Saddam's War of Words Jerry M. Long, 2004-04-01 From a Western perspective the Persian Gulf War of 1990 1991 largely fulfilled the first President Bush's objective In out do it do it right get gone That's the message But in the Arab world the causes and consequences of Saddam Hussein's invasion of Kuwait and his subsequent defeat by a U S led coalition were never so clear cut The potent blend of Islam and Arab nationalism that Saddam forged to justify the unjustifiable his invasion of a Muslim state gained remarkable support among both Muslims and Arabs and continued to resonate in the Middle East long after the fighting ended Indeed as this study argues in passing it became a significant strand in the tangled web of ideologies and actions that led to the attacks of 9 11 This landmark book offers the first in depth investigation of how Saddam Hussein used Islam and Arab nationalism to legitimate his invasion of Kuwait in the eyes of fellow Muslims and Arabs while delegitimizing the actions of the U S led coalition and its Arab members Jerry M Long addresses three fundamental issues how extensively and in what specific ways Iraq appealed to Islam during the Kuwait crisis how elites Islamists and the elusive Arab street both in and out of the coalition responded to that appeal and why they responded as they did and the longer term effects that resulted from Saddam's strategy

The Political Economy of War and Peace Murray Wolfson, 2012-12-06 cancer n any malignant tumor Metastasis may occur via the bloodstream or the lymphatic channels or across body cavities setting up secondary tumors Each individual primary tumor has its own pattern There are probably many causative factors Treatment depends on the type of tumor the site of the primary tumor and the extent of the spread Oxford Concise Medical Dictionary 1996 97 Let us begin by stating the obvious Acts of organized violence are not necessarily of human nature but they are endogenous events arising within the an intrinsic part evolution of complex systems of social interaction To be sure all wars have features in common people are killed and property is destroyed but in their origin wars are likely to be at least as different as the social structures from which they arise Consequently it is unlikely that there can be a simple theory of the causes of war or the maintenance of peace The fact that wars are historical events need not discourage us On the contrary we should focus our understanding of the dimensions

of each conflict or classes of conflict on the conjuncture of causes at hand It follows that the study of conflict must be an interdisciplinary one It is or a penchant for eclecticism that leads to that conclusion but the not humility multi dimensionality of war itself
