Rethinking Multiculturalism:

Rethinking Multiculturalism Bhikhu C. Parekh, 2002 Bhikhu Parekh argues for a pluralist perspective on cultural diversity. Writing from both within the liberal tradition and outside of it as a critic, he challenges what he calls the moral monism of much of traditional moral philosophy, including contemporary liberalism, its tendency to assert that only one way of life or set of values is worthwhile and to dismiss the rest as misguided or false. He defends his pluralist perspective both at the level of theory and in subtle nuanced analyses of recent controversies. Thus he offers careful and clear accounts of why cultural differences should be respected and publicly affirmed, why the separation of church and state cannot be used to justify the separation of religion and politics, and why the initial critique of Salman Rushdie before a Fatwa threatened his life deserved more serious attention than it received. Rejecting naturalism, which posits that humans have a relatively fixed nature and that culture is an incidental and culturalism, which posits that they are socially and culturally constructed with only a minimal set of features in common, he argues for a dialogic interplay between human commonalities and cultural differences. This will allow Parekh argues genuinely balanced and thoughtful compromises on even the most controversial cultural issues in the new multicultural world in which we live.

Rethinking Multiculturalism Bhikhu Parekh, 2005-10-31 This important and much acclaimed book rapidly became a classic on first publication. In it Bhikhu Parekh shows that the Western tradition of political philosophy has very limited theoretical resources to cope with cultural diversity. He then discusses how it can be revised and what new conceptual tools are needed. The core of the book addresses the important theoretical questions raised by contemporary multicultural society, especially the nature and limits of intercultural equality and fairness, national identity, citizenship, and cross cultural political discourse. The new second edition includes a substantial additional chapter addressing key issues.

Spencer, 2012-04-28 Johann Gottfried Herder was a philosopher and important intellectual presence in eighteenth century Germany Herder's Political Thought examines the work of this significant figure in the context of both historical and contemporary developments in political philosophy Vicki A Spencer reveals Herder as one of the first Western philosophers to grapple seriously with cultural diversity without abandoning a

The Politics of Perception and the Aesthetics of Social Change Jason Miller,2021-08-31 In both politics and art in recent decades there has been a dramatic shift in emphasis on representation of identity Liberal ideals of universality and individuality have given way to a concern with the visibility and recognition of underrepresented groups Modernist and postmodernist celebrations of disruption and subversion have been challenged by the view that representation is integral to social change Despite this convergence neither political nor aesthetic theory has given much attention to the increasingly central role of art in debates and struggles over cultural identity in the public sphere Connecting Hegelian aesthetics with contemporary cultural politics Jason Miller argues that both the aesthetic and political value of art are found in the reflexive self awareness that artistic representation enables The significance of art in modern life is that it shows us both the particular element in humanity as well as the human element in particularity Just as Hegel asks us to acknowledge how different historical and cultural contexts produce radically different experiences of art identity based art calls on its audiences to situate themselves in relation to perspectives and experiences potentially quite remote or even inaccessible from their own Miller offers a timely response to questions such as How does contemporary art s politics of perception contest liberal notions of deliberative politics How does the cultural identity of the artist relate to the representations of cultural identity in their work How do we understand and evaluate identity based art aesthetically

Discussing a wide range of works of art and popular culture from Antigone to Do the Right Thing and The Wire this book develops a new conceptual framework for understanding the representation of cultural identity that affirms art s capacity to effect social change
