Dillon, 2025-04-15 Cultural Ecologies of the Land is a radical and challenging reassessment of the way we relate to the land and to infrastructure There was a time when the land defined us Now with each passing year we are increasingly detached from it It was once the centre stage of humanity now it is the setting for a technological drama What has happened and why does it matter This book is a multi layered account of people and environment shaping each other through cumulative moment to moment day to day change and a template for thinking about place locality belonging and identity Cultural Ecologies of the Land presents the existential crisis that many believe we now face as a systemic problem arising from social institutions and forms of behaviour that have been marginalised with our dependency on modern infrastructure It explains the part people have played in contributing to the crisis and how regenerating relationships with the land offers a route towards alleviating it This is not only about acknowledging our impact on Earth but also about understanding ourselves in relation to it how we engage with our surroundings make sense of them live and work in them and create narratives that connect and sustain us Design Roots Stuart Walker, Martyn Evans, Tom Cassidy, Amy Twigger Holroyd, Jeyon Jung, 2018-02-08 Design Roots provides a comprehensive review of culturally significant designs products and practices which are rooted to particular communities through making tradition and a sense of place Many rich traditional practices associated with community tacit knowledge and culture are being rapidly lost due to globalisation and urbanisation Yet they have much to offer for the future in terms of sustainability identity wellbeing and new opportunities in design This book considers the creative roots the place based ecologies and deep understandings of cultural significance not only in terms of history and tradition but also in terms of locale social interactions innovation and change for the sustainment of culturally significant material productions Importantly these are not locked in time by sentimentality and nostalgia but are evolving innovative and adaptive to new technologies and changing circumstances Contributing authors explore the historical roots of culturally significant designs products and practices emerging directions amateur endeavours enterprise models business opportunities and the changing role and contribution of design in the creation of material
