Sacred Journeys The Anthropology Of Pilgrimage:

Sacred Journeys Alan Morinis, 1992-10-26 This interdisciplinary collection is a new landmark in the study of the world's pilgrimage traditions. Experts from many disciplines approach the subject from a variety of perspectives that are designed to lead to the understanding of pilgrimage in general. Specific case studies represent most of the major religious traditions of the world. Anthropologists, historians, sociologists, social psychologists, and students of religion will find that these theoretical and case studies suggest new areas for further research. Alan Morinis presents a many-faceted examination of sacred journeys in India, Southeast Asia, the Pacific, West Asia, Africa, North America, and the Caribbean. The introduction provides a framework for the case studies which follow. In-depth accounts of patterns of pilgrimage ranging from Hindu practices to a comparison of Catholic and Baptist pilgrimage in Haiti and Trinidad to a narration of a Maori sacred journey provide valuable comparative information. Pilgrimage is viewed in relation to methodological issues and an analysis is offered showing how pilgrimage and tourism are related. Victor Turner's foreword and Colin Turnbull's postscript lend authoritative weight to this increasingly significant field of study.

Intersecting Journeys Ellen Badone, Sharon R. Roseman, 2004-09-23 *Intersecting Journeys* offers ethnographic analysis of the conflicts over resources, meanings associated with sacred sites such as Lourdes, Rome, Jerusalem, as well as the sense of community they inspire.

Memory and Desire Peter Wagstaff, 2023-04-12 This study challenges the conventional view of R. tiff de la Bretonne as a chronicler of eighteenth-century France and notorious exponent of *la littérature galante* to provide both students and scholars with a fresh analysis focusing on two themes: autobiography and utopianism, which feature prominently in his writing. It suggests that each is the product of similar impulses reflecting common polarities between public and private self and others, past and future. In tracing R. tiff's persistent but frustrated attempts to reconcile the conflicting elements of the world he inhabits, rural and urban, old and new, stable and changing, this volume analyses the failure of his utopian dream of a well-ordered and harmonious society. By exploring his absorption in the autobiographical project and in particular *Monsieur Nicolas* ou *le cœur humain dévoilé*, it offers an interpretation of his work as a sustained reflection on selfhood and on the power of memory which enables R. tiff to create within the confines of the text a utopian space where self and world are reconciled and time and space no longer count.

The Covenant's Veil Alexandra Sellassie Antohin, 2024-12-03 An exploration of how contemporary Ethiopian Orthodox Christianity preserves and protects sacred ideas and relationships. Ethiopia stretches her hand upon God; the narrative of Sheba and Solomon, the material presence of the Ark of the Covenant in Axum. For Ethiopian Orthodox Christians, these classic understandings of the covenant are prized narratives. For historical and scriptural scholarship, a central focus is to explain the characteristics of Ethiopian Orthodox Christianity as retaining key Old Testament qualities to demonstrate a wide chasm with post-Enlightenment secular societies. By widening the lens of analysis to include a body of knowledge best accessed through Orthodox Christian devotional culture, *The Covenant's Veil* offers an interpretation that challenges the

reader to adopt a novel understanding of these well established ideas The multiple complex ways that the covenant idea appears as ideas idioms customs symbols and articulations in the lifeworld of Ethiopian Orthodox are the starting point for The Covenant's Veil Ethiopia's story of the covenant is a domain of nested reference points that inspires celebrants through their devotional activities to expand and elaborate upon a network of meanings Covenant refractions within Ethiopian Orthodox devotional culture not only demonstrate the established pattern of magnifying spiritual importance through symbolic similes and analogic pairings but perform a vital function for keeping traditional knowledge alive and current Detailed ethnographic material arranges devotional activities such as mahaber rituals of communing and processions of tabots on feast days It describes habits of making vows presenting oneself at church and telling stories of saints and their covenants Thinking about the covenant concept as refracting the bending motion of points encountering a common surface is a way to conceive how these reference points reveal a connective thread what is theorized as an Ethiopian Orthodox method of elaboration Identifying when and where elaboration of tradition is happening provides an opportunity to demonstrate how Orthodox Christianity is integral to the lives and actions of its faithful By reframing covenant as expanding beyond Ethiopian religious and political exceptionalism The Covenant's Veil provides us with a timely reappraisal of this concept in light of increased social fragmentation and the urgency for negotiating harmony in a country with many forms of diversity

Notermans, 2016-04-22. Despite the forces of secularization in Europe, old pilgrimage routes are attracting huge numbers of people and given new meanings in the process. In pilgrimage, religious or spiritual meanings are interwoven with social, cultural, and politico-strategic concerns. This book explores three such concerns under intense debate in Europe: gender and sexual emancipation, transnational identities in the context of migration, and European unification and religious identifications in a changing religious landscape. The interdisciplinary contributions to this book explore a range of such controversies and issues, including Africans renewing family ties at Lourdes, Swedish women at midlife, or young English men testing their strength on the Camino to Santiago de Compostela. New Age pilgrims and sexuality, Saints' festivals in Spain, and Brittany conservative Catholics challenging Europe's liberal policies on abortion. Polish migrants and French Algerians reconfiguring their transnational identity by transporting their familiar Madonna to their new home, new sacred spaces created such as the shrine of Our Lady of Santa Cruz, traditional Christian saints such as Mary Magdalene given new meanings as new age goddess, and foundation legends of shrines revived by new visionaries. Pilgrimage sites function as nodes in intersecting networks of religious discourses, geographical routes, and political preoccupations, which become stages for playing out the boundaries between home and abroad. Muslims and Christians, pilgrimage and tourism, Europe and the world. This book shows how the old routes of Europe are offering inspirational opportunities for making new journeys.

Geography of World Pilgrimages Lucrezia Lopez, 2023-07-01. This book points out how pilgrimage studies rely on interdisciplinary academic interests, being always more determined by anthropological, social, cultural, and economic factors. The volume gathers interdisciplinary contributions revealing different approaches and academic interests when researching pilgrimage. Finally, the proposal introduces a comparative international breath to reflect upon such complex phenomenon that since Antiquity still impregnates the history of human being across the world. As pilgrimage studies are closely related to mobility issues, how the contemporary mobile world is altering and re-signifying pilgrimage dynamics and meanings will also be discussed in detail. The term pilgrimage evokes key concepts deriving from different fields, all of them collected in the final glossary. The primary audience of this work are academics and researchers from different fields involved in pilgrimage studies. The work may also be useful in teaching advanced university courses. *First Resorts* Jon Sterngass, 2021-04-27. A

legitimacy unavailable at home For most people there is a limit to how much training is available from the teachers and classes at home As skill and know how increase the resources and training opportunities available become limits on one s learning Similarly a practitioner s legitimacy may be suspect without exposure to appropriate cultural context such as ties with the homeland of certain dance forms or martial arts Whether for skill alone or activity specific legitimacy individuals may feel compelled to travel for training Such travelers see themselves quite differently from other tourists and the seriousness with which they pursue their journeys makes it appropriate to call them pilgrims Given the goal of learning from and developing their own skills by training with experts at their destinations apprenticeship pilgrims is even more appropriate Rather than focus on specific geographic regions or genres of apprenticeship this book builds a robust theoretical framework for understanding the role of travel for developing expertise in embodied genres This book links and expands on the existing scholarship concerning anthropologies of education and tourism but takes new strides in exploring the global circumstances wherein skill development requires travel Throughout the authors use apprenticeship pilgrimage as a robust new framework for considering the interrelated roles of going learning and doing for identity construction within contemporary globalization For more information check out A Conversation with Lauren Griffith and Jonathan Marion
