## **Rethinking Youth:**

*Rethinking Youth* Rob White, 2020-08-05 Young people grow up in varied circumstances with different priorities and perspectives While youth does not exist as a single group we need to understand what is happening in young people's lives *Rethinking Youth* challenges the conventional wisdoms surrounding the position and opportunities of young people today and provides a systematic overview of the major perspectives in youth studies The authors demonstrate how the concept of youth involves a tension between the social significance of age which gives young people a common status and the significance of social divisions Drawing upon studies from different societies they examine debates surrounding youth and economy youth development youth subcultures youth transitions and youth marginalisation *Rethinking Youth* offers a provocative critique of mainstream conceptions of youth the programs and strategies designed for at risk young people and policy development in youth affairs It calls for greater sensitivity to the complexities of youth and greater emphasis on democracy and equality in dealing with the problems experienced by young people in a rapidly changing world Johanna Wyn is Director of the Youth Research Centre at the University of Melbourne Rob White lectures in Criminology at the University of Melbourne

*Rethinking Youth Wellbeing* Katie Wright, Julie McLeod, 2014-11-01 This volume offers a critical rethinking of the construct of youth wellbeing stepping back from taken for granted and psychologically inflected understandings Wellbeing has become a catchphrase in educational health and social care policies internationally informing a range of school programs and social interventions and increasingly shaping everyday understandings of young people Drawing on research by established and emerging scholars in Australia Singapore and the UK the book critically examines the myriad effects of dominant discourses of wellbeing on the one hand and the social and cultural dimensions of wellbeing on the other From diverse methodological and theoretical perspectives it explores how notions of wellbeing have been mobilized across time and space in and out of school contexts and the different inflections and effects of wellbeing discourses are having in education transnationally and comparatively The book offers researchers as well as practitioners new perspectives on current approaches to student wellbeing in schools and novel ways of thinking about the wellbeing of young people beyond educational settings

**Rethinking Youth Citizenship After the Age of Entitlement** Lucas Walsh, Rosalyn

Black, 2018-03-22 *Rethinking Youth Citizenship After the Age of Entitlement* provides a primer for exploring hard questions about how young people understand experience and enact their citizenship in uncertain times and about their senses of membership and belonging It examines how familiar modes of exclusion are compounded by punitive youth policies in ways that are concealed by neoliberal discourses It considers the role of key institutions in constructing young people's citizenship and looks at the ways in which some young people are opting out of established enactments of citizenship while creating new ones Critically reflecting on recent scholarly interest in the geographical relational affective and temporal dimensions of young people's experiences of citizenship it also reinvigorates the discussion about citizenship rights and entitlements and

what these might mean for young people The book draws on global research and theories of citizenship but has a particular focus on Australia which provides a unique example of a country that has fared well economically yet is mimicking the austerity measures of the United Kingdom and Europe It concludes with an argument for a rethinking of citizenship which recognises young people's rights as citizens and the ways in which these interact with their lived experience at a time that has been characterised as the end of the age of entitlement Rethinking Youth Johanna Wyn,1997 Rethinking Youth offers a provocative critique of mainstream conceptions of youth the programmes and strategies designed for at risk young people and policy development in youth affairs **Youth, Work and the Post-Fordist Self** David Farrugia,2022-08 Drawing on empirical research this book provides an innovative exploration of youth and work showing how youth identities are connected with the dynamics of labour and value in contemporary capitalism Un-Silencing Youth Trauma Laurie A. Garo,Bettie Ray Butler,Chance W. Lewis,2022-03-01 Urban violence poverty and racial injustice are ongoing sources of traumatic stress that affect the physical emotional and cognitive development and well being of millions of children each year Growing attention is therefore directed toward the study of child trauma and incorporation of trauma sensitive practices within schools Currently such practices focus on social and emotional learning for all children with some in school therapeutic approaches and outside referrals for serious trauma There is inadequate attention to racial injustice as an adverse childhood experience ACE confronting Black males among other youth of color Although there are guidelines for trauma sensitive approaches few are culturally responsive And it is now critical that educators consider the traumatic impacts of a dual pandemic covid 19 and racism on children and their education This timely book thus serves to inform and inspire transformative healing and empowerment among traumatized children and youth in pandemic post pandemic school and after school settings The reader will learn about trauma through actual experiences Researchers and practitioners present approaches to healing that can be adapted to local situations and settings The book consists of four parts Youth Voices on Traumatic Experience Trauma focused Research Culturally Responsive and Trauma Sensitive Practices and Where do we go from Here Suggestions for Next Steps Each part contains a set of themed chapters and closes with a youth authored poetic expression The book is especially designed for those working in urban education However anyone whose work is related to traumatized children and youth will find the book informative especially in a post pandemic educational environment **Youth and Sexualities** M. Rasmussen,E. Rofes,S. Talburt,2016-05-20 A new collection that addresses the problematic pathologization of queer youth this book argues that the majority of educators and youth workers still know little about queer youth's negotiations of identity and community The contributors examine the dangerous effects of heteronormalizing practices and look at how young people negotiate labels and stereotypes in and out of school settings What makes this project unique is that the contributors go beyond the discussions of homophobia young people experience on an everyday basis the look at how youth subvert these experiences into those of pleasure power and confidence In

