Ethical Patient Care Mathy D. Mezey, Christine K. Cassel, Melissa M. Bottrell, Kathryn Hyer, Judith L. Howe, Terry T. Fulmer, 2003-04-29 The delivery of good medical care often involves professionals from various disciplines working together Interdisciplinary health care teams can be especially valuable in managing patients with complex medical and social needs such as older persons in hospital community or home settings Such teams however can also complicate or even create problems because of their diverse views and responsibilities Ethical Patient Care A Casebook for Geriatric Health Care Teams is designed to teach effective and responsible group decision making to clinicians working in teams to treat older patients The editors use the case study method to present ethical dilemmas that team members encounter in the management of geriatric patients Patients with multiple chronic conditions so often require the care of more than one medical specialist and in the introductory chapters the editors suggest ways to resolve conflicts among patients health care professionals and the institutions that support them including hospitals HMOs insurance companies and the government The book is then divided into four sections each dealing with one angle of the team care picture The first section treats the diverse ethical imperatives of various professionals conflicts among disciplinary approaches and and varying attitudes toward end of life decision making Section two focuses on the patient and covers patient confidentiality family decisionmaking and interaction with the healthcare team issues of patient and team nonadherence to the care plan and elder abuse and neglect Section three examines the emerging difficulties of decentralized health care in settings such as hospitals nursing homes and the home including clinician accountability and how ethical dilemmas differ across settings Section four discusses the problems arising from the increasing responsibility of clinicians to manage costs and serve the interests of hospitals and insurers Ethical Patient Care is a valuable resource for bioethicists gerontologists and the physicians nurses social workers and therapists who care for aging persons

Health Care Financing Review, 1997

Autonomy & Paternalism Thomas Nys, Yvonne Denier, Toon Vandeveld, 2007 In recent years the triumph of autonomy has made paternalist interventions increasingly problematic The value of a patient's right to self determination and the practice of informed consent are considered supremely important in present day health care ethics In general the idea of doctor knows best has become more and more suspicious This has left us with a situation in which paternalist medicine seems difficult to reconcile with respect for patient autonomy This book offers a thorough reflection on the relationship between autonomy and paternalism and argues that from both theoretical and practical angles the tension between these concepts is not as acute as it might seem In long term care psychiatry and care for the severely handicapped the principle of respect for autonomy is particularly ill suited This however does not mean that such respect is totally irrelevant but that it should take a different shape Good care in those cases requires us to transcend the sharp dichotomy between autonomy and paternalism

Autonomy and Paternalism Reflections on the Theory and Practice of Health Care various acclaimed authors present their views on this interesting and extremely relevant debate

[The Cambridge Handbook of Age and Ageing](#) Malcolm L. Johnson, Vern L. Bengtson, Peter G. Coleman, Thomas B. L. Kirkwood, 2005-12-01 The Cambridge Handbook of Age and Ageing first published in 2005 is a guide to the body of knowledge theory policy and practice relevant to age researchers and gerontologists around the world It contains almost 80 original chapters commissioned and written by the world's leading gerontologists from 16 countries and 5 continents The broad focus of the book is on the behavioural and social sciences but it also includes important contributions from the biological and medical sciences It provides comprehensive accessible and authoritative accounts of all the key topics in the field ranging from theories of ageing to demography physical aspects of

