Sacraments of Initiation, Second Edition Liam G. Walsh OP, 2022-01-07 This title is no longer available The original edition of this book presented a theology of sacraments that emerged out of a Church stirred into new life by the Second Vatican Council It is a theology that can claim to have been continuously received in the Catholic Church since then It is the theology that has been widely practiced and preached in pastoral life has been given catechetical shape in the Catechism of the Catholic Church However during the past 23 years some trends developed in pastoral theology and practice that were taking directions that seemed hard to reconcile with the decisions of the Council This new edition examines the way some theological counter currents have developed over those years both in theory and in practice The sacramental theology contained in this study maintains the broad on going agreement between what it proposes and mainstream Church teaching and practice The book examines the tradition of sacramental practice and teaching Biblical and historical studies continue to uncover new riches of the tradition and recent findings are discussed A careful listening to the tradition of rite and word is truly indispensable for sacramental theology It was out of such listening that Vatican II teaching on sacraments emerged and provision was made for recovering the full richness of the tradition Not all of the recent theological speculations and pastoral strategies given an equally serious acknowledgement to the tradition The liturgies that are studied in this book have been given to the Church in the wake of Vatican II The historical chapters will show the liturgies to be a contemporary expression of fidelity to core values of the Apostolic Tradition The chapters on the rite of each sacrament are mainly descriptive and historical but also include anthropological reflections that unveil the human significances of the various rites The chapters on the word examine the biblical and traditional word spoken in the churches about each sacrament and conclude with what is called a systematic essay The bibliography has updated to reflect the development in the field

Reclaiming Participation Cynthia Peters Anderson, 2014-11-01 In an era that oscillates regularly between nihilism and the erosion of moral vision on the one hand and pseudo gnostic myths of self apotheosis on the other the classical Christian claim of human participation in the divine as the story of the transformation of human life in its physical moral spiritual and eschatological dimensions takes on radical counter cultural color It is an affirmation that offers hope and meaning for humanity secured by God s participation in human life through Jesus Christ The Christological ground of this claim is crucial to secure and animate the argument of this text The author performs in this a retrieval of the Christological vision of the unification of the divine and the human in the single subject of Jesus Christ as the programmatic center point of human transformation and participation articulated particularly by Cyril of Alexandria The patristic pattern is used as a lens through which to examine and assess modern iterations those of Karl Barth and Hans Urs von Balthasar In this

the author provides a critical updating of this vital classical theme annotating a vision of divine life opened up for created participation that can foster hope in the climes of contemporary life **Toward a Trinitarian Theology of Liturgical Participation** R. Gabriel Pivarnik, 2013-01-01 Half a century after the Second Vatican Council called for the active participation of the laity in the liturgy a comprehensive theology of what liturgical participation actually means remains elusive While most sacramental studies have highlighted the role and action of Christ the conciliar reform and the theology that emanated from it call for a deeper trinitarian understanding of the liturgy and sacraments In this fascinating new work Gabriel Pivarnik identifies the major theological developments in the concept of active participation of the last century most notably in Mediator Dei and the Vatican II documents He also considers the reception of those developments Drawing especially on the work of Cipriano Vagaggini and Edward Kilmartin Pivarnik offers a lucid demonstration of how liturgical participation can be viewed in metaphysical soteriological and ecclesiological terms through the lens of a trinitarian narrative

Understanding the Sacraments of Vocation: A Rite-Based Approach Randy Stice, 2016-10-17 Understanding the Sacraments of Vocation presents insightful catechesis or mystagogy on the sacraments of vocation based on the words actions and signs of the rites and pastorally connects the meaning of the sacraments into daily Christian life *The Appropriation of Divine Life in Cyril of Alexandria* Daniel A. Keating, 2004-02-12 Daniel A Keating presents a comprehensive account of sanctification and divinization in Cyril By establishing the importance of pneumatology in Cyril s narrative of salvation and by showing the requirement for an ethical aspect of divinization grounded in the example of Christ himself this study brings a corrective to certain readings of Cyril that tend to exaggerate the somatic or physicalistic character of his understanding of divinization Keating argues that Cyril correlates the somatic and pneumatic means of our union with Christ and integrates impressively the ontological and ethical aspects of our sanctification and divinization A final chapter compares these findings with Theodore of Mopsuestia Augustine and Leo the Great in order to examine in brief the relationship between Eastern and Western accounts of salvation **Calvin, Participation, and the Gift** J. Todd Billings, 2007-11-15 Is

the God of Calvin a fountain of blessing or a forceful tyrant Is Calvin s view of God coercive leaving no place for the human qua human in redemption These are perennial questions about Calvin s theology which have been given new life by Gift theologians such as John Milbank Graham Ward and Stephen Webb J Todd Billings addresses these questions by exploring Calvin s theology of participation in Christ He argues that Calvin s theology of participation gives a positive place to the human such that grace fulfils rather than destroys nature affirming a differentiated union of God and humanity in creation and redemption Calvin s trinitarian theology of participation extends to his view of prayer sacraments the law and the ecclesial and civil orders In light of Calvin s doctrine of participation Billings reframes the critiques of Calvin in the Gift discussion and opens up new possibilities for contemporary theology ecumenical theology and Calvin scholarship as well

Faith and Culture Emmanuel Osigwe, 2022-12-05 The recognition of the intersection of faith and culture has become a

significant trend in contemporary theology Cultures are locations of divine activity The Sacramental Theology of Elochukwu Uzukwu in Light of Vatican II and Its Application in African Context brings freshness to the dominant Catholic sacramental thinking by offering an African appropriation of the Christian faith through African cultures It demonstrates the historical interaction of the Christian faith with multiple anthropologies that resonates with different peoples to celebrate rituals that convey divine activity This work engages the theology of Elochukwu Uzukwu a recent African sacramental liturgical theologian whose work reflects the elements of sacramental and liturgical renewal of the Second Vatican Council especially in its openness to a plurality of cultures This book retrieves resources from the African universe to offer a contextual appropriation of the interface between faith and African cultures It highlights the African view of the body in its expressive worship and significance of relationality as an undergirding existential philosophy of life Consequently it offers a flexible theological methodology that avoids polarities It provides an additional resource to the philosophical and theological approach to the perennial problem of duality and theologies constructed on this template This study moves beyond monocultural sacramental expression to engage symbols and indigenous resources to articulate an African sacramental theology

Evangelicals, Worship and Participation Alan Rathe, 2016-04-22 In discussions of worship the term participation covers a lot of ground It refers not only to concrete acts in gathered liturgy but also to some of the loftiest claims of Christian theology In this book Alan Rathe probes the ways in which North American evangelicals have in recent years regarded the landscape of participation Rathe presents a broad review of evangelical worship literature through a lens borrowed from medieval theology This brings into surprising focus not only evangelical understandings but also evangelical identities and the historical traditions they reflect and offers fresh perspectives on such current theological concerns as God's triunity, *missio Dei* and the practical theology of participation Offering a fresh contribution to a young but important discipline the liturgically informed study of evangelical worship practice this book reconnects the evangelical tradition to the Great Tradition and in the process reappropriates classic concepts that are full of promise for contemporary ecumenical dialogue