addition the contributors look at how youth organize communities and negotiate positive identities in different settings

**Missional Youth Ministry** Brian Kirk, Jacob Thorne, 2011-06-07 The mainline church in the past few decades has witnessed a ghettoization of youth within the church segregating them off to a particular room perhaps in the basement where they engage in ministry in isolation from the rest of the congregation They are assigned a youth minister or youth director often the staff person with the least experience freeing up the real ministers to serve the adults in the church They seldom serve on church boards or governing bodies in anything other than a cursory manner Their leadership in worship is limited to one special Sunday a year their activities seen more as programming than ministry and their place often described as the church of the future rather than the body of Christ in the here and now For decades youth ministry in mainline churches has been program driven assuming that the primary function of youth ministry was to use activities and events to attract young people to church and keep them occupied until they were ready to be adult members in the faith In recent years it has become increasingly obvious that this paradigm has failed to develop youth as life long participants in the Christian church and in the Christian faith The result of such a model of ministry is that youth come to see church only as those segregated activities reserved for teenagers most of which bear little resemblance to the practices of the rest of church life Consequently when youth graduate from high school and youth group they perceive that their most meaningful church experiences are ended Mainline congregations are now seeing the evidence of the real lack of impact of their youth ministries as the population of young adults in churches continues to shrink even those young adults who were once regular participants in church youth group programs In short the program driven model of youth ministry has failed to help youth find their place within the mission of the Church Rethinking Youth Ministry critiques this older paradigm and invites the reader into a dialogue to help rethink many of the deepest assumptions of youth ministry in the mainline church We challenge the consumerist goal of judging a youth ministry's success by the number of its participants We push back against the notion that a youth ministry is the sum total of the events on the calendar We rethink the place of volunteers and parents calling for a greater role of adults as spiritual mentors in the lives of church youth We send out a call for greater understanding of modern methods of teaching and the impact of brain research on the intellectual and spiritual development of youth and we re imagine a new role for mission within youth ministry which calls youth to see mission not as isolated activities but as the very heart of their faith journey Rethinking Youth Ministry serves as a theological companion and practical guide for all those working in the trenches of youth ministry who are seeking to offer students a deeper more consequential and active life long relationship with God through the ministry of Jesus Christ *Youth Digital Health and Online Platforms* Martyna Gliniecka, 2024-12-27 Youth Digital Health and Online Platforms focuses on young people's use of the digital platform Reddit for health Drawing upon dialogism theory the book explores how young people produce a youth led discourse of youth digital health different from the adult led framing represented in youth digital health research policy

and service delivery Peer led discussions online remain one of the controversial forms of youth digital health associated with negative peer influence or casual teenage talk This book argues that online peer led dialogues support young people's agency in health and that young people can benefit from dealing with health issues with peers The work is based on the digital ethnography of teenagers' subreddits on Reddit and utilises a theoretical framework of dialogism a linguistic based theory originated by an early 20th century Russian philosopher Mikhail Bakhtin The book introduces the concept of dialogical youth led youth digital health discourse formed in the peer led space of Reddit This youth led discourse celebrates equality and diversity amongst people meanings and opinions It is constructed around three relational elements socio material affordances creative practices and a plurality of youth voices Reddit's pseudonymous anti authoritarian and egalitarian nature supports the emergence of this youth led discourse The book can interest scholars and lecturers in childhood and youth studies Internet studies and youth health studies Professionals such as policymakers service designers deliverers online safety educators and global youth and health agencies can use evidence based insights in their work with young people

