Campbell, 2003-07-31 While the Clinton Administration and federal agencies were busy making government cost less and work better in the near term the United States Air Force was regularly visualizing the competencies needed to assure the organization's long term effectiveness As a result of steady efforts to prepare for the future conducted under successive secretaries and chiefs of staff the Air Force has developed a distinctive approach to strategic planning This approach is fundamentally concerned with ensuring that the organization's future capabilities support effective performance of future tasks Such tasks are shaped by ever changing policy objectives and circumstances of implementation After eight years the Air Force has not only successfully refined its distinctive approach to strategic planning but has also leveraged change in programmatic decisions human resource management and operational technologies This study provides an inside look at how the Air Force came to formulate and declare its strategic intent for developing the organization's capabilities over a timeline of more than twenty years Air Force strategic intent is not a plan but a shared commitment to strengthening specific core competencies and critical future capabilities Michael Barzelay and Colin Campbell reveal how one of the nation's most significant public organizations has reassessed its own strategic intent Drawing lessons from the Air Force experience this book provides a significant contribution to public management research on innovation and executive leadership One key lesson is that preparing for the future is a responsibility that organizations can discharge effectively if they combine insights with practical knowledge of executive leadership and the dynamics of policy change Preparing for the Future provides a fresh argument about innovation and leadership in public management while breaking new ground in the analysis of managerial practices such as strategic v

**Higher Education and Global Poverty** Christopher S. Collins, 2011 This study is founded on several case studies which examine countries including Thailand and Uganda where impact analyses were done on World Bank loans dedicated to the expansion of higher education in science and technology These two countries were chosen because they are in two different regions with dissimilar colonial histories and their loans are relatively recent A case study on crossborder university partnerships also provides a model which other universities and development agencies may utilize when positioning higher education as a poverty reduction strategy Delivering extensive frontline information on education international development and the challenges that follow this book also includes a review of poverty reduction strategies as well as a theoretical framework that covers colonialism development and indigenous knowledge This research conducted on the World Bank and the impact of its policies in two developing countries offers primary source information on work related to the topic A major portion of the book looks at the effort put forth by U S universities in partnership with universities in developing countries for the purpose of using knowledge creation and dissemination as a poverty reduction strategy The policy recommendations presented are useful for international development agencies like the World Bank and the model demonstrated can be used by universities interested in cross border partnerships across lines of economic development This book will be invaluable to

educational researchers qualitative and ethnographic researchers international development specialists and scholars in international education      *International Development Governance* Ahmed Shafiqul Huque, Habib Zafarullah, 2017-09-25 The establishment of good governance is a major challenge for the developing world along with the need to sustain the progress resulting from developmental efforts Although there are numerous studies on the development and governance of emerging nations few volumes make a serious effort to bring together these two critical concepts International Development Governance combines the two concepts development and governance by examining the issues and problems faced by nations in their attempts to establish sustainable governance This textbook also initiates discussions on the concept of development governance in an international context The book fills the gap in existing literature by drawing upon the experience and expertise of scholars from a broad spectrum of knowledge Their views explain the issues and problems with reference to a number of tools that could establish development governance and sustain it The text offers in depth examinations of developmental sectors resulting in a textbook that will inspire future public officials policy makers and consultants to contribute to the betterment of life for citizens of developing countries      **Full Stack Development with Angular and GraphQL** Ahmed Bouchefra, 2022-03-30 Design and develop full stack and cross platform Angular applications using the latest web tooling development techniques and modern app architecture Key Features Implement scalability and maintainability to your full stack apps using Angular modules and components Get the complete source code of the example social network app built using GraphQL and Apollo Manage your Angular applications state using Apollo client for a seamless user experience Book Description GraphQL is an alternative to traditional REST technology for querying Web APIs Together with Angular and TypeScript it provides a tech stack option for building future proof web applications that are robust and maintainable at any scale This book leverages the potential of cutting edge technologies like GraphQL and Apollo and helps Angular developers add it to their stack Starting with introducing full stack development you will learn to create a monorepo project with Lerna and NPM Workspaces You will then learn to configure Node js based backend using GraphQL Express and Apollo Server The book will demonstrate how to build professional looking UIs with Angular Material It will then show you how to create Web APIs for your frontend with GraphQL All this in a step by step manner The book covers advanced topics such as local state management reactive variables and generating TypeScript types using the GraphQL schema to develop a scalable codebase By the end of this book you ll have the skills you need to be able to build your full stack application What you will learn Create a monorepo project with Lerna and NPM workspaces Add realtime support with GraphQL subscriptions Build a frontend with a modular architecture and Material Design UI components to consume the GraphQL API Use GraphQL Code Generator to generate types and code for a type safe and scalable code base Create Angular modules and smart and dumb components and share data between them Use Apollo Client features such as client side queries and reactive variables for local state management Who this book is for The book is aimed at Angular developers who wish to learn

