H. McLeod,2009-07-24 Contrary to popular opinion there is more to Sikhism than the distinctive dress First of all there is the emergence of Guru Nanak the founder of Sikhism and the long line of his successors There are the precepts many related to liberation through the divine name or nam There is a particularly turbulent history in which the Sikhs have fought to affirm their beliefs and resist external domination that continues to this day There is also more recently the dispersion from the Punjab throughout the rest of India and on to Europe and the Americas With this emigration Sikhism has become considerably less exotic but hardly better known to outsiders This reference is an excellent place to learn more about the religion It provides a chronology of events a brief introduction that gives a general overview of the religion and a dictionary with several hundred entries which present the gurus and other leaders trace the rather complex history expound some of the precepts and concepts describe many of the rites and rituals and explain the meaning of numerous related expressions All this along with a bibliography provides readers with an informative and accessible guide toward understanding Sikhism      **Asa Di Var** Sohan Singh (Director),1982      **Sacred and Secular Musics** Virinder S. **Sacred as Secular** Abdolmohammad Kazempur,2022-02-28 Debates about Islam and Muslim societies have intensified in the last four decades triggered by the 1979 Islamic Revolution in Iran and later by the events of 9 11 Too often present in these debates are wrongheaded assumptions about the attachment of Muslims to their religion and the impossibility of secularism in the Muslim world At the heart of these assumptions is the notion of Muslim exceptionalism the idea that Muslims think believe and behave in ways that are fundamentally different from other faith communities In *Sacred as Secular* Abdolmohammad Kazempur attempts to debunk this flawed notion of Muslim exceptionalism by looking at religious trends in Iran since 1979 Drawing on a wide range of data and sources including national social attitudes surveys collected since the 1970s he examines developments in the spheres of politics and governance schools and seminaries contemporary philosophy

and the self expressed beliefs and behaviours of Iranian men women and youth He reveals that beneath Iran s religious facade is a deep secularization that manifests not only in individual beliefs but also in Iranian political philosophy institutional and clerical structures and intellectual life Empirically and theoretically rich Sacred as Secular looks at the place of religion in Iranian society from a sociological perspective expanding the debate on secularism from a predominantly West centric domain to the Muslim world
