center of my theological efforts I chose fundamental theology as my field because I wanted first and foremost to examine thoroughly the question Why do we believe But also included from the beginning in this question was the other question of the right response to God and thus the question of the liturgy By starting with the theme of liturgy in this volume Ratzinger wants to highlight God's primacy the absolute precedence of the theme of God Beginning with a focus on the liturgy he said tells us that God is first He quotes from the Rule of St Benedict Nothing is to be preferred to the liturgy as a way of ordering priorities for the life of the Church and of every individual He says that the fundamental question of the man who begins to understand himself correctly is How must I encounter God Thus learning the right way of worshipping is the gift par excellence that is given to us by the faith The essential purpose of his writings on the liturgy is to place the liturgy in its larger context which he presents in three concentric circles First the intrinsic interrelationship of Old and New Testament without the connection to the Old Testament heritage the Christian liturgy is incomprehensible The second circle is the relationship to the religions of the world The third circle is the cosmic character of the liturgy which is more than the coming together of a circle of people the liturgy is celebrated in the expanse of the cosmos encompassing creation and history at the same time

The Boastful Chef John Wilkins, 2000 It is well known that ancient Greek comedy is interested in food and wine Many plays conclude with a feast further they were produced at festivals of Dionysos where eating and drinking took place This book explains the importance of food to comedy it was a medium through which comedy could represent the material social agricultural political and religious worlds to the Greek city state Comedy was a powerful cultural commentator partly because the foods that it represented were resonant markers of the culture There could be no comedy without food Related genres and artefacts are also considered The text also contains translations of hundreds of comic fragments and it reassesses the division of comedy into Sicilian and Attic Old Middle and New

Human Sacrifice in Ancient Greece Dennis D. Hughes, 2013-01-11 Numerous ancient texts describe human sacrifices and other forms of ritual killing in 480 BC Themistocles sacrifices three Persian captives to Dionysus human scapegoats called pharmakoi are expelled yearly from Greek cities and according to some authors they are killed Locrian girls are hunted down and slain by the Trojans on Mt Lykaion children are sacrificed and consumed by the worshippers and many other texts report human sacrifices performed regularly in the cult of the gods or during emergencies such as war and plague Archaeologists have frequently proposed human sacrifice as an explanation for their discoveries from Minoan Crete children's bones with knife cut marks the skeleton of a youth lying on a platform with a bronze blade resting on his chest skeletons sometimes bound in the dromoi of Mycenaean and Cypriot chamber tombs and dual man woman burials where it is suggested that the woman was slain or took her own life at the man's funeral If the archaeologists' interpretations and the claims in the ancient sources are accepted they present a bloody and violent picture of the religious life of the ancient Greeks from the Bronze Age well into historical times But the author expresses caution In many cases alternative if less sensational explanations of the archaeological are possible

and it can often be shown that human sacrifices in the literary texts are mythical or that late authors confused mythical details with actual practices Whether the evidence is accepted or not this study offers a fascinating glimpse into the religious thought of the ancient Greeks and into changing modern conceptions of their religious behaviour **Euripides, Women and Sexuality** Anton Powell, 2003-09-02 Euripides interest in the psychology and social position of women is well known Of the great Greek playwrights he most directly reflects contemporary philosophical and social debates and his work is of great value as a source for social history The important new studies in this volume explore Euripides treatment of sexuality and Greek ideals of women s behaviour Using a wide range of analytic techniques seven scholars direct new light not only on Euripides own views of women but also on the ideals and preoccupations of his contemporaries in this area Athenian women of the classical period were used in Plato s phrase to a life in the shadows This book helps us to see how far the influence of these cloistered women extended into the sunlit world of men
