

The background of the cover is a monochromatic blue photograph. It depicts a vast mountain landscape. In the foreground, the dark, silhouetted branches of trees are visible on the left side. The middle ground is filled with layers of mountains, their peaks and ridges partially obscured by soft, white clouds or mist. The sky above is a pale, clear blue. The overall mood is serene and majestic.

Sacred Longings:

Sacred Longings Mary C. Grey, 2004 This book explores what is happening to the human spirit in a culture shaped and driven by globalization a culture where dreams imaginations and desires are all manipulated What do we really want Noted theologian Mary Grey believes we have gotten out of touch with our deepest desires and that the root problem is our acquiescence in global capitalism s most problematic characteristics Story and symbol she argues can put us back in touch with out sacred longings Focusing on such simple yet profound symbols as water light and sacred space she tries to reinstill a spiritual quest In the end she envisions spirituality a kind of ecomystical renewal as an element in the transformation of desire lived out in Christian community For desire to be reborn for sacred longings even to be named not to mention fulfilled there needs to be an embracing of the way of renunciation simplicity and sacrifice And that is counter cultural As Part One looks at how our culture has lost heart and Part Two analyzes are restless hearts Part Three asks us to take heart and rekindle our thirst for righteousness Inherited Land Whitney A. Bauman, Richard R. Bohannon II, Kevin J.

O'Brien, 2011-08-04 Religion and ecology has arrived What was once a niche interest for a few academics concerned with environmental issues and a few environmentalists interested in religion has become an established academic field with classic texts graduate programs regular meetings at academic conferences and growing interest from other academics and the mass media Theologians ethicists sociologists and other scholars are engaged in a broad dialogue about the ways religious studies can help understand and address environmental problems including the sorts of methodological terminological and substantive debates that characterize any academic discourse This book recognizes the field that has taken shape reflects on the ways it is changing and anticipates its development in the future The essays offer analyses and reflections from emerging scholars of religion and ecology each addressing her or his own specialty in light of two questions 1 What have we inherited from the work that has come before us and 2 What inquiries concerns and conversation partners should be central to the next generation of scholarship The aim of this volume is not to lay out a single and clear path forward for the field Rather the authors critically reflect on the field from within outline some of the major issues we face in the academy and offer perspectives that will nurture continued dialogue Five Pathways to Wholeness Roger

Hurding, 2013-06-20 Five Pathways to Wholeness examines a variety of approaches to pastoral care biblical counselling the healing ministries pastoral counselling spiritual direction and social change Bringing together material from a range of sources and offering numerous engaging real life illustrations the author compares and evaluates each of the five approaches in its own right At the same time he encourages those who favour a particular pathway to respect and understand the raison d etre of the other four All five he believes can move to a more truly integrational theological and psychological viewpoint

Longing for Home M. Jan Holton, 2016-06-28 What is it about the concept of home that makes its loss so profound and devastating and how should the trauma of exile and alienation be approached theologically M Jan Holton examines the

psychological social and theological impact of forced displacement on communities in the Congo and South Sudan and on indigenous Batwa tribespersons in Uganda as well as on homeless U S citizens and on U S soldiers returning from the wars in Afghanistan and Iraq She draws on ethnographic work in Africa extensive research in practical theology sociology and psychology as well as on professional work and personal experiences in America and abroad In doing so she explores how forced displacement disrupts one s connection with the home place and the profound characteristics it fosters that can help people lean toward flourishing spiritually and psychologically throughout their lifetime Displacement invites a social alienation that can become deeply institutionalized threatening the moral well being of us all *Longing For Home* offers a frame for understanding how communities can respond to refugees and various homeless populations by cultivating hospitality outside of their own comfort zones This essential study addresses an urgent interreligious global concern and Holton s thoughtful and compelling work offers a constructive model for a sustained practical response **Longing for**

Denny, Christopher McMahon, 2011-05-01 *Finding Salvation in Christ* brings together some of the most important figures in contemporary theology to honor the work of William Loewe systematic theologian and specialist in the theology of Bernard Lonergan SJ For over three decades Loewe s writings have sought to make classic christological and soteriological doctrines comprehensible to a Catholic Church that is working to integrate individual subjectivity communal living and historical consciousness in the wake of the Second Vatican Council Essays included in this volume assess Loewe s reinterpretation of patristic and medieval Christology from Irenaeus to Anselm of Canterbury and explain the significance of the theology of Lonergan and Loewe for the fields of soteriology economics family life and interreligious theology While some recent postliberal theologies have polarized the church s relationship with contemporary culture by minimizing similarities between Christianity and other worldviews the contributors in this volume continue Lonergan s project of integrating the findings of various intellectual disciplines with Christian theology and use Loewe s historical and systematic work as a guide in that

endeavor While Lonergan's transcendental Thomism has been criticized by both traditionalists and revisionists essays in this collection apply Loewe's theological methodology in a variety of ways to demonstrate that time honored doctrines about Christ can be transplanted into new cultural contexts and gain intelligibility and credibility in this process Having lived and labored through the far reaching changes in Catholic thought introduced in recent decades Loewe's career provides a model for theologians attempting to build bridges between the past and the present and between the church and the world

