The Churches and Ethnic Ideology in the Rwandan Crises 1900-1994 Tharcisse Gatwa, 2008-09-01 To many observers Rwanda was a colony of the White Fathers That Roman Catholic religious order created in Algiers in 1868 by Cardinal Lavigerie evangelized the country from 1900 onwards effectively becoming the state church To maintain its domination the Roman Catholic Church s hierarchy supported the theory of the so called hamite supremacy by selecting educating and establishing an elite among one of the three Rwandan social groups the Batutsi who were given the monopoly of power Frustrations and recriminations that resulted from this injustice and its accompanying exclusion of other groups from power led to the bloodshed of the uprisings of the 1959 revolution that preceded independence in 1962 Then in 1959 the Roman Catholic Church abandoned the Batutsi in favour of the Bahutu majority From 1973 to 1994 both Catholic and Protestant leaders entered into close political relations with the regime of the MRND Mouvement R evolutionnaire National pour le D veloppement which alienated them from the people of Rwanda when human rights abuses were widespread

culminating in the war in 1990 and the genocide of 1994 If the church's mission remains that of teaching and evidencing love, justice and righteousness Micah 6:8 there is the need for it to recover its credibility so that it can play its part in the healing and reconciliation of the country and this can only be done through its confession and repentance of its failures and complicity in the tragedies

The Actors in Europe's Foreign Policy Christopher Hill, 2013-01-11 Five years ago observers might have doubted that national foreign policies would continue to be of importance it seemed inevitable that collective European positions were becoming ever more common and effective Now the pendulum has swung back with a vengeance The divided European responses to the prospect of war with Iraq in 1990 91 and to the war in the Balkans have made what happens in the national capitals seem divisive The Actors in Europe's Foreign Policy is a timely survey of the interplay between the European Union's Common Foreign and Security Policy and the long established national foreign policies of the Union's Member States The book contains a chapter on each country in the Union as well as a chapter on the United States in its role as the thirteenth seat at the table There is also a chapter on the European Commission whose role in the external relations of the Community steadily grew during the 1980's This book will be invaluable for students and scholars of the European Union and of international politics It will also be of great interest to practitioners in all countries concerned with Europe's role in international affairs
