Singapore, Spirituality, and the Space of the State Joanne Punzo Waghorne, 2020-03-19 This book examines spirituality in Singapore showing how important the city state is for understanding contemporary global configurations of urban space religion and spirituality Joanne Punzo Waghorne highlights how the formal religious spaces temples churches and mosques have been confined to allotted sites on the map of Singapore whereas various spiritual organizations particularly of Hindu origins and headed by a guru still continue to operate as societies classified by the government with other clubs These unconventional religiosities are not confined but ironically make their own places meeting in ostensive secular venues high rise flats malls businesses and community centers thus existing in the overall space of religion commerce and the state The book argues that State of Singapore also operates between the secular and the religious constructing an overarching spatial regime that both accommodates and yet rivals the alternate spheres that spiritual movements construct under its umbrella Both spatial configurations challenge the presumed relationships between myth and reality religion and commerce the ethereal and the concrete the sacred and the secular on the levels of self community and polity Singapore now deemed a model for urban development in Asia also offers an understanding of a new post secularity and perhaps reveals where the urbanized world is headed The "Bare Life" of Thai Migrant Workmen in Singapore Pattana Kitiarsa, 2014-01-05

**Population Policy and Reproduction in Singapore** Shirley Hsiao-Li Sun, 2012-07-26 This book examines the relationship between population policies and individual reproductive decisions in low fertility contexts Using the case study of Singapore it demonstrates that the effectiveness of population policy is a function of competing notions of citizenship and the gap between seemingly neutral policy incentives and the perceived and experienced disparate effects Drawing on a substantial number of personal interviews and focus groups the book analyzes the developmental welfare state's overarching emphasis of citizen responsibility and examines population policies that reinforce social inequalities and ignore cultural diversity These factors combine to undermine elaborate state policy efforts in encouraging citizens biological reproduction The book goes on to argue that in order to facilitate positive fertility decisions the state needs to modify the economic production at all cost approach and pay much more attention to the importance of social rights This suggests that the Singapore government might profitably approach the phenomenon of very low fertility with major initiatives similar to those