**Climate Change Adaptation in Small Island Developing States** Martin J. Bush, 2018-02-05 A groundbreaking synthesis of climate change adaptation strategies for small island states globally A wide ranging comprehensive and multi disciplinary study this is the first book that focuses on the challenges posed by climate change impacts on the Small Island Developing States SIDS While most of the current literature on the subject deals with specific regions this book analyses the impacts of climate change across the Caribbean the Pacific Ocean and the African and Indian Ocean regions in order to identify and tackle the real issues faced by all the small island States As the global effects of climate change become increasingly evident and urgent it is clear that the impact on small islands is going to be particularly severe These island countries are especially vulnerable to rising sea levels hurricanes and cyclones frequent droughts and the disruption of agriculture fisheries and vital ecosystems On many small islands the migration of vulnerable communities to higher ground has already begun Food security is an increasingly pressing issue Hundreds of thousands of islanders are at risk Marine ecosystems are threatened by acidification and higher seawater temperatures leading to increased pressure on fisheries still an important source of food for many island communities The small island developing States emit only small amounts of carbon dioxide and other greenhouse gases Yet many SIDS governments are allocating scarce financial and human resources in an effort to further reduce their emissions This is a mistake Rather than focus on mitigation i e the reduction of greenhouse gas emissions Climate Change Adaptation in Small Island Developing States concentrates on adaptation The author assesses the immediate and future impacts of climate change on small islands and identifies a range of proven cost effective adaptation strategies The book Focuses on the challenges of climate change faced by all of the world s small island developing States Provides comprehensive coverage of the latest research into the most likely environment impacts Uses numerous case studies to describe proven practical and cost effective policies including disaster management strategies which can be developed and implemented by the SIDS Takes a unique multidisciplinary approach making it of particular interest to specialists in a variety of disciplines including both earth sciences and life sciences This book is a valuable resource for all professionals and students studying climate change and its impacts It is also essential reading for government officials and the ministries of the 51 small island developing States as well as the signatories to the 2015 Paris climate agreement

Proceedings of the 2nd International Conference on Changing of Business Law (ICOCLB 2024) Edy Lisdiyono, Ade Saptomo, Faisal Santiago, I Nyoman Budiarta, Ahmad Sudiro, Zaenal Arifin Hoesein, Laksanto Laksanto, Wasis Susetio, Zulfikar Judge, 2025-02-08 This is an open access book Currently the influence of shifts and changes in the legal system due to global political social and economic dynamics demands significant changes to harmonize and adapt the various realities of human relations which are currently dominated by various activities in cyberspace Law is the most important and strategic instrument in organizing the space for social

interaction and changes in other social institutions and institutions in the current era Therefore it is not only about 3 legal instruments such as norms legal institutions and their enforcement but the most important thing is legal education which will build not only legal instruments and systems but also awareness of a new legal culture Thus structuring legal education and its educational ecosystem which is connected to other aspects such as economics social cultural religious political and so on is a necessity that continues to be developed Law is also the glue and device of a world that is all connected and cross border connected to the digital world as well as an interconnected global society making an agreement on a common global goal help individuals institutions and governments throughout the world to agree on the direction of development focusing on things that are truly beneficial for the future directing all parties to focus on the same thing mobilizing all resources and making it easier to organize and implement so that all parties can move together towards the achievements they hope for By having a common goal every policy and development step taken by every national leader will always be tested by the public This means that a common goal provides a common opportunity for all elements of society to control the entire development process in order to remain faithful to the path towards mutual achievement encouraging mobilization all networks of expertise knowledge and practices to overcome various difficulties faced in implementing sustainable development and mobilize all stakeholder networks This multi stakeholder process is critical to addressing complex challenges in sustainable development and the fight against poverty hunger and disease In line with the global agenda called Sustainable Goals Development especially point 4 of SGD s goals which sets the goal of providing quality education this is also included in the world of legal education The SDGs goals above are interconnected and influence each other To achieve the SDGs goals collaboration and cooperation are needed These SDGs are a global commitment to achieve better sustainable development Every country including Indonesia has a responsibility to achieve the SDGs goals By paying attention to sustainability aspects in every decision and action we can build a better and more sustainable future for future generations Thus there is a need for strategic partnerships especially at the national and regional levels which will harmonize various curricula and learning methods especially in the field of law in order to achieve a parameter of success in the development of national and regional law which is one of the elements of the resilience of a country or region This is considered necessary and strategic considering that currently the dynamics of the region are being influenced by global turmoil in various fields as well as the ongoing struggle for hegemony among world geopolitical and geoeconomic forces in the new world balance order Therefore this international seminar and call for papers is an opportunity for participants to find out about harmonization and strategic cooperation in legal education especially in the era of disruption economic and digital and to know its relevance for development at the ASEAN level
