Discovering Divine Connection is more than a guide it s an invitation to embrace the future of Christian rituals with a heart rooted in tradition poised to inspire a new generation of believers Embark on this spiritual voyage and deepen your divine connection today **Sacred Power, Sacred Space** Jeanne Halgren Kilde, 2008-07-21 Jeanne Halgren Kilde s survey of church architecture is unlike any other Her main concern is not the buildings themselves but rather the dynamic character of Christianity and how church buildings shape and influence the religion Kilde argues that a primary function of church buildings is to represent and reify three different types of power divine power or ideas about God personal empowerment as manifested in the individual s perceived relationship to the divine and social power meaning the relationships between

groups such as clergy and laity Each type intersects with notions of Christian creed cult and code and is represented spatially and materially in church buildings Kilde explores these categories chronologically from the early church to the twentieth century She considers the form organization and use of worship rooms the location of churches and the interaction between churches and the wider culture Church buildings have been integral to Christianity and Kilde s important study sheds new light on the way they impact all aspects of the religion Neither mere witnesses to transformations of religious thought or nor simple backgrounds for religious practice church buildings are in Kilde s view dynamic participants in religious change and goldmines of information on Christianity itself

Teaching for a Multifaith World Eleazar S. Fernandez,2017-05-05 When religious diversity is our reality radical hospitality to people of other faiths is not a luxury but a necessity More than necessary for our survival radical hospitality to religious diversity is necessary if we are to thrive as a global society By no means does the practice of hospitality in a multifaith world require that we be oblivious of our differences On the contrary it demands a respectful embrace of our differences because that's who we are Neither does radical hospitality require that we water down our commitment because faithfulness and openness are not contradictory We must be able to say with burning passion that we are open to the claims of other faiths because we are faithful to our religious heritage The essays in this book do not offer simply theological exhortations they offer specific ways of how we can become religiously competent citizens in a multifaith world Let's take the bold steps of radical openness with this book on our side English Spirituality Gordon Mursell,2001-01-01 This wide ranging historical survey provides an indispensable resource for those interested in exploring teaching or studying English spirituality In two stand alone volumes it traces the history from Roman times until the year 2000 The main Christian traditions and a vast range of writers and spiritual themes from Anglo Saxon poems to late modern feminist spirituality are

reflect the collective identity and spiritual aspirations of societies throughout history *The Architect as Magician* Albert C. Smith, Kendra Schank Smith, 2020-05-07 *The Architect as Magician* explores the connection between magic and architecture. There is a belief that a greater understanding of the meaning of magic provides insights about architecture and architects' design processes. Architects influence the effects of nature through the making of their buildings. In an analogous condition, magicians perform rituals in an attempt to influence the forces of nature. This book argues that architects could gain much by incorporating ideas from magic into their design process. The book demonstrates through historical and current examples the important influence magic has had on the practice of architecture. The authors explain how magic helps us to understand the way we infuse architecture with meaning and how magic affects and inspires architectural creation. Aimed at architects, students, scholars, and researchers, *The Architect as Magician* helps readers discover the ambiguous and spiritual elements in their design process.

Images of the Immortal Paul R. Katz, 2000-01-01 The Palace of Eternal Joy (Yongle Gong) is a mammoth cult site dedicated to one of late imperial China's most popular deities, Lu Dongbin. In one of the first book-length studies of a Chinese sacred site, Paul Katz focuses on the Palace's role in the development of Lu's legend. This highly innovative approach takes into account the various histories of the Palace presented in different texts and surpasses previous scholarship by stressing the ways in which the site both reflected and produced cultural diversity. Katz breaks new ground by analyzing the texts in terms of the textuality, the processes by which they were produced, transmitted, and understood. The study begins with a detailed description of the Palace of Eternal Joy and a brief account of its history. The reader is then introduced to the cult of Lu Dongbin. Special consideration is given to various hagiographical traditions, particularly those that influenced the growth of his cult at Yongle. Throughout late imperial China, a growing number of worshipers, among them scholar-officials, Taoist priests, artisans, and dramatists, created an ever-burgeoning variety of images of Lu, ranging from a patron god of ink makers and prostitutes to a member of that powerful yet rambunctious group of spirits known as the Eight Immortals. In this context, the author explores the Perfect Realization Taoist movement's adoption of Lu's cult during the Jin and Yuan dynasties and highlights the social and religious factors that led to Lu's immense popularity in north China during the late imperial era. Katz next looks at the four types of inscriptions found at the Palace: commemorative, official, hagiographical, and poetic, and identifies the Palace patrons who worshiped there and contributed to its growth. In the description and analysis of the Palace murals that follow, he divides these works into two types: those painted to provide a setting for and even an object of Taoist rituals performed at the Palace, and those used to instruct Perfect Realization Taoists and perhaps pilgrims. The final section traces the reception of the Palace texts among the people of Yongle and its environs. Here Katz examines the ways in which patrons tried to impose their representations of the Palace's history and the cult of Lu Dongbin on other members of the community and assesses the extent to which these efforts succeeded. *Images of the Immortal* is richly informed by a wide reading in social, cultural, and literary theory, as well as a thorough awareness of

previous work in comparative and Chinese religion Scholars of Taoism Chinese popular religion and art history will find it especially rewarding for its thought provoking reinterpretation of an important religious figure and his cult
