spiritual transformation of the alchemist himself From Dante to Ben Jonson during the centuries when the belief in exoteric alchemy was still strong and exploited by many charlatans to deceive the gullible writers in major works of many literatures treated alchemists with ridicule in an effort to expose their tricks From the Renaissance to the Enlightenment as that belief weakened the figure of the alchemist disappeared even though Protestant poets in England and Germany were still fond of alchemical images But when eighteenth century science almost wholly undermined alchemy the figure of the alchemist began to emerge again in literature now as a humanitarian hero or as a spirit striving for sublimation Following these esoteric romanticizations as scholarly interest in alchemy intensified writers were attracted to the figure of the alchemist and his quest for power The fin de siècle saw a further transformation as poets saw in the alchemist a symbol for the poet per se and others influenced by the prevailing spiritism as a manifestation of the religious spirit During the interwar years as writers sought surrogates for the widespread loss of religious faith esoteric alchemy underwent a pronounced revival and many writers turned to the figure of the alchemist as a spiritual model or in the case of Paracelsus in Germany as a national figurehead This tendency theorized by C G Jung in several major studies inspired after World War II a vast popularization of the figure in novels historical set in the present or juxtaposing past and present in England France Germany Italy Brazil and the United States The inevitable result of this popularization was the trivialization of the figure in advertisements for healing and cooking or in articles about scientists and economists In sum the figure of the alchemist in literature provides a seismograph for major shifts in intellectual and cultural history

Dutch and Flemish Literature as World Literature Theo D'haen, 2019-07-25 The recent return of world literature to the centre of literary studies has entailed an increased attention to non European literatures but in turn has also further marginalized Europe's smaller literatures Dutch and Flemish Literature as World Literature shows how Dutch language literature from its very beginnings in the Middle Ages to the present has not only always taken its cue from the major literary traditions of Europe and beyond but has also actively contributed to and influenced these traditions The contributors to this book focus on key works and authors providing a concise yet highly readable history of Dutch language literature and demonstrating how this literature is anchored in world literature

Spiritual and Material Boundaries in Old French Verse

Jacob Abell, 2023-09-05 The Earthly Paradise was a vibrant symbol at the heart of medieval Christian geographies of the cosmos. As humanity's primal home now lost through the sins of Adam and Eve, the Earthly Paradise figured prominently in Old French tales of lands beyond the mundane world. This study proposes a fresh look at the complex roles played by the Earthly Paradise in three medieval French poems: Marie de France's *The Purgatory of St. Patrick*, Benoît's *Voyage of Saint Brendan the Abbot*, and Guillaume de Lorris's *The Romance of the Rose*. By examining the literary, cultural, and artistic components that informed each poem, this book advances the thesis that the exterior walls of the Earthly Paradise served evolving purposes as contemplative objects that implicitly engaged complex notions of economic solidarity and idealized community. These visions of the Earthly Paradise stand to provide a striking contribution to a historically informed response to the contemporary legacies of colonialism and the international refugee crisis.