*Youth, Class and Everyday Struggles* Steven Threadgold, 2017-09-13 The concept of everyday struggles can enliven our understanding of the lives of young people and how social class is made and remade This book invokes a Bourdieusian spirit to think about the ways young people are pushed and pulled by the normative demands directed at them from an early age whilst they reflexively understand that allegedly available incentives for making the right choices and working hard financial and familial security social status and job satisfaction are a declining prospect In *Youth Class and Everyday Struggles* the figures of those classed as hipsters and bogans are used to analyse how representation works to form a symbolic and moral economy that produces and polices fuzzy class boundaries Further to this the practices of young people around DIY cultures are analysed to illustrate struggles to create a satisfying and meaningful existence while negotiating between study work and creative passions By thinking through different modalities of struggles which revolve around meaning making and identity creativity and authenticity Threadgold brings Bourdieu's sociological practice together with theories of affect emotion morals and values to broaden our understanding of how young people make choices adapt strategise succeed fail and make do *Youth Class and Everyday Struggles* will appeal to undergraduate and postgraduate students as well as postdoctoral researchers of fields including Youth Studies Class and Inequality Work and Careers Subcultures Media and Creative Industries Social Theory and Bourdieusian Theory

*Keywords in Youth Studies* Nancy Lesko, Susan Talburt, 2012-03-22 As a unique blend of reference guide conceptual dictionary and critical assessment *Keywords in Youth Studies* presents and historicizes the state of the field It offers theoretically informed analysis of key concepts and points to possibilities for youth studies reconstruction

*Responding to Youth Violence through Youth Work* Mike Seal, Pete Harris, 2016-09-14 This book draws on the findings of a two year European research project to offer answers to the problem of how to respond to violence involving young people that continues to challenge youth workers and policy

makers Responding to violence through youth work combines elements of critical theory psychosocial criminology and applied existential philosophy to present a new model for responding meaningfully and effectively to these issues demonstrated through a series of case studies and insider accounts generated through peer research *The Sociology of Central Asian Youth* Mohd.Aslam Bhat,2018-04-17 At the onset of the twenty first century youth studies emerged as a distinct field of inquisition Discourses and debates in the field have since become more sophisticated and the spectrum of analysis has likewise broadened However it is striking to note how little reference is made to young people of peripheral regions like Central Asia The Sociology of Central Asian Youth seeks to critically broaden the discussion on youth transitions discourse by moving beyond the geographical terrain of North America Britain Australia and Western Europe The work establishes an in depth understanding of young Central Asians with a special focus on those in Uzbekistan This is accomplished through the explanatory powers of the various forms of sociological theory and specifically by pursuing an ambitious aim to introduce the classic sociological debate about the relationship between structure and agency in social behaviour into the study of modern Central Asia Presenting the experiences of youth against the backdrop of contemporary socio economic and cultural changes in the post Soviet space this empirical monograph will appeal to postgraduate students and post doctoral researchers interested in fields such as Youth Studies Central Asian Studies Social Anthropology Cultural Studies and Sociology

**Children, Youth and Development** Nicola Ansell,2016-08-08 The new updated edition of Children Youth and Development explores the varied ways in which global processes in the form of development policies economic and cultural globalisation and international agreements interact with more locally specific practices to shape the lives of young people living in the poorer regions of the world It examines these processes and the effects they have on young people s lives in relation to developing theoretical approaches to the study of children and youth This landmark title brings together the stock of knowledge and approaches to understanding young people s lives in the context of development and globalization in the majority world for the first time It introduces different theoretical approaches to the study of young people and explores the ways in which these along with predominantly Western conceptions of childhood and youth have influenced how majority world children have been viewed and treated by international agencies Contexts of globalisation and growing international inequality are explored alongside more immediate contexts such as family and peer relationships Chapters are devoted to groups of children deemed to be in need of protection and to debates concerning children s rights and their participation in development projects Young people s health and education are considered as is their involvement in work of various kinds and the impacts of environmental change and hazards including climate change The book introduces material and concepts to readers in a very accessible way and within each chapter employs features such as boxed case studies summaries of key ideas discussion questions and guides to further resources This edition has been updated to take account of significant changes in the contexts in which poor children grow up notably the financial crisis and changing development policy

