Russia in the Shadows is a book by H G Wells published early in 1921 which includes a series of articles previously printed in *The Sunday Express* in connection with Wells's second visit to Russia after a previous trip in January 1914 to St Petersburg and Moscow in September and October 1920 Wells was at the height of his fame having recently completed *The Outline of History* and was paid 1000 for the articles by the *Sunday Express* During his visit to Russia he visited his old friend Maxim Gorky whom he had first met in 1906 on a trip to the United States and who arranged Wells's meeting with Lenin Wells portrayed Russia as recovering from a total social collapse the completest that has ever happened to any modern social organisation He minimized the role of the Bolsheviks in the fall of the Russian state and presented this explanation of their success While all the rest of Russia was either apathetic like the peasantry or garrulously at sixes and sevens or given over to violence or fear the Communists were prepared to act In a chapter devoted to an interview with Lenin at the Kremlin Wells describes the leader and founder of Russian communism Wells portrays Lenin as a pragmatic leader who has recently stripped off the last pretence that the Russian revolution is anything more than the inauguration of an age of limitless experiment While Wells in *Russia in the Shadows* as always rejects Marxism on principle *Das Kapital* impresses him as a monument of pretentious pedantry he argues that we should understand and respect the professions and principles of the Bolsheviks in order to make a helpful intervention in Russia lest its social collapse drag down Western civilization with it

Russia in the Shadows H G Wells, 2021-03-29 In January 1914 I visited Petersburg and Moscow for a couple of weeks in September 1920 I was asked to repeat this visit by Mr Kameney of the Russian Trade Delegation in London I snatched at this suggestion and went to Russia at the end of September with my son who speaks a little Russian We spent a fortnight and a day in Russia passing most of our time in Petersburg where we went about freely by ourselves and were shown nearly everything we asked to see

We visited Moscow and I had a long conversation with Mr Lenin which I shall relate In Petersburg I did not stay at the Hotel International to which foreign visitors are usually sent but with my old friend Maxim Gorky The guide and interpreter assigned to assist us was a lady I had met in Russia in 1914 the niece of a former Russian Ambassador to London She was educated at Newnham she has been imprisoned five times by the Bolshevik Government she is not allowed to leave Petersburg because of an attempt to cross the frontier to her children in Esthonia and she was therefore the last person likely to lend herself to any attempt to hoodwink me I mention this because on every hand at home and in Russia I had been told that the most elaborate camouflage of realities would go on and that I should be kept in blinkers throughout my visit As a matter of fact the harsh and terrible realities of the situation in Russia cannot be camouflaged In the case of special delegations perhaps a certain distracting tumult of receptions bands and speeches may be possible and may be attempted But it is hardly possible to dress up two large cities for the benefit of two stray visitors wandering observantly often in different directions Naturally when one demands to see a school or a prison one is not shown the worst Any country would in the circumstances show the best it had and Soviet Russia is no exception One can allow for that **Russia in the Shadows** Herbert George Wells,196? **Russia in the Shadows (The original unabridged edition)** H. The Works of H. G. Wells, 1887-1925 Geoffrey West, 1926 Gangs of Russia Svetlana Stephenson, 2015-10-15 Since their spectacular rise in the 1990s Russian gangs have remained entrenched in many parts of the country Some gang members have perished in gang wars or ended up behind prison bars while others have made spectacular careers off the streets and joined the Russian elite But the rank and file of gangs remain substantially incorporated into their communities and society as a whole with bonds and identities that bridge the worlds of illegal enterprise and legal respectability In *Gangs of Russia* Svetlana Stephenson explores the secretive world of the gangs Using in depth interviews with gang members law enforcers and residents in the city of Kazan together with analyses of historical and sociological accounts from across Russia she presents the history of gangs both before and after the arrival of market capitalism Contrary to predominant notions of gangs as collections of maladjusted delinquents or illegal enterprises Stephenson argues Russian gangs should be seen as traditional close knit male groups with deep links to their communities Stephenson shows that gangs have long been intricately involved with the police and other state structures in configurations that are both personal and economic She also explains how the cultural orientations typical of gangs emphasis on loyalty to one's own showing toughness to outsiders exacting revenge for perceived affronts and challenges are not only found on the

streets but are also present in the top echelons of today's Russian state **Russomania** Rebecca Beasley, 2020-03-31

Russomania Russian Culture and the Creation of British Modernism provides a new account of modernist literature's emergence in Britain. British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter. This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals. The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French, English and Russian models. Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing. This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers, editors and politicians who made up the early twentieth century intellectual class. The British intelligentsia *Russomania* argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period: the relation between language and action, writer and audience and the work of art and lived experience. The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists, different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti-formalism and revived romanticism of the 1930s and 1940s future.
