local and national stakeholders maneuver between competition and cooperation coexistence and conflict Contributors probe the notion of coexistence and the logic that underlies centuries of sharing exploring when and why sharing gets interrupted or not by conflict and the policy consequences These essays map the choreographies of shared sacred spaces within the framework of state society relations juxtaposing a site s political and religious features and exploring whether sharing or contestation is primarily religious or politically motivated Although religion and politics are intertwined phenomena the contributors to this volume understand the category of religion and the political as devices meant to distinguish between the theological and confessional aspects of religion and the political goals of groups Their comparative approach better represents the transition in some cases of sites into places of hatred and violence while in other instances they remain noncontroversial The essays clearly delineate the religious and political factors that contribute to the context and causality of conflict at these sites and draw on history and anthropology to shed light on the often rapid switch from relative tolerance to distress to peace and calm

Record of Christian Work Alexander McConnell, William Revell Moody, Arthur Percy Fitt, 1918 Includes music Jerusalem and Other Holy Places as Foci of Multireligious and Ideological Confrontation , 2020-12-07 Jerusalem and Other Holy Places as Foci of Multireligious and Ideological Confrontation brings together the papers that were read at an international conference at the Schechter Institute in Jerusalem in May 2018 The contributions to this volume develop a multi disciplinary perspective on holy places and their development rhetorical force and oft contested nature Through a particular focus on Jerusalem this volume demonstrates the variety in the study of holy places as well as the flexibility of geographic and historical aspects of

holiness Wandering Monks, Virgins, and Pilgrims Maribel Dietz, 2005-01-01 Religious travelers were a common sight in the Mediterranean world during Late Antiquity and the early Middle Ages In fact as Maribel Dietz finds in *Wandering Monks Virgins and Pilgrims* this formative period in the history of Christianity witnessed an explosion of travel as both men and women took to the roads seeking spiritual meaning in a life of itinerancy Much of this early Christian religious travel was not focused on a particular holy place as in the pilgrimage of later centuries to Rome Jerusalem and Santiago de Compostela Rather the inspiration was more practical Travel was a way of escaping hostility or social pressures or of visiting living and dead holy people It was also a means of religious expression of homelessness and temporary exile The wandering lifestyle mirrored an interior journey an imitation of Christ and a commitment to the Christian ideal that an individual is only temporarily on this earth Women were especially attracted to religious travel In the centuries before the widespread cloistering of women a life of itinerancy offered an alternative to marriage and a religious vocation in a society that excluded women from positions of spiritual leadership Eventually ascetic travel gave way to full fledged pilgrimage Dietz explores how and why religious travel and monasticism diverged and altered so greatly She examines the importance of the Cluniac reform movement and the creation of the pilgrimage center of Santiago de Compostela in the emergence of a new model of religious travel goal centered long distance pilgrimage aimed not at monks but at the laity *Wandering Monks Virgins and Pilgrims* is essential reading for those who study the history of monasticism for it was in a monastic context that religious travel first claimed an essential place within Christianity It will also be important for anyone interested in pilgrimage and the role of women in the history of Christianity *Tourism and Religion* Richard Butler, Wantanee Suntikul, 2018-01-30 This book examines both specific issues and more general problems stemming from the interaction of religion travel and tourism with hospitality and culture as well as the implications for site management and interpretation It explores the oldest form of religious tourism pilgrimage from its original form to the multiple spiritual and secular variations practised today along with issues and conflicts arising from the collision of religion politics and tourism The volume considers the impact of tourism and tourist numbers on religious features communities and phenomena including the deliberate involvement of some religious agencies in tourism It also addresses the ways in which religious beliefs and philosophies affect the behaviour and perceptions of tourists as well as hosts The book illustrates how different faiths interact with tourism and the issues of catering for religious tourists of the major faiths as well as managing the interaction between increasing numbers of secular tourists and pilgrims at religious sites
