**Russia's Protectorates in Central Asia** Seymour Becker, 2004-08-02 This book examines the Russian conquest of the ancient Central Asian khanates of Bukhara and Khiva in the 1860s and 1870s and the relationship between Russia and the territories until their extinction as political entities in 1924 It shows how Russia's approach developed from one of non intervention with the primary aim of preventing British expansion from India into the region to one of increasing intervention as trade and Russian settlement grew It goes on to discuss the role of Bukhara and Khiva in the First World War and the Russian Revolution and how the region was fundamentally changed following the Bolshevik conquest in 1919 20 The book is a re issue of a highly regarded classic originally published in 1968 and out of print for some years The new version includes a new introduction some corrections of errors and a survey of new work undertaken since first publication *History of*

**The Establishment of National Republics in Soviet Central Asia** A. Haugen, 2003-10-16 After almost four centuries of expansion the Russian Empire at the beginning of the 20th century covered vast territories on the Eurasian continent and included an immensely diverse population How was the new Russian regime to deal with the complexity of its population This book examines the role of nation and nationality in the Soviet Union and analyzes the establishment of national republics in Soviet Central Asia It argues that the originally nationally minded Soviet communists with their anti nationalist attitudes came to view nation and national identity as valuable tools in state building **Soviet**

**Nation-Building in Central Asia** Grigol Ubiria, 2015-09-16 The demise of the Soviet Union in 1991 resulted in new state led nation building projects in Central Asia The emergence of independent republics spawned a renewed Western scholarly interest in the region's nationality issues Presenting a detailed study this book examines the state led nation building projects in the Soviet republics of Kazakhstan and Uzbekistan Exploring the degree forms and ways of the Soviet state involvement in creating Kazakh and Uzbek nations this book places the discussion within the theoretical literature on nationalism The author argues that both Kazakh and Uzbek nations are artificial constructs of Moscow based Soviet policy makers of the 1920s and 1930s This book challenges existing arguments in current scholarship by bringing some new and alternative

insights into the role of indigenous Central Asian and Soviet officials in these nation building projects It goes on to critically examine post Soviet official Kazakh and Uzbek historiographies according to which Kazakh and Uzbek peoples had developed national collective identities and loyalties long before the Soviet era This book will be a useful contribution to Central Asian History and Politics as well as studies of Nationalism and Soviet Politics *Turkmenistan: Strategies of Power, Dilemmas of Development* Sebastien Peyrouse,2015-02-12 This book is the first comprehensive introduction to contemporary Turkmenistan in English

**Russian-Soviet Unconventional Wars in the Caucasus, Central Asia, and Afghanistan [Illustrated Edition]** Dr. Robert F. Baumann,2015-11-06 Includes 12 maps and 4 tables In recent years the U S Army has paid increasing attention to the conduct of unconventional warfare However the base of historical experience available for study has been largely American and overwhelmingly Western In Russian Soviet Unconventional Wars in the Caucasus Central Asia and Afghanistan Dr Robert F Baumann makes a significant contribution to the expansion of that base with a well researched analysis of four important episodes from the Russian Soviet experience with unconventional wars Primarily employing Russian sources including important archival documents only recently declassified and made available to Western scholars Dr Baumann provides an insightful look at the Russian conquest of the Caucasian mountaineers 1801 59 the subjugation of Central Asia 1839 81 the reconquest of Central Asia by the Red Army 1918 33 and the Soviet war in Afghanistan 1979 89 The history of these wars especially as it relates to the battle tactics force structure and strategy employed in them offers important new perspectives on elements of continuity and change in combat over two centuries This is the first study to provide an in depth examination of the evolution of the Russian and Soviet unconventional experience on the predominantly Muslim southern periphery of the former empire There the Russians encountered fierce resistance by peoples whose cultures and views of war differed sharply from their own Consequently this Leavenworth Paper addresses not only issues germane to combat but to a wide spectrum of civic and propaganda operations as well [Slavery and Empire in Central Asia](#) Jeff Eden,2018-07-19 Using newly uncovered archival evidence Jeff Eden sheds unprecedented light on the lives of slaves ensnared by the Central Asian slave trade

**History of civilizations of Central Asia** Adle, Chahryar,UNESCO,2005-10-03 This major six volume project co published with Macmillan covers the historical experience of the peoples and societies of the Caribbean region from the earliest times to the present day The sixth volume brings this series to an end as it takes in the whole of the modern period from colonial conquest and domination to decolonization the Cold War from start to finish the disintegration of the Soviet Union and the renewed instability in certain areas Not only did the colonial regimes lay a new patina over the region but nationalism remoulded all old identities into a series of new ones That process of the twentieth century was perhaps the most transformative of all after the colonial subjugation of the nineteenth While it has been the basis of remarkable stability in vast stretches of the region it has been a fertile source of tension and even wars in other parts The impact and the results of such changes have been astonishingly variable despite the

