International Perspectives and Strategies for Managing an Aging Workforce Ince, Fatma, 2022-03-11 Older employees are often seen as an obstacle and not as an opportunity for companies especially regarding the transfer of knowledge and experience Effective development and utilization of older professional and managerial employees is an important issue as most organizations are not prepared to tailor their training methods to the needs and preferences of these employees due to negative stereotypes Managing a rapidly aging workforce and sustaining economic dynamism calls for systematic research to prevent age discrimination due to an incomplete knowledge of older workers and politically challenging policy choices that

require strong political commitments robust management leadership and social consensus International Perspectives and Strategies for Managing an Aging Workforce examines the differences in stereotypes of older employees compared to younger employees in companies analyzes the impact of the aging workforce on retention productivity and well being and investigates organizational systems processes and practices for managing older workers Covering a range of topics such as retention and retirement this reference work is ideal for researchers academicians practitioners business owners managers human resource workers instructors and students

Public Finance: An International Perspective (Revised Edition)

Joshua E Greene,2020-11-27 Drawing from current examples from a variety of countries Public Finance An International Perspective addresses the main issues in contemporary public finance including fiscal sustainability state enterprises and a variety of subsidies There are relatively few textbooks on public finance and many of them focus on the experience and issues facing the United States This book sets out to address the critical issues from other countries particularly those from the developing world or emerging market countries who have received less attention in other texts Written in a highly accessible manner this book is a useful reference for students and practitioners alike

A Generation of Change Jacob S. Siegel,1993-02-18 A Generation of Change is an exceptional study of the nation s elderly a population that has undergone profound changes in the years since World War II As modern medicine extends the average life span and the baby boom generation begins to approach middle age the number of older Americans is expected to more than double in the next century Currently 75 percent of U S health care expenditures go toward the elderly But as national trends toward early retirement and low birthrate continue an aging American population could face crises in meeting their financial and physical needs According to Jacob S Siegel in A Generation of Change astute public planning must be informed by an understanding of the demographic social and economic characteristics of the older population as it is today and as it will be in the coming years Siegel employs census and survey data from 1950 through the mid 1980s to describe a population constantly shifting in its ethnic and gender composition geographic distribution marital and living arrangements health employment and economic status Surprisingly there is tremendous disparity in the quality of life among the elderly Although their average poverty rate is below that of the general

population there are dramatic levels of poverty among older women who are far more likely than men to live alone or in institutions. As the elderly progress from the young old to the aged old, those over 85, sharp differences emerge as income and employment decrease and degrees of chronic illness increase. In addition, residential location influences the quality of health care and public assistance available to the elderly, an effect that may account for the marked migration of older people to Florida and Arizona. Siegel analyzes the full range of characteristics for this heterogeneous population and through comparisons with other age groups as well as with the elderly of the previous decades, portrays the crucial influence of social and economic conditions over the life course on the quality of later life. With our elderly population growing more numerous and long-lived, accurate information about them is increasingly essential. A Generation of Change will serve as a valuable resource for policymakers seeking more effective solutions in critical areas such as housing, long-term health care, and the funding of Social Security and retirement programs. A Volume in the Russell Sage Foundation Census Series Global Ageing in the Twenty-First Century Zachary Zimmer, 2016-04-22 Population ageing, a growth in the proportion of a population that is in older age, is now occurring in every region and nearly every country of the world. Indeed, the growth of older populations is among the important global phenomena of the twenty-first century. It poses both opportunities and challenges for societies and policy makers, but these are far from uniform worldwide. Dynamic factors are at work impacting on how ageing will influence people, places, and policies, and there are large variations in the rate and timing of population ageing across countries owing to differing social, health, and economic circumstances and a variety of policy options from which to choose. Given this variation in the context of global ageing as a backdrop, this edited book focuses on three overarching themes that are among the most critical to understand if societies are to age successfully in the twenty-first century and beyond: Healthy ageing and health care, the ageing workforce, retirement, and the provision of pensions, shifting intergenerational relations. These three themes are cross-cut by other dimensions that are intertwined with the dynamic processes of ageing, such as immigration, emigration, contrasting policy regimes, and global and national economic forces. This ground-breaking book will be of interest to all scholars, students, and policy makers working within this area of study. EISS Yearbook 1980-1981 Part II / Annuaire EISS 1980-1981 Partie II Eiss, 2013-06-29 The Colloquium of our European Institute for Social Security to prepare the Conference in the Hague on the social security and the economic crisis was held from the 17th to the 19th of September in Toledo. Part II of the Yearbook 1980-1981 contains the reports presented in Toledo. The reports are focussed on the over-65 economic situation. Richard Draper, the specific problems of Pensions, Bernd Schulte, the cost of medical care, Leo Crijns, unemployment insurance, Joachim Volz, the social minimum, Andre Laurent, and two special reports on the economic crisis and social security. Finally, it contains my own synthesis report. At the participants' had the opinion that the colloquium created a fruitful basis for a further in-depth discussion in the Hague in 1982. The Institute once again wants to express its sincere gratitude to Antonio Chozas and his colleagues for the excellent and adequate way in which they organised