environment as well as recent theoretical developments It is aimed at students on higher level undergraduate and postgraduate courses as well as researchers who are unfamiliar with this area of research and practitioners in organisations working to ameliorate the lives of children in majority world countries      **Lost Youth in the Global City** Jo-Anne Dillabough, Jacqueline Kennelly, 2010-12-22 Exploration of the ways in which these groups of young people marked by economic disadvantage and ethnic and religious diversity have sought to navigate a new urban terrain and in so doing have come to see themselves in new ways Jacket      Youth, Risk, Routine Tea Torbenfeldt Bengtsson, Signe Ravn, 2018-10-03 Young people's lives continue to be the topic of public scrutiny and recurring moral panics Smoking cannabis speeding and engaging in street level fights are depicted as activities based on poor choices or simple hedonism putting young people's futures at risk Based on comprehensive qualitative research with young people in Denmark this book illustrates how such individualised accounts miss out on the inherently social character of risk taking activities Youth Risk Routine introduces a new approach to risk taking activities as being an integral and routinised part of young people's everyday life By applying social theories of practice this insightful volume presents a framework for understanding the routinised dimensions of young people's engagement in risk taking and how this is embedded in intertwined with and held in place by other everyday practices Indeed through extensive empirical analyses of the rich material at hand the authors explore how routinisation coordination embodiment and social context are central aspects for understanding how why and when young people engage in risk taking practices Youth Risk Routine will be of interest to students and scholars in sociology criminology and social work as well as wider social science audiences particularly those interested in exploring the empirical potential of social theories of practice      **Intersectionality and Difference in Childhood and Youth** Nadia von Benzon, Catherine Wilkinson, 2019-05-08 This book explores the alternative experiences of children and young people whose everyday lives contradict ideas and ideals of normalcy from the local to the global context Presenting empirical research and conceptual interventions from a variety of international contexts this book seeks to contribute to understandings of alterity agency and everyday precarity The young lives foregrounded in this volume include the experiences of transnational families children in ethnic minority communities street living young people disabled children child soldiers victims of abuse politically active young people working children and those engaging with alternative education By exploring other ways of being doing and thinking about childhood this book addresses questions around what it is to be a child and what it is to be marginalised in society The narratives explore the everydayness and the mundanity of difference as they are experienced through social structures and relationships simultaneously recognizing and critiquing notions of agency and power This book including a discussion resource for teaching or peer reading groups will appeal to academics students and researchers across subject disciplines including Human Geography Children's Geography Social Care and Childhood Studies      *Handbook of Children and Youth Studies* Johanna Wyn, Helen Cahill, Hernán Cuervo, 2024-08-20 This second edition of the handbook gives a new

scientific perspective to youth and childhood studies as multi scientific and interdisciplinary subjects which as such have not yet found their own framing in a particular discipline It provides theoretical and methodological key debates and issues that develop and add an understanding of childhood and youth research discipline from a broader perspective The Handbook on Children and Youth Studies draws on current thinking but also challenges theoretical and conceptual orthodoxies in the field drawing on interdisciplinary thinking and critical perspectives It focuses on childhood and youth to address the emerging consensus that the boundaries between childhood youth and adulthood are blurred The view that defining youth and childhood largely in terms of problem topics is out dated Instead the handbook focuses on 16 themes that are open to international perspectives and to different conceptual approaches Each theme is edited by a pair of field editors thereby capturing a plurality of views The 16 themes as a starting point are globally timely and they need scientific debates on the boundaries between childhoods youth and adulthood This handbook will meet the needs of childhood and youth researchers and the academics in the field It recognizes the changing social context of the lives of children and young people while developing theoretical frameworks and discussing about the core substantive issues of Children and Youth Studies

Youth Marginality in Britain Shane Blackman, Ruth Rogers, 2017-06-28 Tabloid headlines such as Anti social Feral Youth Vile Products of Welfare in the UK and One in Four Adolescents is a Criminal have in recent years obscured understanding of what social justice means for young people and how they experience it Youth marginality in Britain offers a new perspective by promoting young people s voices and understanding the agency behind their actions It explores different forms of social marginalisation within media culture and society focusing on how young people experience social discrimination at a personal and collective level This collection from a wide range of expert contributors showcases contemporary research on multiple youth deprivation of personal isolation social hardship gender and ethnic discrimination and social stigma With a foreword from Robert MacDonald it explores the intersection of race gender class asylum seeker status and care leavers in Britain placing them in the broader context of austerity poverty and inequality to highlight both change and continuity within young people s social and cultural identities This timely contribution to debates concerning youth austerity in Britain is suitable for students across youth studies sociology education criminology youth work and social policy
