Russia and the West from Alexander to Putin Andrei P. Tsygankov, 2012-06-28 Since Russia has re emerged as a global power its foreign policies have come under close scrutiny In *Russia and the West from Alexander to Putin* Andrei P Tsygankov identifies honor as the key concept by which Russia's international relations are determined He argues that Russia's interests in acquiring power security and welfare are filtered through this cultural belief and that different conceptions of honor provide an organizing framework that produces policies of cooperation defensiveness and assertiveness in relation to the West Using ten case studies spanning a period from the early nineteenth century to the present day including the Holy Alliance the Triple Entente and the Russia Georgia war Tsygankov's theory suggests that when it perceives its sense of honor to be recognized Russia cooperates with the Western nations without such a recognition it pursues independent policies either defensively or assertively

The Russia's Black Sun: The Occult Roots of Eurasianism Cristian Derosa, 2025-01-02 The world lives under the siege of two great beasts on the one hand globalism proponent of an apparently secular and worldly universal religion representing the demonic lie that disguises itself as pacifism human rights and tolerance to practice cultural genocide and domination tyrannical over life and death through the transhumanist monster of total control On the other side traditions emerge gathered under the umbrella of multipolarity led by Russian Eurasianism as a congregation of universal traditions against modern materialism This last current which is the object of this work hides in the form of an apparent opposition to globalist materialism a declaration of war on the West as a civilization considered by occultists of recent centuries as the civilization of the world Logos against which proposes chaos liberation a type of awakening and openness to knowledge as an alternative to the Enlightenment mentality of modernity For this reason it opposes modernity through both traditionalism and postmodernism Both currents globalist and traditionalist consider themselves bearers of light against darkness just like European revolutionaries in the past both in the form of Protestants and Freemasons seen by themselves as symbols of a metaphysical freedom that manifests itself in different ways While globalists propose political individual and hedonistic freedom Eurasians claim to be spiritual liberators of the lights of a new awakening of traditions

Russia: A History, new edition , 2002-03-28 From the formation of the Russian state in the 14th century to the political power struggles of the 1990s and the uncertainties of the new millennium this new

history offers a fresh and systematic account of Russian history across six tumultuous centuries With greater access to previously unobtainable material and with the gradual depoliticization of what was once an intellectual Cold War battleground historians are now able to tell the story of Russia more dispassionately and with greater precision than was formerly possible Drawing on the best contemporary scholarship and informed throughout by the latest archival research into previously classified sources thirteen international experts here reassess and reinterpret the history of one of the world's great powers What emerges is a powerful sense of national destiny of repeated themes unchanging conditions and cycles of circumstance Throughout Russian history all powerful autocrats like Ivan the Terrible or Stalin have maintained their authority through brutality but their omnipotence was always under threat circumscribed by geography compromised by bureaucratic incompetence pervasive corruption and resistance from below A curious combination a veneer of omnipotence a void of operational power has periodically dissolved into times of trouble as in 1598 1917 and 1991 when the impotence of the regime became transparent to all Russian rulers have also had to contend with the same immense physical challenges a hugely dispersed population a perennial dearth of means and men to govern a primitive infrastructure Plagued by natural disasters hamstrung by structural problems the Russian economy whether pre revolutionary capitalist Soviet socialist or post Soviet semi capitalist has had enormous and disruptive difficulties adapting to the competitive world of international markets Another immutable elemental fact has been Russia's multinational composition which continues to generate discontent and disorder Yet Russia is a great survivor as the years from 1995 show characterized by economic recovery institution building and a new mood of self assertion in world politics For too long Russian history has been dominated by myths and counter myths concocted by those seeking either to legitimize the existing order or to destroy it This book containing many little known illustrations represents an important attempt to rethink Russian history and to provide a new understanding of Russia's complex but ever fascinating historical development A compelling story in its own right it is also essential reading for anyone with a private or professional interest in Russia and its place in the world
