Intermediate Algebra Marvin Bittinger, David Ellenbogen, Barbara Johnson, 2017-02-17 For courses in Intermediate Algebra Understanding and Applying Mathematical Concepts The goal of the Bittinger Concepts and Applications Series is to help today's student learn and retain mathematical concepts. This proven program prepares students for the transition from skills-oriented elementary algebra courses to more concept-oriented college-level mathematics courses. This requires the development of critical thinking skills to reason mathematically, to communicate mathematically, and to identify and solve mathematical problems. The new editions support students with a tightly integrated MyLab™ Math course, a strong focus on problem solving, applications, and concepts, and the robust MyMathGuide workbook and objective-based video program. In addition, new material developed as a result of the authors' experience in the classroom, as well as from insights from faculty and students, includes more systematic review and preparation for practice, as well as a stronger focus on real-world applications. Also available with MyLab Math MyLab™ Math is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. Note: You are purchasing a standalone product. MyLab™ does not come packaged with this content. Students interested in purchasing this title with MyLab should ask their instructor for the correct package ISBN and Course ID. Instructors contact your Pearson representative for more information.
