New Approaches to Chinese Word Formation Jerome L. Packard, 2011-07-22 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language. The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science. TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages. It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language. The Horizontal Skyscraper Bjørn B. Erring, 2002. Chinese cities are undergoing profound changes. Urban development has transformed the townscape: low rise structures based on courtyard type housing, horizontal in character, have been replaced by vertical constructions. In the 1980s and 1990s Chinese cities were featured by the conflicting wishes for rapid modernization and cultural continuity. The articles of this book refer to experiences drawn from this particular period of time and are selected among case studies and related theoretical considerations. The case studies are concentrated on four cities: Beijing, Xi'an, Quanzhou and Shanghai. The authors have all been active in different fields of urban transformation in historic Chinese cities. They are politicians, historians, planners, anthropologists, architects and scholars. The articles describe the substantial transformation of the cities and the implications of this change. The contributing authors represent three countries: China, France and Norway. They all participated in two conferences in 1995 and 1996 dealing with urban renewal in housing areas of traditional Chinese cities. The outcome of these conferences constitute the raw material for this book.
