Bell, 1993-07-02 Selected by Choice as an Outstanding Academic Book for 1995 Moving beyond the traditional feminist ethics of care Linda A Bell places an existentialist conception of liberation at the heart of ethics and argues that only an ethics of freedom sufficiently allows for feminist critique and opposition to a status quo imbued with violence She offers a critique of Aristotelian utilitarian and Kantian ethics analyzing each approach from feminist perspectives and showing how each fails women and others who resist oppression **The Ethics of the**

Story David Craig, 2006-10-27 The best journalists are masters at their craft With a comma and a colon a vivid verb and a colorful adjective they not only convey important information but also create a sense of place and evoke powerful emotions A compelling story can shape_for good or ill_the way a reader understands people events and issues The Ethics of the Story examines the ethical implications of narrative techniques commonly used in journalism not just literary journalism but also news and feature writing The book draws on interviews with 60 talented journalists including Pulitzer Prize winners to offer practical advice about ethical choices in writing and editing Much has been written about journalism ethics but the discussion has often focused on spectacularly bad decisions_such as Jayson BlairOs and Jack KelleyOs use of fraudulent narrative_rather than the ethical dimension of day to day choices about the building blocks of journalistic storytelling The Ethics of the Story fills a gap in current work on ethics writing and editing It will enlighten any serious wordsmith with a story to tell **A Stakeholder Approach to Corporate Social Responsibility** Philip Kotler, François Maon, 2016-03-16

Corporate social responsibility has grown into a global phenomenon that encompasses businesses consumers governments and civil society and many organizations have adopted its discourse Yet corporate social responsibility remains an uncertain and poorly defined ambition with few absolutes First the issues that organizations must address can easily be interpreted to include virtually everyone and everything Second with their unique often particular characteristics different stakeholder groups tend to focus only on specific issues that they believe are the most appropriate and relevant in organizations corporate social responsibility programs Thus beliefs about what constitutes a socially responsible and sustainable organization depend on the perspective of the stakeholder Third in any organization the beliefs of organizational members about their organization s social responsibilities vary according to their function and department as well as their own managerial fields of knowledge A Stakeholder Approach to Corporate Social Responsibility provides a comprehensive collection of cutting edge theories and research that can lead to a more multifaceted understanding of corporate social

In Search of Just Families Chhanda Gupta, 2018-06-06 This book explores two contemporary combative views regarding the search for just families These views arise from the conundrum of the family being seen as a supportive nurturing haven versus a grievously unjust harmful institution that violates the rights and freedoms of any individual family member Triggered by anti family movements which have been inspired by the ideas of some theorists and writers the book addresses the question Is family destined to wither away It challenges the radical idea that the solution to the problem of unjust families is their complete replacement by purportedly just anti familial alternatives Chhanda Gupta advances a distinct reformist and reconciliatory view that the expulsion of either side of the family anti family binary is not the answer She seeks to syncretize the seemingly irreconcilable ideas propagated through that philosophical binary Furthermore she urges that the search for just families must find its answer in clarifying how the term just applies to the characters behaviors and attitudes of people who comprise actual families The search is not for a perfectly just society or polity or even for a perfectly just family Instead it is a search for ways to redress the remediable injustices that occur in families in order to benefit and uplift individuals and families and the societies in which they live