proximity of these states to each other and their being subject to or driven by virtually the same compulsions      Movement, Power and Place in Central Asia and Beyond Madeleine Reeves, 2013-09-13 Central Asia is a region singularly marked by attempts to transform social life by transforming place Drawing together established scholars and a new generation of historians geographers and anthropologists this volume brings empirical specificity and theoretical depth to debates about the politics of place making in this diverse region making an important contribution to Central Asian studies and a distinctive regional comparison to the spatial turn in social analysis Case studies draw on archival research and oral history to explore the workings and unintended consequences of policies aimed at sedentarizing collectivizing and resettling populations as a means to fix and territorialize space The book also examines ethnographic studies attuned to the role of movement in sustaining social life from Soviet era trade networks that linked rural Central Asia and the Russian metropolis to pilgrimage routes through which kazakhness is articulated to the contemporary moralization of migration abroad in search of work Rather than analysing flows as abstract processes the book enquires about effortful activity material infrastructures political relations and social habits through which people ideas knowledge skills and material objects move or are prevented from moving As such it offers new insights into the complex intersections of movement power and place in this important region over the last two centuries This book was originally published as a special issue of Central Asian Survey      **The Modernization of Inner Asia** Cyril Edwin Black, 1991 Inner Asia in premodern times the little known land of nomads and semi nomads has moved to the world s front page in the 20th century as the complex struggles for the future of Afghanistan Soviet Central Asia Tibet and other territories make clear But because Inner Asia as a whole is divided among several states politically and among area specialists academically broad perspectives on recent events are difficult to find This work treats the region as a single unit providing both an account of the region s past and an analysis of its present and its prospects in a thematic rather than a strictly country by country manner      The International Politics of Central Asia John Anderson, 1997 Central Asia is a fascinating region yet remote and unfamiliar to many people This new study provides an introduction to the politics of Kazakhstan Kyrgyzstan Tajikistan Turkistan and Uzbekistan      **Russian-Soviet Unconventional Wars in the Caucasus, Central Asia, and Afghanistan** Robert F. Baumann, 1993      **A History of Russia Volume 1** Walter G. Moss, 2003-07-01 This new edition retains the features of the first edition that made it a popular choice in universities and colleges throughout the US Canada and around the world Moss s accessible history includes full treatment of everyday life the role of women rural life law religion literature and art In addition it provides many other features that have proven successful with both professors and students including a well organized and clearly written text references to varying historical perspectives numerous illustrations and maps that supplement and amplify the text fully updated bibliographies accompanying each chapter as well as a general bibliography of more comprehensive works a glossary and chronological and genealogical lists Moss s A History of Russia will appeal to academics students and general readers alike      **On Arid**

**Ground** Jennifer Keating, 2022-04-14 *On Arid Ground* focuses on the relationships between empire and environment in Central Asia using environmental history to examine the practice of Russian imperialism in Turkestan at the end of empire from the 1860s until 1916. It reveals for the first time a comprehensive assessment of the environmental imprint of Russian colonisation and shows how local ecologies fitted into broader repertoires of imperial rule, accommodation and resistance. Ranging widely above and below the surface in Turkestan from the deserts of Transcaspia to the highlands and lowlands of rural Fergana and Semirech'e, Jennifer Keating explores infrastructure development, migrant settlement, land reclamation and dispossession, the commodification of nature and environmental violence to reveal the ways in which ecological change was central to the building and breaking of empire. Attentive to connections, synchronicities and scale, *On Arid Ground* makes the case for looking beyond cotton and water in Central Asian context for the powerful material role played by animals and plants, sand, silt and salt in human histories and for the less visible relationships between far-flung people and things within and beyond Turkestan's borders. Laying bare the political roots and repercussions of environmental change, the volume brings fresh perspectives both to the history of Central Asia and to that of the wider Russian empire across Eurasia. **The Indian**

**Diaspora in Central Asia and Its Trade, 1550-1900** Scott Cameron Levi, 2002-01-01 Based on original research in the archives of Uzbekistan, this book surveys the early modern commercial relations between India and Central Asia and examines the emergence, economic function, social organization and decline of an Indian merchant diaspora. This diaspora consisted of tens of thousands of Indian merchant moneylenders living in communities dispersed across Central Asia, Afghanistan, Iran, the Caucasus and much of Russia. The book illustrates how these diaspora merchants utilized their position as agents of heavily capitalized caste-based Indian family firms to finance transregional trade and complex systems of rural credit and industrial production. It concludes with an analysis of the Russian colonial administration's policies toward the Indian merchants and explains how these policies brought about the decline of the diaspora in Central Asia.

*Photographing Central Asia* Svetlana Gorshenina, Sergei Abashin, Bruno De Cordier, Tatiana Saburova, 2022-09-06 This volume addresses new theoretical approaches in visual and memory studies that prompted a rethink of the photography of Russian Turkestan of the nineteenth and early twentieth centuries. Attempts to relate the visual unknown to postcolonial criticism also opened up new interpretive arenas, helping to decentralize the analysis of the history of photography. The aim of this volume is to interpret photography as a specific tool that reifies reality, subjectively frames it and fits it into various political, ideological, commercial, scientific and artistic contexts. Without reducing the entire argument to the binary of photography and power, the authors reveal the different modes of seeing that involve distinct cultural norms, social practices, power relations, levels of technology and networks for circulating photography and that determined the manner of its reuse in constructing various images of Central Asia. The volume demonstrates that photography was the cornerstone of imperial media governance and discourse construction in colonial Turkestan of the tsarist and early Soviet periods. The

various cases show the complex mechanisms by which images of Turkestan were created remembered or forgotten from the nineteenth until the twenty first century The book should appeal to scholars of the Russian Empire and Central Asia of history of photography and visual culture of memory studies It should be appropriate for use in upper level undergraduate courses and even a broader public
