Competitiveness of the Singapore Economy Mun Heng

Toh,1998 This volume provides an intensive review of the economic competitiveness of Singapore's economy. It identifies and analyses the strategies which will allow the economy to retain its competitive advantage in the years ahead in an increasingly globalised economic environment considerably liberalised international trading and investment climate and with regional economies challenging the country's competitive edge as a regional transportation hub, international financial centre and a primary regional centre for technology and education. Dialogues and interviews with managers and CEOs of industries in the private and public sectors are also included. The Singapore Economy Reconsidered Lawrence B. Krause, Ai Tee Koh, Yuan Lee Tsao, 1990-01-01

This study re-examines some of the issues, challenges and policy options facing the Singapore economy in the light of the 1985-86 recession. Particular attention is paid towards reappraising the role of the government as an entrepreneur in economic activity in macro-economic management in savings and investment and in the labour market. This is done in the context of and alongside an assessment of Singapore's linkages with the global economy and its future comparative advantage in a dynamic international environment. **The Psychology of Financial Consumer Behavior**

Dominika Maison, 2019-02-28 This book stresses the psychological perspective in explaining financial behavior. Traditionally financial behaviors such as saving, spending and investing have been explained using demographic and economic factors such as income and product pricing. The consequence of this way of thinking is that financial institutions view their clients mostly from the perspective of their income. By taking a psychological approach, this book stresses the perspective of consumers confronted with a quickly changing financial world: the changing of financial offers and products, savings, investments, loans, the changing of payment methods from cash to cheques, cards and mobile payments, the accessibility and temptation of goods and the changing of insurance and pension systems. **The Psychology of Financial Consumer Behavior** provides insight into the thought processes of consumers in a variety of financial topics. Coverage includes perceptions of wealth, the pleasure or pain of spending, cashless transactions, saving and investing, loans, planning for the future, taxes and financial education. The book holds appeal for researchers, professionals and students in economics, psychology, economic psychology, marketing and consumer science or anyone interested in financial behaviors. **Handbook of Consumer Finance Research** Jing J.

Xiao, 2008-01-03 Debt consolidation, pension givebacks, Social Security under siege, bankruptcies and foreclosures: Americans' financial lives are fraught with issues, challenges and potential threats in record numbers. **The Handbook of Consumer Finance Research** surveys the social aspects of consumer behavior, offering latest data and original research on current consumer needs as well as identifying emerging areas of research. This accessible volume, which can be read without advanced training in the field, starts with current concepts of risk tolerance, consumer socialization and financial well-being and moves on to salient data on specific settings and populations, including Healthcare spending and retirement savings, Online shopping and e-banking, Family finances, marriage, parent-child communications, student spending, Financial concerns of special groups, minorities, seniors, the poor, Management issues of business-owning families, Consumer protection in fair

lending Given the current climate of rising debt and negative savings the Handbook is timely and instructive reading for educators researchers and policymakers who wish to develop or evaluate financial education programs design research initiatives and understand better how to help families with the economic problems of our times It can also serve as a graduate text in economics finance consumer science business and family studies *Financial Literacy and the Limits of Financial Decision-Making* Tina Harrison,2016-09-20 This book presents selected papers on the factors that serve to influence an individual s capacity in financial decision making Initial chapters provide an overview of the cognitive factors affecting financial decisions and suggest a link between limited cognitive capacity and the need for financial education The book then expands on these cognitive limitations to explore the tendency for overconfidence in decision making and the interplay between rational and irrational factors Later contributions show how credit card companies benefit from limitations in consumer financial literacy how gender and cognition intersect to play an important role in financial decision making and how to improve financial capacity through financial literacy and education campaigns including those addressing developed marketplaces This comprehensive collection of papers will be of value to all readers who seek to better understand the multifactorial and complex nature of personal financial management in today s economic climate