Gandolfo, 2015 Gandolfo constructs a theological anthropology that begins with the condition of human vulnerability as a site to answer why human beings experience and inflict terrible suffering This volume argues that vulnerability is a dimension of human existence that causes us great anxiety which forms the basis for violence but also affords the possibility **Hope**

and the Longing for Utopia Daniel Boscaljon, 2015-02-26 At present the battle over who defines our future is being waged most publicly by secular and religious fundamentalists Hope and the Longing for Utopia offers an alternative position disclosing a conceptual path toward potential worlds that resist a limited view of human potential and the gift of religion In addition to outlining the value of embracing unknown potentialities these twelve interdisciplinary essays explore why it has become crucial that we commit to hoping for values that resist traditional ideological commitments Contextualized by contemporary writing on utopia and drawing from a wealth of times and cultures ranging from Calvin's Geneva to early twentieth century Japanese children's stories to Hollywood cinema these essays cumulatively disclose the fundamental importance of resisting tantalizing certainties while considering the importance of the unknown and unknowable Beginning with a set of four essays outlining the importance of hope and utopia as diagnostic concepts and following with four concrete examples the collection ends with a set of essays that provide theological speculations on the need to embrace finitude and limitations in a world increasingly enframed by secularizing impulses Overall this book discloses how hope and utopia illuminate ways to think past simplified wishes for the future *Cause for Hope* Bill Phipps, 2007 Global society stands at a

crossroads one of those critical moments in the history of humankind The simple fact is that the Earth cannot support our rampant overuse and misuse of its abundant gift of resources Not only are we depleting the forests oceans soil we are also poisoning the air and polluting our rivers lakes and oceans We are living far beyond our means Life as we are creating it is measurably and extravagantly unsustainable Bill Phipps All societies live by their stories This provocative book from one of the most provocative leaders in the Canadian church challenges the governing story that has shaped and defined Western culture and society a story that has manifested itself in ecological destruction war and the obscene military expenditures that go with it unprecedented consumerism economic disparity between rich and poor mistreatment of non white cultures and races sexism and fear Clearly it is time for a new story Bill Phipps takes on the task of outlining the core themes of this new story with the passion and vision of a modern day prophet He shows us the deeply spiritual nature of the issues and choices that confront us Recognizing that the challenges we face are inherently interconnected and can no longer be treated in isolation from each other his approach is multi faceted touching on all aspects of life including the role of the arts in bringing about transformation As a culture and as a society we do indeed stand at a crossroads one of those rare grace moments when we are granted the opportunity to choose our future So the question remains before us Will we choose the way of death or the way of new life Cause for Hope is part warning cry part visionary exploration part encouragement for the journey As such it is itself a cause for hope Each chapter concludes with questions for discussion making this book a valuable resource for study group use

Caesar and the Fading of the Roman World Peter Baehr, 2017-11-30 For many centuries Julius Caesar was a name that evoked strong feelings among educated people Some of these responses were complimentary but others came from the point of view of political republicanism which envisaged Caesar as a historical symbol for some of the most dangerous tendencies a polity could experience Caesar represented everything that republicans detested corruption demagoguery usurpation and as such provided an antimodel against which genuine political virtue could be measured *Caesar and the Fading of the Roman World* examines the reception of Caesar in republican thought until the late eighteenth century and his transformation in the nineteenth when he enjoyed a major rehabilitation in the literary culture and historiography of the day Critical of hereditary monarchy and emphasizing the collective political obligations citizens owed to their city or commonwealth republican thinkers sought to cultivate institutions and mores best adapted to self governing liberty The republican idiom became an integral element in the discourse of the American revolutionaries and constitution builders during the eighteenth century and of their counterparts in France In the nineteenth century Caesar enjoyed a major rehabilitation from being a pariah he was elevated in the writings of people like Byron De Quincey Mommsen Froude and Nietzsche to the greatest statesman of his age Simultaneously Caesar's name continued to function as a term of polemic in the emergence of a new debate on what came to be called Caesarism While the metamorphosis of Caesar's reputation is studied here as a process in its own right it is also meant to highlight the increasing enfeeblement of the republican tradition The transformation of Caesar's image is a sure sign of changes within the wider present day political culture and evidence of the emergence of new problems and challenges Drawing on history political theory and sociology *Caesar and the Fading of the Roman World* uses the image of Caesar as a way of interpreting broader political and cultural tendencies Peter Baehr discusses the significance of living not in a postmodern society but in a

postclassical one in which ideas of political obligation have become increasingly emaciated and in which the theoretical resources for the care of our public world have become correspondingly scarce This volume is an important study that will be of value to sociologists political theorists and historians