the colloque **Pension Reform in Europe** Camila Arza, Martin Kohli, 2007-08-07 This new book provides a cross country comparative analysis of the key issues shaping the latest pension reforms in Europe political games welfare models and pathways population reactions and observed and expected outcomes Pension reform has been a top policy priority for European governments in the last decade Ageing populations changing labour market patterns and the process of European integration are the irresistible forces pushing for reform throughout the region The Political Economy of Pension Reform evaluates the political forces that make pension reform viable in different national and institutional contexts and the nature of political bargains actors and cleavages surrounding policy change The volume also examines the nature and outcomes of pension reform experiences in Europe searching for a solution to the financial challenge posed by growing pension budgets By addressing the nature of change the pathways of reform and the outcomes of the new pension mix in the region the authors conclude with an analysis of people's perceptions and attitudes towards pension policy and their acceptance or otherwise of different reform options This book will be of interest to students and scholars of international political economy European politics and social policy **Social Geography** Michael Pacione, 2013-04-15 The examination of social questions is a relatively new development in geography but social geography has now blossomed into a fully fledged sub discipline which has in fact influenced significantly all other areas of geography This book first published in 1987 presents an overview of recent developments in all the major branches of social geography As such it provides a valuable introduction to the subject a review of the latest state of the art and a pointer to future research directions **Vital & Health Statistics**, 1984

Products of AoA Discretionary Grants in Long Term Care, 1976-1983 Russell Mills, 1985 **Aging and Work** Masaharu Kumashiro, 2002-11-14 Improvements in health care and quality of life in recent years have led to a marked aging of the world's population especially in well developed regions In the near future this problem will spread to developing countries The growing need to promote the health and function of aging workers presents new challenges as well as new opportunities **Labour Markets in an Ageing Europe** Paul Johnson, Klaus F. Zimmermann, 1993-05-13 The population of the European Community will fall by 2% by the year 2025 Between 1960 and 1990 it grew by 17% This contrast reflects the dramatic growth of the population of pensioners in the total population and also the rapid ageing of the Community's working population In this volume based on a CEPR conference held in Munich in April 1992 leading economists in the field assess demographic and labour market developments in Western and Eastern Europe They compare them with developments in the USA and Japan and assess the effects of ageing on European productivity earnings and human capital formation Policies to improve the quantity and quality of the labour force are considered including incentives for female labour participation selective immigration policies pronatalist family policies and improved human capital formation *International Perspectives on Elder Abuse* Amanda Phelan, 2013-03-12 Elder abuse has been increasingly recognised over the past ten years in many countries and progress has been made in both understanding and addressing the issue This volume provides a

much needed international overview of the topic Opening with an examination of what elder abuse is Amanda Phelan sets it in a theoretical context and looks at assessment and approaches to the issue in residential and community care environments The book then presents a range of country studies which provide an overview of the context of elder abuse in the country and a discussion of related policy legislation research and practice Countries covered include Ireland United Kingdom Spain China Australia Kenya Israel Canada and the United States whilst a regional chapter looks at South America A concluding chapter draws together cross cultural comparisons and provides some guidance as to best practice The only comprehensive book in this area International Perspectives on Elder Abuse is an invaluable reference for practitioners academics and researchers from a range of disciplines including nursing social work sociology public health and social policy

Age Discrimination John Macnicol, 2006-01-12 Age discrimination is a highly topical issue in all industrialised societies against a background of concerns about shortening working lives and ageing populations in the future Based upon detailed research and adopting an interdisciplinary approach this unique study traces the history of the age discrimination debate in Britain and the USA since the 1930s It critically analyses the concepts of ageism in social relations and age discrimination in employment Case studies on generational equity and health care rationing by age are followed by an analysis of the British government's initiatives against age discrimination in employment The book then traces the history of the debate on health status and old age addressing the question of whether working capacity has improved sufficiently to justify calls to delay retirement and extend working lives It concludes with a detailed examination of the origins and subsequent working of the USA's 1967 Age Discrimination in Employment Act
