Feeding and Care of the Domestic and Long-Haired Cat Ellen V. Celty,2015-06-02 Excerpt from Feeding and Care of the Domestic and Long Haired Cat The owner of one or two cats if they be queens or neuters is not confronted with the problem of proper housing but should you find yourself with two or more males and several queens it then becomes necessary to give them proper quarters in which to live The building does not need to be elaborate but if possible should have a southern exposure well up from the ground plenty of windows as light and air are very essential Large roomy quarters for each male and do not attempt to house two males together Each room should be at least four by six feet with a wood floor covered with linoleum or any covering that can be scrubbed Rough wood floors not properly covered spoil the cats coat and make a good hatching place for flea eggs Attach to each room by a hole cut in the wall an outside run as large as space will permit I would suggest that this run be roofed as the hot sun plays havoc with the color of most of the long haired cats About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
