Classics and Interpretations Ching-I Tu, 2017-11-30 In recent years in the West scholars have attempted to unravel old constructs of interpretation and understanding using the discipline of hermeneutics or the scientific study of textual interpretation Borrowed from students of the ever growing body of biblical interpretive literature that originated in the early Christian era theoretical hermeneutics has given many contemporary scholars potent tools of textual interpretation *Classics and Interpretations* applies this method to Chinese culture Several essays focus on hermeneutic traditions of Neo Confucianism Others move outside of these traditions to attempt an understanding of the role of hermeneutics in Taoist and Buddhist textual interpretation in Chinese poetics and painting and in contemporary Chinese culture This volume makes a concerted effort to remedy our ignorance of the Chinese hermeneutical tradition Part 1 The Great Learning and Hermeneutics demonstrates the use of commentary to define how the individual creates his social self and discusses differing interpretations of the Ta hsueh text and its treatment as either canonical or heterodox Part 2 Canonicity and Orthodoxy considers the philosophical touchstones employed by Neo Confucian canonical exegetes and polemicists and discusses the Han canonization of the scriptural Five Classics while illuminating a double standard that existed in the hermeneutical regime of late imperial China Part 3 Hermeneutics as Politics discusses the transformation of both the classics and scholars and explores the dominant hermeneutic tradition in Chinese historiography the scriptural tradition and reinterpretation of the Ch un ch iu and reveals the pragmatism of Chinese hermeneutics through comparison of the Sung debates over the Mencius The concluding sections include essays on Chu Hsi and Interpretation of Chinese Classics Hermeneutic Traditions in

Chinese Poetics and Non Confucian Contexts Reinterpretation of Confucian Texts in the Ming Ch'ing Period and Contemporary Interpretations of Confucian Culture Through these literate and brilliantly written essays the reader witnesses not merely the great breadth and depth of Chinese hermeneutics but also its continuity and evolutionary vigor This volume will excite scholars of the Confucian Buddhist and Taoist systems of thought and belief as well as students of history and hermeneutics

State-Religion Relationships and Human Rights Law Jeroen Temperman, 2010-05-17 This book examines the question of how the mode of state religion identification affects the state's scope for compliance with human rights law It presents a human rights based assessment of the various modes of state religion identification and of the various forms of state practice that surround and characterize these different state religion models A close assessment of norms of human rights law substantiates that although human rights law on the face of it is seemingly neutral to the issue of state religion identification legal principles can be extrapolated that have a profound bearing on the question of legitimacy of the possible diverse relationships that may exist between the state and religion A range of thematic case studies on among other issues Establishment of Religion the Equal Religious Rights of Others Religion Freedom of Expression Religion Political Rights Religion Educational Rights Religion Freedom of Association and Religion Equal Employment Opportunities demonstrates that existing regimes of positive state identification with religion are not devoid of forms of institutionalised discrimination and de facto practices of discrimination on grounds of religion or belief or lack thereof At the same time it is observed by the author that in some secular or separationist states the ideals of state secularism and separationism have come to be considered ends in themselves This has given rise to situations where the principles of secularism and separationism are construed so as to impose illegitimate limits on the activities of religions or illegitimate limits on the individual manifestation of certain beliefs This book makes a case for the recognition of a state duty to remain impartial with respect to religion or belief in all regards so as to comply with people's fundamental right to be governed at all times in a religiously neutral manner

Kulathungam,2012-04-25 The human spirit seems incapable of being stagnant ever pushing the boundaries of knowledge and experience We try to understand life through questions regarding our own existence the nature of the universe and the nature of God The question of our collective heart is the external manifestation of an internal longing a quest if you will This thirst to understand reality can be seen in superstructures that are scientific social political and especially religious When considering the doctrines institutions and rituals of religions we observe certain core aspirations expressed by the people of these communities These aspirations generate from an underlying quest which seeks a way out of our perceived predicament a salvific quest Regardless of whether we view ourselves as religious pre religious post religious or non religious we find ourselves involved in such a quest it seems to be an integral part of our human personhood Using a unique framework of analysis this book explores Christ s relevance to the quest expressed by the communities of eight major living religions a relevance that neither degrades Christ nor demeans other saviors Christ is not part of the human quest but is well equipped to satisfy that quest

Faith and Freedom Donald A. Crosby, 2018-05-16 It is sometimes thought that individual religious faith should be firmly fixed in the traditions of the past That once it is established in someone s life it should remain steadfast and unchanging throughout

personal cultural or any other changes This book subverts that idea by showing how it is actually ongoing inquiry examination and indeed change requiring similarly ongoing acts of informed and responsible freedom that will produce a dynamic and meaningful faith Contending that religious faith should readily encompass deliberate and ongoing acts of personal freedom the text outlines various ways in which these dual aspects are more ally than enemy It also demonstrates how the ongoing free choices that are required for genuine faith are not absolute but are in fact contextualized and conditioned by genetic makeup environmental conditioning and present character traits produced in part by a person s past choices Despite this caveat personal freedom is presented as genuine and real with a vitally important role to play in a person s religiosity The book concludes with some observations of this process in practice in the author s own journey from a Christian theist worldview to that of a religious naturalist This is a fascinating treatise on the role of personal freedom in religious faith It will therefore be of significant interest to scholars of religion theology philosophy of religion and religious naturalism