ageing mental processes and ageing nursing and health care for older people the social context of ageing cross cultural perspectives relationships quality of life gender and financial and policy provision This handbook will be a must have resource for all researchers students and professionals with an interest in age and ageing *Vulnerable Populations in the Long Term Care Continuum* Paul R. Katz, MD,2003-11-17 Since publication of the last series volume focusing on emerging systems long term care has continued to evolve This present volume brings to the forefront issues related to populations of varying age groups that have been neglected or under reported The chapters focus on populations or groups of professionals that are integral to long term care as recipients of services or as care providers The authors present evidence to foster the creation of new paradigms of care and inform policy makers of the need for innovation Topics examined include Pediatric Skilled Nursing Facilities Mental Health Services Management of AIDS Patients Chronic Illness and Disability in the Prison Setting Sexuality in long Term Care Decision Making for Vulnerable Populations in the Nursing Home **Supporting the Caregiver in Dementia** Sheila M. LoboPrabhu,Victor A. Molinari,James W. Lomax,2006-06-19 Dementia is one of the greatest challenges facing seniors and their caregivers around the globe Developed by experts in both research and practice this guide for mental health clinicians explores the experience of caregiving in dementia discussing the latest research developments and sharing clinical pearls of wisdom that can easily be translated to daily practice The contributors explore the history of caregiving and then examine the current demographics of caregivers for persons with dementia They discuss who provides care the settings in which it is delivered and the rewards and burdens of caregiving They place special emphasis on understanding the psychological needs of both the person with dementia and the caregiver as well as interpersonal bonds spiritual dimensions and reactions to grief and loss Using a multidisciplinary approach to treatment for caregivers this book addresses the role of pharmacotherapy individual and family interventions and social supports Finally the authors reflect on societal issues such as health care policies ethnic elders and ethics This volume offers health professionals insights into the daily lives of caregivers along with tools to provide their patients with the support they need

Ethics in Community-Based Elder Care Martha B. Holstein,Phyllis B. Mitzen,2001-10-11 Caring for elders outside of institutions is the fastest growing sector of US health care Building on their research study at the Park Ridge Center editors Holstein and Mitzen together with a team of experts examine the complexities involved in developing an ethics for community based long term care They also challenge policymakers to make home care a more viable option for older people in need Chapters address many of the ethical and practical problems that arise in the care of older people with physical and mental disabilities including how to allocate scarce funds how to keep good caregivers how to balance concerns of autonomy risk and safety and worker stress The volume is an excellent resource for practitioners policymakers and students

Palliative Care Nursing O'Connor Margaret,Aranda Sanchia,2018-10-08 Written by experienced authorities from around the world giving a wider international perspective on palliative nursing this substantially expanded new edition has

been specifically adapted to reflect working practices within the NHS All nurses especially those that are new to palliative care and those working in other areas of health where palliative skills are required will find this essential reading Our Hands Are Tied Marshall Kapp,1998-05-12 As a critical examination of the pervasive tension existing between defensive medicine and good ethical patient care this book investigates the impact of legalities on medical treatment Physicians today are apprehensive about the threat of malpractice suits Kapp explores the extent to which this fear is justified He examines where physicians get their ideas about what the law forbids and requires how physicians perceptions of the law and medicine affect medical care and whether these behavioral manifestations benefit or hurt a physician s ability to practice ethically Kapp then suggests ways medical professionals can resolve tension caused by conflicting demands and encourage more ethical care

Handbook of Bioethics: G. Khushf,2006-04-11 In general the history of virtue theory is well documented Sherman 1997 O Neill 1996 Its relationship to medicine is also recorded in our work and in that of others Pellegrino and Thomasma 1993b 1996 Drane 1994 Ellos 1990 General publications stress the importance of training the young in virtuous practices Still the popularity of education in virtue is widely viewed as part of a conservative backlash to modern liberal society Given the authorship of some of these works by professional conservatives like William Bennett 1993 1995 this concern is authentic One might correspondingly fear that greater adoption of virtue theory in medicine will be accompanied by a corresponding backward looking social agenda Worse yet does reaffirmation of virtue theory lacquer over the many challenges of the postmodern world view as if these were not serious concerns After all recreating the past is the retro temptation of our times Searching for greater certitude than we can now obtain preoccupies most thinkers today One wishes for the old clarity and certitudes Engelhardt 1991 On the other hand the same thinkers who yearn for the past like Engelhardt sometimes seems to do might stress the unyielding gulf between past and present that creates the postmodern reaction to all systems of Enlightenment thought 1996 *The Future of Long-Term Care* Robert H.
