Russia In Transition 1905-1914 Evolution Or Revolution:

Russia in the Age of Modernisation and Revolution 1881 - 1917 H. Rogger, 2014-07-30 Hans Rogger's study of Russia under the last two Tsars takes as its starting point what the Russians themselves saw as the central issue confronting their nation: the relationship between state and society and its effects on politics, economics and class in these critical years.

Russia in Transition, 1905-1914 Robert Hatch McNeal, 1970 **The Origins of the Russian Revolution, 1861-1917** Alan Wood, 2004-06-01 Alan Wood provides a concise introduction to the Russian Revolution and its origins dating back to the emancipation of the Russian peasant serfs in 1861. The third edition of this successful pamphlet brings the historiography up to date to include the multitude of research in the last ten years that followed the collapse of the Soviet Union and the opening up of the archives.

The Course of Russian History, 5th Edition Melvin C. Wren, Taylor Stults, 2009-01-08 Now in its fifth edition, this definitive history of the Russian land and people builds on its success as a fascinating survey of two thousand years of struggle to harness vast resources and talents into a powerful and cohesive nation. From its beginning as a savage and exotic land, Russia underwent a complex evolution of political, social and religious forces: the barbarism of its internal conflicts in seeming contradiction with its goals to advance in the realms of technology, art, education and high culture. From the conflicts of the fantastically wealthy ruling class to the poor and oppressed masses emerged the Communist party and the enigmatic figures whose charismatic manipulation of political power reflected the myriad rulers before them. Finally, as the modern world watched this great entity collapse in a devastatingly brief time, millennia of precarious conflict proving too much for the tenuous coalescence of twentieth-century politics. Written in an engaging and accessible style, this text presents students with a comprehensive look at the momentous events and legendary figures which helped shape Russia's turbulent history.

The Origins of the Russian Revolution Alan Wood, 2002-01-04 Looks at the roots of what has been described as the most important political event in the history of the twentieth century: from the emancipation of the serfs in 1861 to the Bolshevik uprising in 1917.

Themes in Modern European History 1890-1945 Paul Hayes, 2002-09-11 Themes in European History treats in thematic fashion a period of great change and upheaval in Europe. A collection of twelve essays by five leading historians, this textbook highlights important developments and changes that occurred, sets these changes in their social and cultural context as well as in the political framework, concentrates on the most important powers in Europe, and completes each essay with suggestions for further reading to guide your students into continuing their research. Whereas other textbooks of this period focus on the political events, Themes in Modern European History uses a comparative history of institutions and societies with emphasis on the cultural changes as well. Students are provided with the whole picture of events and are made aware of the wider consequences of the changes taking place, enabling them to understand all aspects of the dramatic transformation of Europe from 1890-1945.

Debating Revolutions Nikki R. Keddie, 1995-09 Throughout history and especially in this century revolutions have played a central role in human history Yet as both the Iranian revolution of 1978 79 and the revolutions of 1989 in Eastern Europe made clear revolutions are rarely predictable nor attributable to a single cause Debating Revolutions brings together some of our best social and political thinkers to address two central questions of revolution Can they be predicted And what are their causes In the debating style of Contention the award winning journal from which the essays are culled the contributors among them Charles Tilly Jack A Goldstone Edward Berenson Said Amir Arjomand and Daniel Chirot focus on the Iranian Eastern European and French revolutions and on the theoretical and comparative aspects of revolutionary study Unlike most anthologies Debating Revolutions has a format that enables scholars to engage one another in discussion thus resolving many disputes and addressing dilemmas rather than merely outlining differences

The Economic Development of Russia 1905-1914 Margaret Miller, 2017-02-17 This book originally published in 1926 but updated in 1967 analyses Russia s economy in the

decade preceding the outbreak of the First World War It covers trade finance transport and industry and each chapter is supported by statistics drawn from Russian and international sources The introduction to the second edition links pre 1917 development with late twentieth century economic change and in so doing serves as a guide to assessing Soviet Russia s internal economic problems against the country s historical background

Revolution Rosemary H. T. O'Kane,2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more

The Siberian Curse Fiona Hill,Clifford G. Gaddy,2003-11-04 Can Russia ever become a normal free market democratic society Why have so many reforms failed since the Soviet Union s collapse In this highly original work Fiona Hill and Clifford Gaddy argue that Russia s geography history and monumental mistakes perpetrated by Soviet planners have locked it into a dead end path to economic ruin Shattering a number of myths that have long persisted in the West and in Russia The Siberian Curse explains why Russia s greatest assets its gigantic size and Siberia s natural resources are now the source of one its greatest weaknesses For seventy years driven by ideological zeal and the imperative to colonize and industrialize its vast frontiers communist planners forced people to live in Siberia They did this in true totalitarian fashion by using the GULAG prison system and slave labor to build huge factories and million person cities to support them Today tens of millions of people and thousands of large scale industrial enterprises languish in the cold and distant places communist planners put them not where market forces or free choice would have placed them Russian leaders still believe that an industrialized Siberia is the key to Russia s prosperity As a result the country is burdened by the ever increasing costs of subsidizing economic activity in some of the most forbidding places on the planet Russia pays a steep price for continuing this folly it wastes the very resources it needs to recover from the ravages of communism Hill and Gaddy contend that Russia s future prosperity requires that it finally throw off the shackles of its Soviet past by shrinking Siberia s cities Only by facilitating the relocation of population to western Russia closer to Europe and its markets can Russia achieve sustainable economic growth Unfortunately for Russia there is no historical precedent for shrinking cities on the scale that will be required Downsizing Siberia will be a costly and wrenching process

The Russian Revolution and Civil War 1917-1921 Jonathan Smele,2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the

10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state [Catalog of Copyright Entries.
